

FINDING AID: 15-13

RECORD GROUP: RG 15 - Department of the Interior

SERIES: D-II-8-i - Lands Scrip to Métis

VOLUMES: 1406-1410

DESCRIPTION: The finding aid gives the location (i.e., the volume number in RG 15) of land scrip notes awarded to Métis residents of the former North-West Territories. The records are grouped according to the amount (in acres) of the scrip and, within each group, by the serial number of the scrip note.

INSTRUCTION: To find land scrip awarded to a particular individual, researchers must first obtain the scrip serial number. The latter may be found by consulting the delivery registers for Manitoba and North-West Territories scrip. The registers are organized alphabetically according to the last name of the claimant. Each entry records: the scrip serial number, name and address of the person or agent to whom the scrip was issued; date of scrip delivery; a brief description of the authority (i.e. the Scrip Commission) under which the scrip was awarded; the amount and type of scrip issued; the application number (if available); the number and date of the receipt; the case file reference number, the certificate number and general remarks concerning the claim by departmental administrators. The registers are in three volumes. For scrip deliveries made between July 1885 and December 1887, please see the register which is now retained RG 15, Vol. 1518, which is also duplicated on Aperture Card Book 101 and microfilm reel C-11879; for deliveries made between January 1888 and July 1899, please see the register which is now retained in RG 15, Vol. 1519, which is also duplicated on Aperture Card Book 102 and microfilm reel C-11879, C-11880; and for deliveries made between August 1899 and 1928, please see the register which is now retained in RG 15, Vol. 1520, which is also duplicated on Aperture Card Book 103 and microfilm reel C-11880.

DATE: June 1994
