## INTRODUCTION

This finding aid, up to volume 21, covers a total of about 30,000 pages of documents, including some 1,800 letters and many photographs. This represents a lifetime collection pertaining to various volunteer organizations, in most of which we have been active over a period of about 40 years. We organized these documents over the past 2 years, and outlined them, wherever possible, according to the organization to which they belong.

These papers include newspaper articles, bulletins, notices, minutes of meetings, letters, photographs, personal notes and other documents. In some cases, where we were fairly deeply involved in the work of the organization, we have made some short remarks as to the significance of those documents.

In presenting these papers it is with the hope that they will be of use to students and others who may wish to study or write about the story of our community.
