### **Note Regarding the Organization of the Finding Aid**

The finding aid has been organized to reflect the intellectual order (series and subseries) of the fonds, rather than the physical arrangement of the files in boxes. Although the finding aid is generally organized sequentially, beginning with Volume 1, some entries are located with their appropriate series, rather than their physical location. Oversize items have also been treated in this manner.

## File Conversion List

The Louis Audette fonds underwent a major reorganization in 1995. New papers were received and the original eight volumes were integrated into the new arrangement, changing their volume numbers. The following conversion list is intended to assist researchers in locating those original files in their present volumes.
