

**FINDING AID:** 12-41 *see*

**RECORD GROUP:** RG 12, Records of Transport Canada

**ACCESSION:** 86-87/119

**SERIES:** A.1, Central Registry Files (Air)

**BOXES:** 3000 Microfiche

**DESCRIPTION:** The finding aid is a microfilm content list.

**INSTRUCTIONS:** The records in this accession consist of micro-jacket copies of aircraft registration files from the Canadian Air Transportation Administration. There are also microfilm copies of these files available in Accession 86-87/121. For the purpose of providing finding aids, all microform copies of aircraft registration files are presently organized according to the roll format of the microfilm; hence, the files listed under each roll number on this finding aid also represent the files to be found in this accession in a corresponding "package" of micro-jackets. Each package of micro-jackets is therefore identified by its corresponding roll number.

January 1988
