Restricted

The general restrictions for the fonds are as follows:

Non-sensitive materials: Canada Medical Act, Letters of Patent of continuance, background papers for changes in the Canada Medical Act, articles, notes, speeches booklets on the Act, working copies of Dr. Kerr's History of the Medical Council of Canada, any published materials and the like. These materials are open to all researchers.

Sensitive materials: Financial records, minutes of Council, minutes of Executive Committees and Examination Committees, general correspondence, memoranda and the like. These materials will be restricted for a period of twenty years from the date of their creation. Access will be given with the permission of the Director, Credentials and Registration, Medical Council of Canada.

Highly sensitive materials: Applications for registration, materials on licentiates, lists of examination results, examination questions and any other personal or sensitive information. These materials will be closed for a period of seventy-five years from the date of their creation. This policy will be reviewed at twenty-five year intervals until all the material is open.

For further information see the Economic and Public Archives section. Partial lists are available on the SNAP file.
