## **Introduction**

The file lists in this finding aid were produced by the Communications, Energy and Paperworkers Union of Canada and amended at the National Archives of Canada.

## **Ordering Information**

To order boxes, researchers should indicate the appropriate accession number as well as the call number (MG 28, I 484) and box numbers on the request slip.

## **Remarks Concerning Collective Agreements Series (Accession 1995/0011, boxes 1 to 62)**

The file list for the Collective Agreements series provides such information as: the most recent name of the employer; previous names of the employer, and the year of transfer or name change; the type of plant (e.g., newsprint, packaging, fine paper); the location; local union number(s); and employee group (e.g., mill, plant, office, firemen, guards). The file titles in the boxes also give the outside dates of each file.

The files are generally arranged alphabetically by the current or most recent name of the company, although sometimes they appear in the alphabetical sequence under the penultimate name. (For example, "Rainy River Forest Products" appears in the list with the other files on the predecessor company, "Boise Cascade Canada Ltd.")

There is some cross-referencing in the list of collective agreements. For example, the entry for "Avenor" refers the researcher to subsequent files on "Canadian Pacific Forest Products," the earlier name.
