The Report on Archaeological Testing of Watamaniuk Site includes a site description which outlines the site features, descriptions of artifacts, and recommendations for site preservation. Report includes maps of archaeological sites, site photographs, and artifact photographs. The Heritage Resource Study, CCC File: 080C74-90-R-0015 and USAF File: F66450-90-R-0016, outlines the history of the DEW Line project, objectives of the study, methodology, and heritage resources database. The report provides the results of the study by site and includes information on environmental setting, previously recorded archaeological sites, observations made during the 1990 study such as newly identified sites, site potential, and assessment and recommendations. Site maps and figures of archaeological sites are included for each site, and photographs are included for some sites. The end of the report includes a summary and conclusions for the western sector, central sector, and eastern sector. Appendixes to the report include site inventory forms, site locations, faunal material analysis, conservations reports and treatment records. At the front of the study, there are two memorandums marked draft forwarding the study. | Locations mentioned in the file include: BAR-1 KOMAKUK BEACH - YUKON; BAR-2 SHINGLE POINT - YUKON; BAR-3 TUKTOYAKTUK - NWT; BAR-4 NICHOLSON PENINSULA - NWT; CAM-1 JENNY LIND ISLAND - NUNAVUT; CAM-2 GLADMAN POINT- NUNAVUT; CAM-3 SHEPHERD BAY - NUNAVUT; CAM-4 PELLY BAY - NUNAVUT; CAM-5 MACKAR INLET - NUNAVUT; CAM-M CAMBRIDGE BAY - NUNAVUT; DYE-M CAPE DYER - NUNAVUT; FOX-2 LONGSTAFF BLUFF - NUNAVUT; FOX-3 DEWAR LAKES - NUNAVUT; FOX-4 CAPE HOOPER - NUNAVUT; FOX-5 BROUGHTON ISLAND - NUNAVUT; FOX-M HALL BEACH - NUNAVUT; PIN-1 CLINTON POINT - NWT; PIN-2 CAPE YOUNG - NUNAVUT; PIN-4 BYRON BAY - NUNAVUT; PIN-M CAPE PARRY - NWT. The report reviews the overall performance and quality of data provided by Zenon Environmental on the DEW Line clean up study. The report is divided into metals, PCB's and TPH, and volatiles and semi-volatiles. The metals section provides information on EPA Methods performance, Zenon accuracy and precision, effects of digestion procedure, DEW Line duplicate analysis, inhomogeneity, and effect of precision on MDL's. The PCB's and section provides information on EPA Methods performance, Zenon method performance. Inhomogeneity, and hold times. The volatiles and semi-volatiles section provides information on EPA Methods performance, Zenon accuracy and precision, volatiles hold times, and semi-volatiles. | Locations mentioned in the file include: Other - No location indicated in file. | 49 | R112 | RG24 | 2021-00207-1 | 4 | 7690-DLCU001-F00141 | | PIN-1 Clinton Point - No. 6648-001-00-03-3.4.6 | File focuses on the assessment of the PIN-1 Clinton Point DEW line site. File contains two PIN-1 as-built maps (AAP-1 and AAP-2) created in 1957 and updated to 1967, 1970, and 1971. File also contains two technical drawings (Drawing No. S2-0435), which depict section one and two of the site plan for the PIN-1 DEW Line station. The two technical drawings were produced by the department of the Air Force in association with the Canadian Aero Service, and Knappen-Tippetts-Abbott-McCarthy consulting engineers from New-York. The technical drawings, which are attached by a paper clip include a list of their revisions, as well as general notes on the plan and a concise property description of the PIN-1 location. | Locations mentioned in the file include: PIN-1 CLINTON POINT - NWT. Organizations mentioned in the file include: AECOM Canada Limited. | 1969/05/14- 1990/07/24 |
| 50 | R112 | RG24 | 2021-00207-1 | 4 | 7690-DLCU001-F00142 | | PIN-M Cape Parry - No. 6648-001-00-03-3.4.5 | File focuses on the assessment of the PIN-M Cape Parry DEW line site. File contains three original PIN-M as-built maps created in 1957 and updated to August 1985. Map 3 features highlights and undated handwritten addendums. File also contains two technical drawing (No. S2-0428) which depict section 1 and section 2 of the site plan for the PIN-M DEW Line station. The PIN-M site plan consists of two sections. The technical drawing was produced by the department of the Air Force in association with the Canadian Aero Service, and Knappen-Tippetts-Abbott-McCarthy consulting engineers from New-York. | Locations mentioned in the file include: PIN-1 CLINTON POINT - NWT; PIN-M CAPE PARRY - NWT. Organizations mentioned in the file include: AECOM Canada Limited; UMA Engineering. | 1987/04/17- 1990/07/30 |
| 51 | R112 | RG24 | 2021-00207-1 | 4 | 7690-DLCU001-F00143 | | BAR-4 Nicholson Peninsula No. - 6648-001-00-03-3.4.4 | File focuses on the assessment of the BAR-4 Nicholson Peninsula DEW line site. File contains five original BAR-4 as-built maps, labelled AAP-1 to AAP-3, created in 1957 and updated to February 1986 and February 1990. File also contains two technical drawings of S2-0434 depicting the site plan of the BAR-4 station. The technical drawings were produced by the department of the Air Force, in association with the Canadian Aero Service, and Knappen-Tippetts-Abbott-McCarthy consulting engineers from New-York. These drawings have undergone revisions from June 1955 to August 1984. | Locations mentioned in the file include: BAR-4 NICHOLSON PENINSULA - NWT. Organizations mentioned in the file include: AECOM Canada Limited; UMA Engineering. | 1986/02/03- 1990/08/03 |

| 52 | R112 | RG24 | 2021-00207-1 | 4 | 7690-DLCU001-F00144 | | BAR-3 Tuktoyaktuk - No. 6648-001-00-03-3-4.3 | File focuses on the assessment of the BAR-3 Tuktoyaktuk DEW line site. File contains three original 1957 BAR-3 As-Built site-plans, labelled AAP-1 to AAP-3, revised in 1971, 1987, and 1999. Map AAP-1 features highlighting and undated addendums. File also contains an oversized technical drawing of the artic airports land reserve near the BAR-3 DEW Line station in Tuktoyaktuk, North West Territories. The preliminary title of the plan was Proposed M.O.T. Airport Land Reserve, but was crossed out with a red pen in favour of Artic Airports Land Reserve. The technical drawing was sent to UMA Engineering in October 1994. | Locations mentioned in the file include: BAR-3 TUKTOYAKTUK - NWT. Organizations mentioned in the file include: AECOM Canada Limited; UMA Engineering. | 1971/11/10-1990/08/07 |

File contains original BAR-1 As-Built maps, labelled AAP-1, AAP-2, AAP-3, AAP-4. The drawings were originally created in the 1950s, and were updated to 1969, 1970, 1971, 1979, 1987, 1989, or 1990. | Locations mentioned in the file include: BAR-1 KOMAKUK BEACH - YUKON. Organizations mentioned in the file include: AECOM Canada Limited; UMA Engineering. | 1969/05/14-1990/08/10 |
| 55 | R112 | RG24 | 2021-00207-1 | 4 | 7690-DLCU001-F00148 | | Biology Field Notes - Western Sector | File focuses on the biology field notes for the western sector of the DEW line. The file includes field notes produced by AECOM pertaining to the biological survey of vegetation and animals at BAR-1, BAR-2, BAR-4, CAM-M, PIN-1, and PIN-2 from June 16, 1990 to August 8, 1990. | Locations mentioned in the file include: BAR-1 KOMAKUK BEACH - YUKON; BAR-2 SHINGLE POINT - YUKON; BAR-4 NICHOLSON PENINSULA - NWT; CAM-M CAMBRIDGE BAY - NUNAVUT; PIN-1 CLINTON POINT - NWT; PIN-2 CAPE YOUNG - NUNAVUT. Organizations mentioned in the file include: AECOM Canada Limited. | 1990/06/16-1990/08/02 |
| 56 | R112 | RG24 | 2021-00207-1 | 4 | 7690-DLCU001-F00149 | | Archaeology - Western | File focuses on the archaeology present in the western sector of the DEW line. File contains an undated bound report on BAR-1, BAR-2, BAR-3, BAR-4, PIN-1, and PIN-M and provides a site inventory, an analysis of the site potential, maps, and a description of site, the vegetation and wildlife present, and whether archaeological remains and sites were found in the area. The report also contains a DEW line western sector photographic catalogue and a field photo record. The documents in the report have a date range from March 1989 to August 1990. | Locations mentioned in the file include: BAR-1 KOMAKUK BEACH - YUKON; BAR-2 SHINGLE POINT - YUKON; BAR-3 TUKTOYAKTUK - NWT; BAR-4 NICHOLSON PENINSULA - NWT; PIN-1 CLINTON POINT - NWT; PIN-M CAPE PARRY - NWT. Organizations mentioned in the file include: AECOM Canada Limited. | 1989/03/01-1990/08/12 |

