Note on 'Manitoba Impressions' (Manitoba Calling)

This is a series of recordings made by radio station CKY in the summer of 1940 by equipping a truck with recording equipment and its own power generator and making several trips to different parts of the province of Manitoba. The recordings may have been made either for the CKY programs 'Manitoba Impressions' or 'Manitoba Calling'. Also it is impossible to know from the disc labels what parts of these recordings were used in actual broadcasts. To the best of our capacity we attempted to rerecord them in the same order that the original recordings were made, keeping each day separate.

CKY announcer, <sup>R.P.</sup>~~Denny~~ Coats, is the host on all of these recordings and he describes in considerable detail parts of these trips as well as interviews a wide assortment of people. The intention of these programs, it appears, was to demonstrate the flexibility of radio and to advertise Manitoba to the listening audience of CKY. Particularly the expanding tourist and recreation facilities of northern Manitoba were considered deserving of promotion.

## *Manitoba Impressions - - Recorded*

AS a contribution to Manitoba's tourist campaign and to the nucleus of what may become a valuable historical collection, the Radio Branch of the Manitoba Telephone System has commenced a series of visits to points in the Province for the purpose of recording descriptions of scenery en route, interviews with citizens on a variety of subjects, and sounds associated with notable events.

The first journey of the series was to The Pas, where recordings were made of part of the Centenary Service in Christ Church, brief talks on fish and game by officials of the Provincial Department of Mines and Natural Resources, and references to other interesting subjects. Stops were made at a number of towns on the road so that representative residents could be brought to the microphone.

It is not intended that each trip by our mobile recording unit shall completely cover everything of interest along the way. Many features must inevitably be missed in the initial visit. The idea is rather to gather impressions from year to year, taking various phases of Manitoba activity in turn, and so, in the course of time, form a library from which future broadcasters may draw a wealth of program material.

As the mobile unit was leaving for The Pas, on the morning of June 21st, the Hon. W. J. Major, K.C., Minister of Telephones, recorded a few words of farewell to the expedition and expressed good wishes for a successful tour.

Some of the transcriptions are now being broadcast by CKY and CKX on Mondays and Fridays at 4.45 p.m. C.S.T., with the title:—"Manitoba Impressions—Recorded".

August 9, 1939
