

Sir John A. Macdonald fonds, MG 26 A
Finding Aid 104 Part II
Oversize items

Introduction

Finding aid 104 Part II contains an item level list of oversize material in Volumes 597 to 802. The documents were separated from their original location within the Sir John A. Macdonald fonds for conservation purposes.

Some of the oversize items, particularly the election posters, have been microfilmed in their original location in the fonds. Because of the fragile nature of many of the oversize documents, researchers are asked to first consult the microfilm to view an item if possible. The former reference column in the finding aid indicates the volume and page number of the item in its original location. Use the microfilm conversion list to select the correct microfilm reel.

Volumes 803 and 804 contain additional items which have been withdrawn from circulation. Researchers must consult the copies available in other volumes or on microfilm.