The project was commissioned by the DLCU PMO, and the work was undertaken by Kitnuna Projects Inc. UMA Engineering provided technical assistance and consultation. The taskings included the investigation of POL at the Beach site, in preparation of the full site remediation to occur in 2007. ESG undertook the soil sampling, with analytical information provided by the Analytical Services Group (ASG) at RMC Kingston. The report includes a site description, images of the area, a description of the investigation, baseline soil sampling, excavation, cleanup guidelines, observations, post-excavation soil sampling, containment, recommendations, references and appendices containing methodologies, maps, tables of results and QA/QC data. Per the cover letter, one of the four copies of the report was to be sent to the PIN-4 APM. Additional copies had been sent to UMA in Calgary, to the DGE, the NWSO, EC and NTI. | Locations mentioned in the file include: PIN-4 BYRON BAY - NUNAVUT. Organizations mentioned in the file include: Department of National Defence; Environmental Sciences Group / Royal Military College RMC; Kitnuna Projects Inc; North Warning System Office; Nunavut Tunngavik Incorporated; UMA Engineering. | 2004/03/31 |

This report concerns BAR-3 and BAR-2 containing a project summary, environmental assessments, regulatory overview, guidelines, and site plans of landfills. | Locations mentioned in the file include: BAR-2 SHINGLE POINT - YUKON; BAR-3 TUKTOYAKTUK - NWT. Organizations mentioned in the file include: Defence Construction Canada Ltd Other; Department of National Defence. | 1999/01/01 |
| 331 | R112 | RG24 | 2021-00207-1 | 22 | 7690-DLCU001-F01037 | | DEW Line Landfill Monitoring Program Report 2000 | File is a report titled 'DEW Line Landfill Monitoring Program Report 2000' prepared by ESG dated April 2001. Report contains an introduction, and analytical results, maps, and quality assurance documents for BAR-1, BAR-2, BAR-4, and CAM-M. | Locations mentioned in the file include: BAR-1 KOMAKUK BEACH - YUKON; BAR-2 SHINGLE POINT - YUKON; BAR-4 NICHOLSON PENINSULA - NWT; CAM-M CAMBRIDGE BAY - NUNAVUT. Organizations mentioned in the file include: Environmental Sciences Group / Royal Military College RMC. | 2001/04/01 |
| 332 | R112 | RG24 | 2021-00207-1 | 22 | 7690-DLCU001-F01038 | | Landfill Monitoring Program - Environmental Data 2001 | File is a bound report titled 'Landfill Monitoring Program - Environmental Data 2001' prepared by ESG and dated January 2002. This report contains an introduction, and analytical results and QC results from BAR-1, BAR-2, and CAM-M. | Locations mentioned in the file include: BAR-1 KOMAKUK BEACH - YUKON; BAR-2 SHINGLE POINT - YUKON; CAM-M CAMBRIDGE BAY - NUNAVUT. Organizations mentioned in the file include: Environmental Sciences Group / Royal Military College RMC. | 2002/01/01 |
| 333 | R112 | RG24 | 2021-00207-1 | 22 | 7690-DLCU001-F01039 | | DEW Line CleanUp - Landfill Monitoring Program - Environmental Data - 2002 | File is a bound report titled 'DEW Line CleanUp - Landfill Monitoring Program - Environmental Data 2002' prepared by ESG and dated May 2003. The report contains an introduction, analytical results, soil samples, and landfill locations at BAR-2, PIN-M, PIN-1, and CAM-4. | Locations mentioned in the file include: BAR-2 SHINGLE POINT - YUKON; CAM-4 PELLY BAY - NUNAVUT; PIN-1 CLINTON POINT - NWT; PIN-M CAPE PARRY - NWT. Organizations mentioned in the file include: Environmental Sciences Group / Royal Military College RMC. | 2003/05/01 |
| 334 | R112 | RG24 | 2021-00207-1 | 22 | 7690-DLCU001-F01040 | | DEW Line Clean-up - Acute Issues Review - Environmental Data | File is a bound report titled 'DEW Line Clean-up - Acute Issues Review - Environmental Data' prepared by several consultant companies including UMA and ESG dated February 27, 2002. This report assesses environmental risks at CAM-2, CAM-3, CAM-4, CAM-5, DYE-M, FOX-M, FOX-5, and PIN-3 including coloured technical drawings and photographs of landfills at each site. | Locations mentioned in the file include: CAM-2 GLADMAN POINT - NUNAVUT; CAM-3 SHEPHERD BAY - NUNAVUT; CAM-4 PELLY BAY - NUNAVUT; CAM-5 MACKAR INLET - NUNAVUT; DYE-M CAPE DYER - NUNAVUT; FOX-5 BROUGHTON ISLAND - NUNAVUT; FOX-M HALL BEACH - NUNAVUT; PIN-3 LADY FRANKLIN POINT - NUNAVUT. Organizations mentioned in the file include: Defence Construction Canada Ltd Other; Environmental Sciences Group / Royal Military College RMC; UMA Engineering. | 2002/02/27 |
| 335 | R112 | RG24 | 2021-00207-1 | 23 | 7690-DLCU001-F01041 | | Saviktok Point - Hydrocarbon Bioremediation of the Former Tank Farm Pad | File is a bound report titled 'Saviktok Point Hydrocarbon Bioremediation of the Former Tank Farm Pad - QA/QC Report' prepared by ESG and dated February 2002. Report contains an introduction, background and general approach, site investigation, and conclusion. Report also contains coloured technical drawings of land treatment areas at Saviktok Point. | Locations mentioned in the file include: BAR-3 TUKTOYAKTUK - NWT; Other - Non-DEW Line Site. Organizations mentioned in the file include: Environmental Sciences Group / Royal Military College RMC; UMA Engineering. | 2002/02/01 |

