### BIOGRAPHICAL SKETCH OF LOUIS ROSENBERG

Louis Rosenberg, F.R.S.S., F.R. Econ. S., was born in Gonenz, Poland in 1893 and was taken to England by his parents when he was 2 years old. He was educated at the University of Leeds and upon graduation was induced to emigrate to Western Canada in 1915 by a Dominion Emigration Agent visiting the university to promote the immigration of teachers and other professionals.

In 1915, Mr. Rosenberg became principal of the Tiferes Israel School in Lipton, Saskatchewan, a community of Jewish farm colonists. From 1919 until 1940 Mr. Rosenberg was the Western Canadian Director of the Jewish Colonization Association in Winnipeg which had its headquarters in Paris, France. In 1940 he became Executive Director, Western Division of the Canadian Jewish Congress in Winnipeg and shortly after, in 1945, Mr. Rosenberg was appointed National Research Director of the Bureau of Social and Economic Research of the Congress in Montreal, a position from which he retired in June 1968 at the age of 75.

Throughout his long life Mr. Rosenberg took an active part in community affairs: as a scoutmaster in England, as chairman of the Regina Public School Board and of the Regina Public Library, and as an active participant in Jewish community organizations, in particular the Canadian Jewish Congress. A proponent of social democracy, Mr. Rosenberg was one of the founders of the C.C.F. and was one of their pamphleteers and public speakers. Perhaps most noted in this respect was Mr. Rosenberg's series of articles "Who Owns Canada" under the pseudonym "Watt Hugh McCollum". In his research and writing Mr. Rosenberg concentrated on statistics and sociology. As research director at the C.J.C. he published a series of statistical and demographic studies of the Jewish community in Canada which are generally acknowledged to be accurate and perceptive.

### NOTE CONCERNING THE MICROFILM

Only the first 35 volumes of this collection have been filmed. In the case of several volumes certain files have not been filmed, these files are noted with an asterisk (\*). These contain items of a personal nature which are of little relevance to the study of the Jewish community (e.g.: personal financial records in volumes 3 and 4) or which contain chiefly handwritten notes which would be difficult or impossible to decipher or understand on film (usually these files are useful to understand Mr. Rosenberg's research methods rather than to study Canadian Jewry).

The filming of each volume is preceded by a file list for that volume and any files not filmed are noted there. Researchers are also advised to consult the Finding Aid to the Collection which is available on microfiche in many libraries. (See Canada, Public Archives, Manuscript Division, Finding Aid No. 966.)
