INDEX BY NAME AND SUBJECT OF FINDING AID	235

INTRODUCTION

Sources du fonds

Le fonds Jean-Marchand origine de deux sources principales. La première comprend les documents des bureaux de ministre des différents ministères dont il a été le ministre. Ces documents étaient, pour la plupart, classés selon un code numérique. La seconde source est constituée des documents recueillis dans sa résidence d'été et dans sa famille.

Séries du fonds

Nous avons divisé le fonds en séries correspondant tout d'abord aux étapes de la carrière de Jean Marchand à partir de ses études jusqu'aux dernières années de sa vie en passant par les différentes fonctions politiques qu'il a remplies. A cela s'ajoute la collection de ses agendas, une collection de coupures de presse sur sa carrière ministérielle et des index.

Les documents recueillis dans sa résidence et dans sa famille ont été divisés chronologiquement dans les différentes séries et sont classés par ordre alphabétique à l'intérieur de chacune de ces séries.

Pour les documents numériques des bureaux de ministre, on a respecté le nom du ministère et le numéro inscrit sur le dossier même si dans certains cas des documents avaient été transférés d'un précédent ministère. C'est pourquoi, on trouvera, par exemple, des documents reçus par Jean Marchand, ministre de l'Expansion économique et régionale dans les dossiers du Ministre des Transports.

Codes numériques

Il y a trois systèmes de codes numériques: 1) celui du bureau du ministre des Forêts, celui du bureau du ministre de l'Environnement et celui qui a été utilisé par les bureaux du ministre de l'Expansion

économique et régionale et du ministre des Transports. Dans ce dernier cas, il y a parfois dédoublement de codes pour deux sujets différents. C'est le cas par exemple des deux sous-séries "5", "8" et "9" de la série "Ministre des Transports" (voir la table des matières).

Langue de description

Nous avons indiqué les titres des séries de documents dans les deux langues officielles du Canada. Les sous-séries sont indiquées dans la langue utilisée par le bureau du ministre. La description des dossiers est faite, autant que possible, dans la langue de la majorité des documents inclus dans ces dossiers. Cependant, la plupart des dossiers comprennent des documents dans les deux langues.

Divisions de l'instrument de recherches

L'instrument de recherche identifie les 12 séries et les sous-séries que l'on peut retrouver à la table des matières. Au besoin, certaines subdivisions des sous-séries ont été identifiées afin d'éviter de répéter des mêmes titres. Chaque titre de dossier se rattache à la subdivision identifiée.

HONORABLE JEAN MARCHAND
