INTRODUCTION

Though the Andrew D. Ross papers are not divided into separate series, by topic, the chronological organization of the papers follows divisions which are easily recognizable.

File 1, Volume 1 is the only exception to the chronological arrangement of the papers. This file contains biographical information concerning A.D. Ross, 1936-1979.

Files on A.D. Ross's youth, career as a journalist, and officer during World War II are contained in volumes 1-2.

The remainder of the papers, volumes 3-6, contain material concerning Ross's diplomatic career with the Department of External Affairs. Of these volumes, most papers concern Ross's period as Canadian Ambassador to Chile, 1971-1975. The overthrow of Salvador Allende's government and his assassination on 13 September 1973 and the ensuing media controversy in Canada over the Canadian government's reaction to the new regime are well documented in this collection.