| 338 | R112 | RG24 | 2021-00207-1 | 23 | 7690-DLCU001-F01046 | | DEW Line, Env. Prot. Plan (USAF) / Aug. 1983 | File is a package of documentation titled 'DEW Line, Env. Prot. Plan (USAF) / Aug. 1983.' The package includes a copy of DEW Order 55-4, an Environmental Protection Plan issued by the US Air Force (USAF). The package also includes a variety of reports and correspondence pertaining to inspections and cleanup efforts at DEW Line sites between the mid-1970s and early 1980s, with regard to PCBs, fuel caches, and other environmental issues. Also included in the package are PCB inventories for each site. | Locations mentioned in the file include: BAR-1 KOMAKUK BEACH - YUKON; BAR-2 SHINGLE POINT - YUKON; BAR-3 TUKTOYAKTUK - NWT; BAR-4 NICHOLSON PENINSULA - NWT; CAM-1 JENNY LIND ISLAND - NUNAVUT; CAM-2 GLADMAN POINT- NUNAVUT; CAM-3 SHEPHERD BAY - NUNAVUT; CAM-4 PELLY BAY - NUNAVUT; CAM-5 MACKAR INLET - NUNAVUT; CAM-M CAMBRIDGE BAY - NUNAVUT; DYE-M CAPE DYER - NUNAVUT; FOX-2 LONGSTAFF BLUFF - NUNAVUT; FOX-3 DEWAR LAKES - NUNAVUT; FOX-4 CAPE HOOPER - NUNAVUT; FOX-5 BROUGHTON ISLAND - NUNAVUT; FOX-M HALL BEACH - NUNAVUT; PIN-1 CLINTON POINT - NWT; PIN-2 CAPE YOUNG - NUNAVUT; PIN-3 LADY FRANKLIN POINT - NUNAVUT; PIN-4 BYRON BAY - NUNAVUT; PIN-M CAPE PARRY - NWT. Organizations mentioned in the file include: United States Air Force. | 1983/08/01-1984/03/31 |
| 339 | R112 | RG24 | 2021-00207-1 | 23 | 7690-DLCU001-F01047 | | The Environmental Impact of the DEW Line on the Arctic - Volume Two | File is the second volume of a February 1993 report entitled 'The Environmental Impact of the DEW Line on the Canadian Arctic,' prepared by ESG. This report deals with methods, including sampling protocols, and with quality control procedures, results for soil sampling, and PCB results for CAM-M, DYE-M, and non-DLCU sites such as BAR-DA1. | Locations mentioned in the file include: CAM-1 JENNY LIND ISLAND - NUNAVUT; CAM-M CAMBRIDGE BAY - NUNAVUT; DYE-M CAPE DYER - NUNAVUT; Other - Non-DEW Line Site. Organizations mentioned in the file include: Department of National Defence; Environmental Sciences Group / Royal Military College RMC. | 1993/02/01 |
| 340 | R112 | RG24 | 2021-00207-1 | 23 | 7690-DLCU001-F01048 | | The Environmental Impact of the DEW Line on the Arctic - Volume One | File is the first volume of a February 1993 report entitled 'The Environmental Impact of the DEW Line on the Canadian Arctic,' prepared by ESG. This volume contains an introduction, an overview section, and sections discussing radar sites, the sources and distribution of contaminants in the Arctic, the impact on terrestrial ecosystems, and the impact on marine ecosystems. The report includes extensive information pertaining to DYE-M and CAM-M. The volume includes coloured photographic images and technical drawings of landfills. | Locations mentioned in the file include: CAM-M CAMBRIDGE BAY - NUNAVUT; DYE-M CAPE DYER - NUNAVUT. Organizations mentioned in the file include: Department of National Defence; Environmental Sciences Group / Royal Military College RMC. | 1993/02/01 |

| 598 | R112 | RG24 | 2021-00207-1 | 35 | 7690-DLCU001-F01638 | | DEW Line Clean Up Project CAM-5 Macker Inlet, Nunavut Environmental Disclosure Report | This item is a book-bound DLCU CAM-5 Environmental Disclosure Report prepared by the Project Management Office, DCC and published by DND. The report is verified by the Deputy Project Manager, DCC; the Manager, Construction Program, DCC; the Assistant Director, Environmental Services Group (ESG), RMC, and; the Senior Project Manager, AECOM. The document is approved by the PM, DLCU DEEM-9, DND. The report contains a background history of the DLCU project, cleanup, the agreements and protocols relevant to the remediation of CAM-5; the DND/DIAND Memorandum of Understanding; the DLCU Protocol agreed to by DND, DIAND, Environment Canada, Fisheries and Oceans, the Governments of the Northwest Territories and the Yukon, in 1991-1992 and the NTI/DND and RS/DND agreements. The report contains a tri-lingual introduction; with English only labelled colour images and maps; a glossary of terms; project background, and details on the initial Phase II environmental studies at CAM-5, including an inventory and survey of buildings; assessment of existing on-site landfills, surface and buried debris areas; delineation of inorganic element or PCB contaminated soil areas; a list of Type A and B hydrocarbon-impacted soil areas, identification of archaeological Resource; Background sampling program, and; engineering and environmental investigation reports. The EDR also includes an overview of the Engineering Design at CAM-5, the tendering process for the remediation contract, and details on the site remediation, monitoring program and details of statements of completion of work by DCC, ESG and AECOM. There are CD/DVD pockets on the inside covers of the report, but no ESI was located in them. | Locations mentioned in the file include: BAR-1 KOMAKUK BEACH - YUKON; CAM-M CAMBRIDGE BAY - NUNAVUT. Due diligence environmental assessments for PIN-2, PIN-4, CAM-5, FOX-2, and FOX-3, tables on DEW Line Cleanup Criteria for Soil, guidelines for water, and recommended remedial action for contaminated soil, application for water use license for FOX-M, minutes of meeting regarding DLCU regulators meeting, draft report of Due Diligence Site Inspections with initial assessment results and remedial options for PIN-2, PIN-4, CAM-5, FOX-2, and FOX-3 that covers description, investigation locations, sample analytical results, and recommendations for each site, preliminary remedial option assessment, review of potential acute environmental concerns, and quality assurance and control, and correspondence regarding letter to the Nunavut Water Board for water use license for FOX-M, due diligence reports, and regulators report. | Locations mentioned in the file include: CAM-5 MACKAR INLET - NUNAVUT; FOX-2 LONGSTAFF BLUFF - NUNAVUT; FOX-3 DEWAR LAKES - NUNAVUT; PIN-2 CAPE YOUNG - NUNAVUT; PIN-4 BYRON BAY - NUNAVUT. Organizations mentioned in the file include: Defence Construction Canada Ltd Other; Environmental Sciences Group / Royal Military College RMC; UMA Engineering. | 2002/09/17- 2003/02/04 |
| 635 | R112 | RG24 | 2021-00207-1 | 36 | 7690-DLCU001-F01696 | | Forward Operating Location FOL - Inuvik, NWT. - Prime Contract - 1992 - Construction Completion Report | File is a bound report that shows the particulars of the construction of the Forward Operating Location at Inuvik for the provision of austere facilities in the Arctic and the deployment of interceptor aircraft. Included in this file is a description of work, and construction activities that shows concrete placement, erection of structural steel and building installations, electrical and mechanical installations, kitchen equipment, and painting work. Also included in this report are construction management particulars, materials testing for granular fill, a contractor cost summary, a Gantt of work completed, UMA design calculations, and unit price work costs. | Locations mentioned in the file include: Other - Non-DEW Line Site. Organizations mentioned in the file include: UMA Engineering. | 1992/01/01- 1992/12/31 |
| 636 | R112 | RG24 | 2021-00207-1 | 36 | 7690-DLCU001-F01701 | | DEW Line Clean Up Projects - Quality Assurance Review of Landfill Designs | File is a bound report pertaining to a quality assurance review of landfill designs for sites along the DEW Line. The report discusses specific concerns and recommendations for the landfills at BAR-2, BAR-4, PIN-1, CAM-M, FOX-M, FOX-4, and FOX-5, addressing impacts of climate change, landfill monitoring procedures, and future considerations for each of these sites. Also included in the file are site photographs, summary information on each of the DEW Line landfills, and discussion of the impacts of climate change on the DLCU containment facilities, dated March 2006. | Locations mentioned in the file include: BAR-2 SHINGLE POINT - YUKON; BAR-4 NICHOLSON PENINSULA - NWT; CAM-M CAMBRIDGE BAY - NUNAVUT; FOX-4 CAPE HOOPER - NUNAVUT; FOX-5 BROUGHTON ISLAND - NUNAVUT; FOX-M HALL BEACH - NUNAVUT; PIN-1 CLINTON POINT - NWT. Organizations mentioned in the file include: Defence Construction Canada Ltd Other; EBA Engineering Consultants; UMA Engineering. | 2008/03/25 |

| 641 | R112 | RG24 | 2021-00207-1 | 37 | 7690-DLCU001-F01719 | | FOX-5, Qikiqtarjuak, Nunavut - Site Remediation Phase One: - Supplementary Delineation - 2000 | File contains a copy of the FOX-5 Supplementary Delineation report prepared by ESG, which presents the results of the field work conducted by ESG at the FOX-5 DEW Line site in 2000. The correspondence which precedes the report specifies that this report should be consulted in conjunction with the 1999 FOX-5 Phase One Delineation report. The report summarizes the four main elements of the 2000 site delineation program, providing information on soil investigation locations, drinking water, structural materials, and proposed landfills. The conclusion of the report provides two tables summarizing the results and recommendations for the contaminated soil areas at FOX-5. The report includes four appendices (Methods, Sample Locations, Data, and QC/QA) which detail the process and results of the site delineation. | Locations mentioned in the file include: FOX-5 BROUGHTON ISLAND - NUNAVUT. Organizations mentioned in the file include: Environmental Sciences Group / Royal Military College RMC. | 2001/02/01- 2001/03/13 |
| 642 | R112 | RG24 | 2021-00207-1 | 37 | 7690-DLCU001-F01720 | | DEW Line Clean-up Project - FOX-5 Landfill Siting | File consists of a copy of the EBA bound report which provides four alternative landfill locations for the FOX-5 DEW Line Site. The report includes a summary of EBA's site visit to FOX-5 from August 15 to 18, 2001, as well as a short description and a discussion comparing the four alternative landfill siting locations. The report states, in the conclusion, that the proposed landfill K would be considered the preferred location because of its topographic high. The report additionally includes 13 photographs and 2 maps detailing the environment and location of the proposed landfill sites. | Locations mentioned in the file include: FOX-5 BROUGHTON ISLAND - NUNAVUT. Organizations mentioned in the file include: EBA Engineering Consultants. | 2001/10/10 |

