INTRODUCTION

Finding aid #198 describes both the papers of William Morris (MG 24 B 8) and the papers of Alexander Morris (MG 27 I C8). This was necessitated because the William and Alexander Morris correspondence at Queen's University from which this microfilm copy was taken is contained in the same unit and was microfilmed as a unit (microfilm reels M67 and M68). Microfilm reels M69-M70 are Alexander Morris papers (MG 27 I C8) filmed from originals at the Manitoba Archives.

The finding aid consists of a listing of all the items contained on microfilm reels M67 and M68, and to portions only of reels M69 and M70. The Shelf-List which follows indicates to which portions of reels M69 and M70 there is a finding aid.

There is no finding aid other than the inventory entry to the hard-copy (originals or photostat) of either the William Morris or the Alexander Morris papers.
