RADIO STATION PROGRAM LOGS

INTRODUCTION

As a pilot project, the Information Retrieval Division has put on microfilm a sampling of Radio Station Program Logs for the years 1970, 1971 and 1972.

The station listing for the years 1970 and 1971 is incomplete; the dates of the program logs coincide with the dates of the BBM survey. The dates for these years however were taken at random from the four BBM survey periods.

The listing of the 1972 logs is complete; the dates all coincide with the November 6 - 12, 1972 BBM survey.

In Part I and Part II of the index, the stations are listed alphabetically by call sign.

For those interested in obtaining program information by town, province or frequency, use can be made of the publication "Broadcasting Stations in Canada" where cross-references to call signs are made.

The log for the stations listed are now available on microfilm and can be viewed upon request through the Information Retrieval Division.