| 644 | R112 | RG24 | 2021-00207-1 | 37 | 7690-DLCU001-F01722 | | FOX-5, Qikiqtarjuaq, Nunavut - Site Investigation: - 1998, 2000 & 2001 | File consists of a copy of the ESG report on the 1998, 2000, and 2001 site investigations of the FOX-5 DEW Line site. The report summarizes the three-year site investigation conducted by ESG, in which ESG had six specific environmental assessment objectives to achieve: delineating the contaminated soil areas, determining the potential environmental risk associated with the site's landfills, identifying the concentration of contaminants in structural materials, assessing the drinking water source, providing waste material classification information, and compiling background information on the six proposed landfill sites and one proposed landfarm site. The introduction of the report specifies that this version of the report is up to date, and should be consulted for the cleanup design, as it has replaced earlier iterations of the delineation reports. The report includes four appendices (Methods, Sample Locations, Data, and QC/QA) which detail the process and results of the site delineation, as well as two annexes from the Environmental Working Group: the Evaluation Matrices pertaining to the landfills and hydrocarbon areas of the FOX-5 site, and an assessment of three proposed landfill locations. | Locations mentioned in the file include: FOX-5 BROUGHTON ISLAND - NUNAVUT. Organizations mentioned in the file include: Environmental Sciences Group / Royal Military College RMC; Environmental Working Group Material. | 2003/06/01- 2003/06/23 |

File contains correspondence regarding employee incidents, fire code violations, an asbestos training course, and hydrocarbon spills; a Nunavut Inuit benefit report; a vehicle list; an order to vacate premises; a temporary land use agreement issued by the Municipality of Hall Beach; an environmental health inspection report; emergency procedures; incident reports; incident/accident investigation reports; and NWT spill reports. | Locations mentioned in the file include: FOX-M HALL BEACH - NUNAVUT. Organizations mentioned in the file include: Defence Construction Canada Ltd Other; Government of Nunavut; Kudlik Construction Limited; Municipality of Hall Beach; Northwest Territories and Nunavut Worker's Compensation Board. | 2003/11/10-2007/06/30 |
| 677 | R112 | RG24 | 2021-00207-1 | 38 | 7690-DLCU001-F01959 | | DEW Line Clean Up Project FOX-M Hall Beach, Nunavut Environmental Disclosure Report | This item is a book-bound DLCU FOX-M Environmental Disclosure Report prepared by the Project Management Office, DCC and published by DND. The report is verified by the Deputy Project Manager, DCC; the Manager, Construction Program, DCC; the Assistant Director, Environmental Services Group (ESG), RMC, and; the Senior Project Manager, AECOM. The document is approved by the PM, DLCU DEEM-9, DND. The report contains a background history of the DLCU project, cleanup, the agreements and protocols relevant to the remediation of FOX-M; the DND/DIAND Memorandum of Understanding; the DLCU Protocol agreed to by DND, DIAND, Environment Canada, Fisheries and Oceans, the Governments of the Northwest Territories and the Yukon, in 1991-1992 and the NTI/DND and RS/DND agreements. The report contains a trilingual introduction; with English only labelled colour images and maps; a glossary of terms; project background, and details on the initial Phase II environmental studies at FOX-M, including an inventory and survey of buildings; assessment of existing on-site landfills, surface and buried debris areas; delineation of inorganic element or PCB contaminated soil areas; a list of Type A and B hydrocarbon-impacted soil areas, identification of archaeological Resource; Background sampling program, and; engineering and environmental investigation reports. The EDR also includes an overview of the Engineering Design at FOX-M, the tendering process for the remediation contract, and details on the site remediation, monitoring program and details of statements of completion of work by DCC, ESG and AECOM. There are CD/DVD pockets on the inside cover of the report, but no ESI was located in them. | Locations mentioned in the file include: FOX-M HALL BEACH - NUNAVUT. Organizations mentioned in the file include: Biogenie SRDC Incorporated; Defence Construction Canada Ltd Other; Department of Fisheries and Oceans Canada; Department of Indian Affairs and Northern Development Canada; Department of National Defence; EBA Engineering Consultants; Environment Canada; Inuvialuit Regional Corporation; Nunavut Tunngavik Incorporated; UMA Engineering; United States Air Force. | 2013/10/09 |

The file contains two draft copies of the EDR, two of which contain handwritten annotations indicating passages that could be modified or clarified. The latest draft has the label 'Dave's Final Comments' handwritten on the front page. The EDR summarizes the assessment, remediation, and monitoring carried out at CAM-2, and points out remaining items of potential environmental interest, such as remaining landfills and contaminated soil areas. The EDR contains several maps and colour photographic images, including both aerial oblique and satellite images. Included with one of the drafts are letter-size copies of as-built drawings, record drawings, and maps from Annex F. None of the annexes are included with the other two drafts. Page 2 of the EDR makes a passing reference to a non-DLCU site, BAR-B. Finally, attached to the front page of the latest draft is a CD labeled 'CAM-2 EDR.' | Locations mentioned in the file include: BAR-1 KOMAKUK BEACH - YUKON; CAM-2 GLADMAN POINT- NUNAVUT; Other - Non-DEW Line Site. Organizations mentioned in the file include: AECOM Canada Limited; Defence Construction Canada Ltd Other; Department of National Defence; Environmental Sciences Group / Royal Military College RMC; Hatch Limited; Kitnuna Projects Inc; UMA Engineering. | 2012/07/12- 2012/09/17 |
| 711 | R112 | RG24 | 2021-00207-1 | 40 | 7690-DLCU001-F02164 | | DEW Line Clean Up Project, Environmental Disclosure Report, CAM-1 Jenny Lind Island, Nunavut | File pertains to the Environmental Disclosure Report (EDR) for CAM-1. The file contains two draft copies of the EDR (without any of the annexes). One of the draft copies contains handwritten annotations indicating passages that could be modified or clarified, and the latest draft has the label 'Dave's Final Comments' handwritten on the front page. The EDR summarizes the assessment, remediation, and monitoring carried out at CAM-1, and points out remaining items of potential environmental interest, such as landfills, structures, and remaining contaminated soil areas. The EDR includes several maps and satellite images. Pages iv, 2, and 13 of the latest draft make passing references to two non-DLCU sites, CAM-1A and BAR-B. Finally, the file contains a CD labeled 'CAM-1 EDR.' | Locations mentioned in the file include: BAR-1 KOMAKUK BEACH - YUKON; BAR-3 TUKTOYAKTUK - NWT; CAM-1 JENNY LIND ISLAND - NUNAVUT; Other - Non-DEW Line Site PIN-3 LADY FRANKLIN POINT - NUNAVUT; PIN-4 BYRON BAY - NUNAVUT; PIN-M CAPE PARRY - NWT. Organizations mentioned in the file include: AECOM Canada Limited; Defence Construction Canada Ltd Other; Department of National Defence; Environmental Sciences Group / Royal Military College RMC; Kitnuna Projects Inc; UMA Engineering. | 2012/06/28- 2012/08/23 |

