

FINDING AID 645

COLONIAL OFFICE 323,
vols. 90~~2~~-916, 918, 920-924, 926-933.Introduction:

This class includes the series formerly known as PLANTATIONS GENERAL among the Board of Trade correspondence (1689 to 1780), Law Officers reports on Colonial Acts, applications for passports and colonial appointments, semi-official correspondence and correspondence, including circular dispatches, relating to the Colonies generally. Between 1801 and 1854, when the departments of War and Colonies were under the same Secretary of State, much of the correspondence concerns both departments. The Public Archives of Canada only microfilmed items of interest to Canada. Each volume is preceded by a list of contents, giving the name of the originating office or individual, the date of the original item, and a brief subject description. Researchers should note that items accompanying and relating to the original letter are not indexed. The following finding aid has been compiled from the lists of contents and from the minute sheets covering the original item.

Volume 902 (B-3763)
