INTRODUCTION

The finding aid is arranged alphabetically into ten series, each of which is considered below. Their relationship to one another is at times very difficult to separate and therefore the General Files Series and the Personal Files Series were created to accommodate material which did not fit exclusively in one series. The Personal Files Series is based on a group of files Dyson had identified as personal to which additional files have been added. The Thesis and Canada Council Project Series has been left together as the CC project was an extension of the Thesis and the material is impossible to separate. The other series relate to Dyson's working career as a social worker and consultant. The file titles, Dyson's whenever possible, are arranged alphabetically and then chronological within each series.