| 712 | R112 | RG24 | 2021-00207-1 | 40 | 7690-DLCU001-F02165 | | DEW Line Clean Up Project, Environmental Disclosure Report, CAM-M Jenny Cambridge Bay, Nunavut | File pertains to the Environmental Disclosure Report (EDR) for CAM-M. The file contains a paper copy of the EDR (without any of the annexes). 'Review completed by Dave Eagles 12 Nov 2013' is written on the inside title page, and handwritten annotations throughout the report indicate passages that could be modified or clarified. The EDR summarizes the assessment, remediation, and monitoring carried out at the site, and points out remaining items of potential environmental interest, such as landfills, structures, and remaining contaminated soil areas. The report contains several maps and colour photographic images, including both aerial oblique and satellite images. Page 2 makes passing references to two non-DLCU sites, BAR-B and FOX-1. The file also contains a CD (without a cover) labeled 'CAM-M EDR.' Both a post-it note on the CD and a handwritten note on p. 63 appear to list items that are missing from the EDR annexes on the CD. | Locations mentioned in the file include: BAR-1 KOMAKUK BEACH - YUKON; BAR-3 TUKTOYAKTUK - NWT; CAM-M CAMBRIDGE BAY - NUNAVUT; Other - Non-DEW Line Site PIN-M CAPE PARRY - NWT. | 736 | R112 | RG24 | 2021-00207-1 | 41 | 7690-DLCU001-F02202 | | Project: DLC FOX M - Contract: 8982 - Memos - Environmental Sciences Group (ESG): 2003, 2004 Hall Beach, Nunavut - DEW Line Clean Up Project - DLFM - 8982 - MEMO | File focuses on memorandums providing updates on contract no. 8982 to cleanup and restore the FOX-M DEW Line site. Memorandums cover topics including: equipment stains, drinking water results, contaminated soil, stockpile results with accompanying sampling maps, hydrocarbon storage, wastewater discharge results, warehouse conversion, project schedule, asbestos and PAP packing container placement, paint sample results, and baseline sampling results. | Locations mentioned in the file include: FOX-M HALL BEACH - NUNAVUT. Organizations mentioned in the file include: Defence Construction Canada Ltd Other; Environmental Sciences Group / Royal Military College RMC. | 2003/09/05-2004/09/18 |
| 737 | R112 | RG24 | 2021-00207-1 | 41 | 7690-DLCU001-F02209 | | Environmental Investigation of Areas Adjacent to Current DND Land at FOX-M, Hall Beach, Nunavut | File focuses on remedial work related to contract no. 8982 to cleanup and restore the FOX-M DEW Line site. File contains a report on the environmental investigation of areas adjacent to current DND reserve at FOX-M, and analytical results. | Locations mentioned in the file include: FOX-M HALL BEACH - NUNAVUT. Organizations mentioned in the file include: Defence Construction Canada Ltd Other; Kudlik Construction Limited. | 2003/03/01-2006/07/31 |
| 738 | R112 | RG24 | 2021-00207-1 | 41 | 7690-DLCU001-F02216 | | DLFM - TEST | File focuses on the FOX-M DEW Line site cleanup and restoration project. The file contains a review of environmental considerations related to the drainage of a sewage lagoon for bottom soil analysis and guidelines for effluent quality and wastewater treatment at federal establishments. The file also contains an environmental audit and enhanced phase I assessment of Hall Beach Airport, which includes sections on the environmental site audit, the environmental site assessment, and conclusions and recommendations. The report also includes storage tank registration inquiries, spill reports, field notes and questionnaires, detailed analytical results, photographs, and the fuel spill cleanup and assessment for Hall Beach Airport. | Locations mentioned in the file include: FOX-M HALL BEACH - NUNAVUT. Organizations mentioned in the file include: Defence Construction Canada Ltd Other; Dillon Consulting Ottawa; Environmental Sciences Group / Royal Military College RMC; Government of Nunavut; Public Works and Government Services Canada; UMA Engineering. | 1997/06/11-2001/11/08 |
| 739 | R112 | RG24 | 2021-00207-1 | 41 | 7690-DLCU001-F02218 | | DLFM - REV | File focuses on MICC and MIEC for the FOX-M DEW Line site cleanup project. File contains recommended MICC and MIEC tables. The MICC table breaks down the job type, percentage of total contract value, and recommended MICC. The MIEC table outlines positions available, projected manpower requirements, and projected Inuit employment. | Locations mentioned in the file include: FOX-M HALL BEACH - NUNAVUT. Organizations mentioned in the file include: Defence Construction Canada Ltd Other. | 2003/11/12-2005/08/18 |

Report focuses on the investigation of the station area, north beach area, east beach area, west beach borrow area, west communications area, and proposed landfill and landfarm sites. Appendices include data tables, maps, photographs, landfill evaluation matrices, and test pit logs. | Locations mentioned in the file include: FOX-M HALL BEACH - NUNAVUT. Organizations mentioned in the file include: Defence Construction Canada Ltd Other; Environmental Sciences Group / Royal Military College RMC. | 2002/02/01-2002/02/28 |
| 770 | R112 | RG24 | 2021-00207-1 | 44 | 7690-DLCU001-F02267 | | FOX-M Contaminated Soils - Surface Investigations | File consists of two letter reports, one dated April 2002 and the other January 2002, on the FOX-M contaminated soils - surface investigation. Reports summarize the results of the 1997-2001 FOX-M investigations of areas contaminated with inorganic elements or PCBs. Reports outline the investigation of the station area, airstrip area, north beach area, east beach area, west beach area, and the west communications area. Appendices include data tables, maps, photographs, landfill evaluation matrices, and test pit logs. | Locations mentioned in the file include: FOX-M HALL BEACH - NUNAVUT. Organizations mentioned in the file include: Environmental Sciences Group / Royal Military College RMC. | 2002/01/01-2002/04/30 |
| 771 | R112 | RG24 | 2021-00207-1 | 44 | 7690-DLCU001-F02268 | | FOX-M Contaminated Soils - Hydrocarbon Investigations | File consists of a FOX-M hydrocarbon investigations letter report for January 2002. Reports summarize the results of the 1997-2001 FOX-M investigations of areas where hydrocarbons were the main contaminant suspected and/or found. Reports outline the investigation of the station area, airstrip area, north beach area, and the east beach area. Appendices include data tables, maps, photographs, hydrocarbon evaluation matrices, and test pit logs. | Locations mentioned in the file include: FOX-M HALL BEACH - NUNAVUT. Organizations mentioned in the file include: Defence Construction Canada Ltd Other; Environmental Sciences Group / Royal Military College RMC. | 2002/01/01-2002/02/14 |

The file includes two EBA reports: the November 2000 Pre-Construction Site Visit report, and the September 2002 FOX-5 Landfill Siting preliminary report. Also found in the file are a series of ESG memoranda from August and September 2005 and 2006: Confirmatory Sample Results from Type B Surface Excavation at the Garage (August 23, 2005), PCB Storage Area Visual Inspection (August 15, 2006), and Remediation of the Hazco Camp Area (September 11, 2006). The reports and memoranda have Post-it notes attached to specific pages that need to be scanned for the Environmental Disclosure Report (either because they were missing, or because the scan was of poor quality). | Locations mentioned in the file include: FOX-5 BROUGHTON ISLAND - NUNAVUT. Organizations mentioned in the file include: EBA Engineering Consultants; Environmental Sciences Group / Royal Military College RMC; Hardy BBT Limited; Jacques Whitford Environmental Ltd; UMA Engineering; United States Air Force. | 1991/06/01- 2006/09/11 |
| 944 | R112 | RG24 | 2021-00207-1 | 53 | 7690-DLCU001-F02666 | | Missing EDR Reference. | File contains a collection of reports pertaining to the assessment (due diligence remediation) and remediation of the FOX-5 DEW Line Site. The file includes the Project Review Information report for the Cleanup of the FOX-5 DEW Line Site, prepared by UMA, in July 2003, for DCC to submit to the Department of Fisheries and Oceans, as well as two Temporary Cut-off Trench Reports, prepared by SGE and DCC. The first iteration of the report was prepared by SGE in October 2001, and submitted to DCC, while the second one dated January 2003 was produced solely by DCC. A Post-it note on the top of the file states Missing EDR reference, checkoff list + scan. | Locations mentioned in the file include: FOX-5 BROUGHTON ISLAND - NUNAVUT. Organizations mentioned in the file include: Defence Construction Canada Ltd Other; SGE Group; UMA Engineering. | 2001/10/01- 2003/07/14 |

| 947 | R112 | RG24 | 2021-00207-1 | 54 | 7690-DLCU001-F02669 | | Final Photographs | File consists of a single bound Final Photograph report prepared by HAZCO. The report includes 32 colour photographic images of the FOX-5 DEW Line site, which were taken between July 31 and September 16, 2006. The report includes a table of contents on the first page, providing a short description, the view direction, and the date of exposure of the photos. The report also includes a CD containing digital copies of the pictures. Three post-it notes are attached to the front of the report. The first indicates that the file has moved from box to box, ending up in box FOX-5-1 (DND); the second post-it provides the HAZCO contract no. for the FOX-5 remediation project (22137); and the third note states, 'Inventory + Scan, Not an EDR reference. Copy of Photos on CD already taken. Just need body of report/summary.' | Locations mentioned in the file include: FOX-5 BROUGHTON ISLAND - NUNAVUT. Organizations mentioned in the file include: Hazco Environmental Services Inc. | 2006/07/31-2006/11/03 |

| 948 | R112 | RG24 | 2021-00207-1 | 54 | 7690-DLCU001-F02670 | | Project Description - Clean Up of the Broughton Island (FOX-5) DEW Line Site | File consists of two Project Description reports for the cleanup of the Broughton Island (FOX-5) DEW Line site, prepared by DCC in October 2000 on behalf of the Director General Environment of DND. Despite having identical names and the same project description, there are differences in the two reports' annexes. Several of the annexes are found in both reports: the Public Consultation Program/Community Meeting Action Plan, the POL Spill Contingency Plan, an annex on the Pre-construction Delineation Phase, the Proposed Landfill Monitoring Plan for the Nunavut Settlement Area, and an annex providing technical drawings (the first report has draft technical drawings, while the second has copies of the FOX-5 Nunavut Impact Review Board Submission Drawings). However, the first report (record 5985) also has an Annex 9 (Screening Decision of the Nunavut Impact Board on Application NIRB 01DN004 / DIAND N2000X0056 for FOX-5 DEW Line Cleanup) and Annex 10 (Non-Technical Project Summary, project activities on Nunavut airport's land at FOX-5) which are unique to this iteration of the report. The second iteration of the report (record 5995) begins with an 11 October 2000 application for a land use permit for FOX-5 completed by DCC, and includes Annex B (Agreement between NTI and DND for the Clean-up and Restoration of Distant Early Warning Sites within the Nunavut Settlement Area), and Annex C (Summary Sheet of Hydrocarbon Contaminated Area Description), which do not appear in the first report. A post-it note attached to the top of the first report states that the file was not an EDR reference. | Locations mentioned in the file include: FOX-5 BROUGHTON ISLAND - NUNAVUT. Organizations mentioned in the file include: Defence Construction Canada Ltd Other; Department of National Defence; Nunavut Impact Review Board; Nunavut Tunngavik Incorporated. | 2000/10/01-2000/10/31 |

| 954 | R112 | RG24 | 2021-00207-1 | 54 | 7690-DLCU001-F02687 | | DLCU Documentation - Properties Management - FOX 5 | File pertains to the remediation project of the FOX-5 DEW Line Site. The 9 subjects that constitute the file are: the vehicle storage building, the quarrying issues, the landfill issues, the landfarm issues, the application for lease/licence permit, the land use development permit, the land transfer process, the negotiation with hamlet, and the final section which encompasses other documents. In addition to correspondences and permits, some of the sections also include technical drawings, photographs and reports to provide additional information. A copy of the quarry permit, as well as annexed conditions for the permit No. 03-806-001 are included in the quarry issues section of the file, while the EBA/UMA November 2000 Pre-construction site visit report is included in the landfill issue section. | Locations mentioned in the file include: FOX-5 BROUGHTON ISLAND - NUNAVUT. Organizations mentioned in the file include: Defence Construction Canada Ltd Other; Government of Nunavut; Municipality of Qikiqtarjuaq; Public Works and Government Services Canada. | 2000/11/01-2007/10/12 |
| 955 | R112 | RG24 | 2021-00207-1 | 55 | 7690-DLCU001-F02689 | | DLF5 - PROP | File contains a collection of property documents pertaining to the land transfer of the FOX-5 DEW Line Site. The file includes correspondences between DCC and the Municipality of Qikiqtarjuaq, discussing the regulation and requirements surrounding the transfer of land, as well as the different elements associated with the transfer of land (Heated Vehicle Storage, Landfills and Landfarms, and the development permit). The file also contains the Memorandum of Agreement, Temporary Land Treatment Facility for the FOX-5 DEW Line site. A post-it note on top of the file states that all the pages of the file were scanned with the exception of four email correspondences which have a blue sticker on them. | Locations mentioned in the file include: FOX-5 BROUGHTON ISLAND - NUNAVUT. Organizations mentioned in the file include: Defence Construction Canada Ltd Other; Municipality of Qikiqtarjuaq. | 2000/10/03-2005/07/24 |

| 956 | R112 | RG24 | 2021-00207-1 | 55 | 7690-DLCU001-F02690 | | Property/Asset Transfer & Land Use Agreement | File contains a collection of property and asset transfer documents pertaining to the land use agreement of the FOX-5 DEW Line Site, which are bound together by an elastic band. The file includes sets of correspondences between different entities from the Federal Government (DND, PWGSC, the Department of Justice Canada), from the Nunavut Provincial Government, and from the local Municipality of Qikiqtarjuaq. The various correspondences discussed and proposed solutions to settle the property issues between DND and the local Hamlet of Qikiqtarjuaq: specifically, the Hamlet did not agree with the anticipated placement of the landfills for the FOX-5 remediation project, because they had the possibility of contaminating the community's secondary water supply, as well as preventing the Hamlet of accessing granular materials from the Borrow Area #8. | Locations mentioned in the file include: FOX-5 BROUGHTON ISLAND - NUNAVUT. Organizations mentioned in the file include: Department of Justice Canada; Department of National Defence; Government of Nunavut; Municipality of Qikiqtarjuaq; Public Works and Government Services Canada. | 2002/09/16-2005/07/07 |

| 971 | R112 | RG24 | 2021-00207-1 | 55 | 7690-DLCU001-F02720 | | Final Report on Archaeological Mitigation Study at FOX-3 | File consists of a final report on a 2006 archaeological mitigation project at FOX-3, prepared by Thomson Heritage for DCC. Report includes descriptions of the local environment, cultural heritage resources, objectives, methodology, results and recommendations. Report also includes site plans/maps of all archaeological sites recorded at FOX-3, site features, and photographs. Work conducted under Nunavut Territory Archaeologist Permit 2006-017A. | Locations mentioned in the file include: FOX-3 DEWAR LAKES - NUNAVUT. Organizations mentioned in the file include: Defence Construction Canada Ltd Other; Thompson Heritage Consultants. | 2007/03/31 |
| 972 | R112 | RG24 | 2021-00207-1 | 55 | 7690-DLCU001-F02721 | | Temporary PCB Storage Area (Binder 1 of 5) | File consists of a Temporary PCB Storage Area file for the DLCU site engineer/representative at FOX-3 to ensure regulatory compliance under CEPA. File includes information relating to the tracking, packing, storing and transporting of PCB material, letters and correspondence, weekly inspection records, contingency plan and logs, and regulations. | Locations mentioned in the file include: FOX-3 DEWAR LAKES - NUNAVUT. Organizations mentioned in the file include: Defence Construction Canada Ltd Other; Environment Canada; UMA Engineering. | 2006/09/30 |
| 973 | R112 | RG24 | 2021-00207-1 | 55 | 7690-DLCU001-F02722 | | Technical Proposal for the Clean-Up and Restoration of the DEW Line Site at FOX-3 | File consists of a proposed Mobilization Plan and Inuit Participation Plan for the DLCU at FOX-3, prepared by Biogenie for DCC. Plan includes various mobilization method and route options considered, route validation, scheduling, health and safety logical considerations, environmental incident plans, contingency measures, and details achievement of the minimum Inuit contracting/employment content, recruiting process, and training programs. Plan also includes an oversize composite site map and oversized photomosaic of the preferred route-areas of concern. | Locations mentioned in the file include: FOX-3 DEWAR LAKES - NUNAVUT. Organizations mentioned in the file include: Biogenie SRDC Incorporated Montreal; Defence Construction Canada Ltd Other; Nunavut Sealink and Supply Inc; UMA Engineering. | 2008/01/31 |
| 974 | R112 | RG24 | 2021-00207-1 | 55 | 7690-DLCU001-F02725 | | DEW Line Cleanup Project Longstaff Bluff (FOX-3) and Dewar Lakes (FOX-3) Community Meetings | File consists of a compilation report on public meetings held during the week of 4 February 2008 in Qikiqtarjuaq, Clyde River, Igoolik, Hall Beach and Pangnirtung, Nunavut to update the communities on the site work plan at FOX-2 and FOX-3 in summer of 2008. The report includes meeting minutes for each meeting that briefed the project team and background agreements, scientific summary, construction summary, and advised the Nunavut Tunngavik Incorporation regarding concerns raised by community members. Report also includes a clean-up schedule under INAC's responsibility and tender drawings. Contract numbers inferred from content. | Locations mentioned in the file include: FOX-2 LONGSTAFF BLUFF - NUNAVUT; FOX-3 DEWAR LAKES - NUNAVUT. Organizations mentioned in the file include: AECOM Canada Limited; Biogenie SRDC Incorporated Montreal; Defence Construction Canada Ltd Other; Department of National Defence; Environmental Sciences Group / Royal Military College RMC; Nunavut Tunngavik Incorporated; Qikiqtani Inuit Association; Quantum Murray LP (Richmond); UMA Engineering. | 2008/02/04-2008/02/08 |

| 1004 | R112 | RG24 | 2021-00207-1 | 58 | 7690-DLCU001-F02817 | | Final Report on Archaeological Mitigation Study at FOX-4 DEW Line Site, Cape Hooper, Baffin Island, NU, 2012 - Nunavut Permit 2012-03A | File consists of a final report (Project No. THC2012-4) submitted to DCC regarding a 2012 study on ways to avoid damaging archaeological sites at FOX-4 during construction of landfills, excavation of fill from borrow areas, and so forth. The report includes maps and extensive data on archaeological sites identified at FOX-4. | Locations mentioned in the file include: FOX-4 CAPE HOOPER - NUNAVUT. Organizations mentioned in the file include: Defence Construction Canada Ltd Other; Government of Nunavut; Thompson Heritage Consultants. | 2012/12/13 |
| 1005 | R112 | RG24 | 2021-00207-1 | 58 | 7690-DLCU001-F02818 | | FOX-4 Cape Hooper Site Close Down Report | File consists of site closedown report for FOX-4, which outlines the cleanup carried out at the site from 1996 to 1999. Appendices provide detailed data on demolition, excavation, landfill construction and monitoring, and temporary storage and final disposal of hazardous materials. Includes information on plans to dispose of material at the FOX-5 site. | Locations mentioned in the file include: FOX-4 CAPE HOOPER - NUNAVUT; FOX-5 BROUGHTON ISLAND - NUNAVUT. Organizations mentioned in the file include: Defence Construction Canada Ltd Other; Environment Canada; Environmental Sciences Group / Royal Military College RMC; Nunasi Environmental Corporation; Qikiqtaaluk Corporation; UMA Engineering. | 2000/01/01-2000/12/31 |
| 1006 | R112 | RG24 | 2021-00207-1 | 58 | 7690-DLCU001-F02819 | | Partnering Report - 'Partnering to protect the Arctic ecosystem by leaving the FOX-4 site in an environmentally safe condition' | File consists of a report on a 10 May 2012 partnering workshop in Ottawa for key organizations involved in the DLCU project for FOX-4. The report brings together key findings emerging from the workshop, particularly with regard to communication and dispute resolution. | Locations mentioned in the file include: FOX-4 CAPE HOOPER - NUNAVUT. Organizations mentioned in the file include: AECOM Canada Limited; Defence Construction Canada Ltd Other; Department of National Defence; Dialogue Partners Incorporated; Environmental Sciences Group / Royal Military College RMC; North Warning System Office; Nunavut Tunngavik Incorporated; Quantum Murray LP (Richmond). | 2012/07/04 |
| 1007 | R112 | RG24 | 2021-00207-1 | 58 | 7690-DLCU001-F02820 | | Inspection of PCB Storage Area - FOX-4 Cape Hooper, NU - Project #DLCU FOX-4 - Status Report | File consists of a report on a 21 August 2000 inspection of three PCB storage containers and the site on which they were located at FOX-4. Photos of the containers are included. | Locations mentioned in the file include: FOX-4 CAPE HOOPER - NUNAVUT. Organizations mentioned in the file include: Defence Construction Canada Ltd Other; Nunatta Environmental Services. | 2000/09/01-2000/09/20 |
| 1008 | R112 | RG24 | 2021-00207-1 | 58 | 7690-DLCU001-F02821 | | FOX-4, Cape Hooper, Nunavut 2013 Geotechnical Quality Assurance Summary | File consists of report by AECOM [Project No. 60290595 (0171-000-00)] on the geotechnical quality control it provided in the summer of 2013 during the construction of landfills, removal of debris from landfills, or similar work at the FOX-4 site. The report also discusses the commissioning of monitoring wells and the installation of thermistors. The report includes maps, numerous photos, and tabulated testing data. | Locations mentioned in the file include: FOX-4 CAPE HOOPER - NUNAVUT. Organizations mentioned in the file include: AECOM Canada Limited; Defence Construction Canada Ltd Other. | 2013/11/29 |

Two maps produced in July 2002 detail the land retained by DND on the Nicholson Peninsula (BAR-4), and Cape Parry (PIN-M). The BAR-4 Nicholson Peninsula Final map, produced in March 2003, enumerate the five parcels that will be retained by DND; the radar site, the beachhead, the waterlot, the runway, and the road reserve. File additionally contains 4 maps produced in 1998 with various views of the BAR-4 location. The maps include printed and handwritten notes. | Locations mentioned in the file include: BAR-4 NICHOLSON PENINSULA - NWT; PIN-M CAPE PARRY - NWT. Organizations mentioned in the file include: Public Works and Government Services Canada; UMA Engineering. | 1998/02/23-2003/04/01 |

The map depicts the transfer boundaries between the lands reserved by D.N.D. and the Hamlet's boundaries. | Locations mentioned in the file include: CAM-M CAMBRIDGE BAY - NUNAVUT. Organizations mentioned in the file include: Army Survey Establishment, R.C.E.; UMA Engineering. | 1966/01/01-1994/11/09 |
| 1163 | R112 | RG24 | 2021-00207-1 | 65 | 7690-DLCU001-F03288 | | Cambridge Bay, DND reserved land | File consists of a single fax correspondence between the Land Specialist and Quality Control Officer of the Land Administration of INAC, and the contracting company UMA engineering. The correspondence explains that DND's 400 sq. m of reserved land does not include the Inuit parcels, and that UMA would require Nunavut Tunggavik Inc.'s permission to use those lands. The fax additionally includes a map of the Cambridge Bay region with the DND reserved land and the Inuit owned parcels highlighted. | Locations mentioned in the file include: CAM-M CAMBRIDGE BAY - NUNAVUT. Organizations mentioned in the file include: Indian and Northern Affairs Canada; UMA Engineering. | 1994/10/04 |

| 1164 | R112 | RG24 | 2021-00207-1 | 65 | 7690-DLCU001-F03289 | | DEW Line Project 572 - Auxiliary Station - PIN-4 - Building Site - Site Development No.2 - Site Development No. 1 | File consists of three As Built technical drawings of the PIN-4 Auxiliary Station. The three technical drawings focuses on the Building Site (AAP-3), Site development No. 2 (AAP-2), and Site development No. 1 (AAP-1). The technical drawings are produced by the Office of Installation Division of the Headquarters Air Material Command, which is part of the Department of the Air Force. Included in the technical drawings is a list of the revisions, as well as general and engineering notes to further explain the maps and their details. File also contains five technical drawings (S2-0425) of the site plan for the PIN-4 DEW Line station. The technical drawings were produced by the department of the Air Force in association with the Canadian Aero Service, and Knappen-Tippetts-Abbott-McCarthy consulting engineers from New-York. | Locations mentioned in the file include: PIN-4 BYRON BAY - NUNAVUT. Organizations mentioned in the file include: Department of the Air Force. | 1958/08/29-1984/11/07 |
| 1165 | R112 | RG24 | 2021-00207-1 | 65 | 7690-DLCU001-F03307 | | Yukon Land Records - Notice of New Entry - Reservation | File contains a correspondence between INAC (Indian and Northern Affairs Canada) and UMA Engineering about the land reservation near the Shingle Point, BAR-2 DEW Line site. The correspondence confirms that a parcel of 555 hectares near Shingle Point in the Yukon Territory has been reserved in the name of the Department of National Defence in January 1990. | Locations mentioned in the file include: BAR-2 SHINGLE POINT - YUKON. Organizations mentioned in the file include: Indian and Northern Affairs Canada; UMA Engineering. | 1990/01/01 |
| 1166 | R112 | RG24 | 2021-00207-1 | 65 | 7690-DLCU001-F03310 | | Site Plan/Plot Plan - PIN-2 | File contains four technical drawings (Drawing No. S2-0403) which depict the four sections which consists the site plan for the PIN-2 DEW Line station. The four technical drawings were produced by the department of the Air Force in association with the Canadian Aero Service, and Knappen-Tippetts-Abbott-McCarthy consulting engineers from New-York. The technical drawings, which are attached by a paper clip include a list of their revisions, as well as general notes on the plan and a concise property description of the PIN-2 location. File also contains As Built technical drawings (No. AAP-1, & AAP-3) for PIN-2. The technical drawings were produced by the Office of Installation Division of the Headquarters Air Material Command, which is part of the Department of the Air Force, and have gone through 18 revisions between August 1958 and February 1984. | Locations mentioned in the file include: PIN-2 CAPE YOUNG - NUNAVUT. Organizations mentioned in the file include: Department of the Air Force; North Warning System Office. | 1955/06/23-1984/10/25 |

File contains: site summary reports; daily summary reports; field notes for BAR-2 and BAR-4; elevation data; field inspection reports; test pit and sample summaries; a field data summary of existing, extended and new proposed landfills; a field data summary of borrow sources; and photo logs. File also contains a diskette containing BAR-1, BAR-2, and BAR-4 data. | Locations mentioned in the file include: BAR-1 KOMAKUK BEACH - YUKON; BAR-2 SHINGLE POINT - YUKON; BAR-4 NICHOLSON PENINSULA - NWT. Organizations mentioned in the file include: EBA Engineering Consultants. | 1993/07/07-1993/07/18 |
| 1263 | R112 | RG24 | 2021-00207-1 | 70 | 7690-DLCU001-F03596 | | FOX-3 1992 | File contains photographs and photographic negatives of the FOX-3 site. The photographs capture buildings, machinery, equipment, and gas tanks. The photographs feature a date on the backside. File also contains a log describing the contents of each film roll. | Locations mentioned in the file include: FOX-3 DEWAR LAKES - NUNAVUT. Organizations mentioned in the file include: UMA Engineering. | 1992/08/03-1992/10/21 |
| 1264 | R112 | RG24 | 2021-00207-1 | 70 | 7690-DLCU001-F03597 | | FOX-3 93 | File contains photographs and photographic negatives of the FOX-3 site. The photographs capture landfills, natural landscapes, the exterior and interior of buildings, machinery, and borrow areas. File also contains photograph logs of images taken at FOX-3. | Locations mentioned in the file include: FOX-3 DEWAR LAKES - NUNAVUT. Organizations mentioned in the file include: UMA Engineering. | 1992/07/20-1993/08/17 |

The investigation identified the extent of contamination, investigate potential additional areas, landfills and debris areas, and the identification/delineation of visible stains and hydro-carbon contaminated areas. Appendices include methods, sample locations, data, QA/QC, site photos and maps. | Locations mentioned in the file include: CAM-5 MACKAR INLET - NUNAVUT. Organizations mentioned in the file include: Department of National Defence; Environmental Sciences Group / Royal Military College RMC; Nunavut Tunngavik Incorporated; Queens University. | 2000/07/01- 2000/08/31 |
| 1360 | R112 | RG24 | 2021-00207-1 | 77 | 7690-DLCU001-F03812 | | DYE-M - Beach Fuel Tank Farm - Hydrocarbon Investigation - 1999 | File consists of a report prepared by the Environmental Sciences Group on an investigation of hydrocarbon contamination from a POL tank storage area on the beach at DYE-M carried out between 22-28 Aug 1999. The investigation provides a detailed picture of fuel contamination, and assesses the risk to the marine environment and the suitability of the location for a new fuel tank farm. Appendices include methods, sample locations, data, QA/QC, site photos and maps, and a report on the beach POL pad geotechnical and groundwater conditions prepared by EBA Engineering Consultants Limited. | Locations mentioned in the file include: DYE-M CAPE DYER - NUNAVUT. Organizations mentioned in the file include: Defence Construction Canada Ltd Other; Department of National Defence; EBA Engineering Consultants; Environmental Sciences Group / Royal Military College RMC; UMA Engineering. | 1999/11/30 |
| 1361 | R112 | RG24 | 2021-00207-1 | 77 | 7690-DLCU001-F03813 | | DYE-M Cape Dyer - 1997-1999 - Supplementary Delineation Report: Beach Fuel Tank Farm at the Cape Dyer DEW Line Site | File consists of a Jun 2000 report prepared by the Environmental Sciences Group on petroleum hydrocarbon contamination in the soil in the fuel tank farm area on the beach at DYE-M. The report presents a comparison of hydrocarbon values from three previous studies (1997-1999) and assesses if there is a case for natural attenuation of contamination in the pads. Appendices include guidelines and criteria, site drawings prepared by UMA Engineering Ltd, and analytical data. The file also contains Jun 2000 monitoring plans prepared by ESG. | Locations mentioned in the file include: DYE-M CAPE DYER - NUNAVUT. Organizations mentioned in the file include: Defence Construction Canada Ltd Other; EBA Engineering Consultants; Environment Canada; Environmental Sciences Group / Royal Military College RMC; Hardy BBT Limited; Jacques Whitford Environmental Ltd; UMA Engineering. | 1999/12/02- 2000/06/14 |

The file contains an agenda, lists of analytical requirements and cleanup criteria, a flow chart, background information, and information about points of agreement reached at the workshop with regard to the cleanup approach for particular DLCU sites. The file also contains site-specific information about BAR-1, BAR-4, PIN-1, PIN-2, PIN-4, CAM-1, CAM-2, CAM-4, CAM-5, FOX-2, and FOX-4, such as general site characteristics, site plans/maps, site photographs, environmental summaries, and cleanup summaries/proposals. | Locations mentioned in the file include: BAR-1 KOMAKUK BEACH - YUKON; BAR-4 NICHOLSON PENINSULA - NWT; CAM-1 JENNY LIND ISLAND - NUNAVUT; CAM-2 GLADMAN POINT- NUNAVUT; CAM-4 PELLY BAY - NUNAVUT; CAM-5 MACKAR INLET - NUNAVUT; FOX-2 LONGSTAFF BLUFF - NUNAVUT; FOX-4 CAPE HOOPER - NUNAVUT; PIN-1 CLINTON POINT - NWT; PIN-2 CAPE YOUNG - NUNAVUT; PIN-4 BYRON BAY - NUNAVUT. Organizations mentioned in the file include: Department of Indian Affairs and Northern Development Canada; Department of National Defence; Environment Canada; Environmental Sciences Group / Royal Military College RMC; North Warning System Office. | 1993/03/30- 1993/04/01 |
| 1365 | R112 | RG24 | 2021-00207-1 | 78 | 7690-DLCU001-F03827 | | Environmental Study of Eleven DEW Line Sites - Volume One Part One: Site Analysis: BAR-1, BAR-4, PIN-1, PIN-2, PIN-4 | File consists of Part One of Volume One of the June 1993 report entitled "Environmental Study of Eleven DEW Line Sites," by the Environmental Sciences Group. This report, which focuses on BAR-1, BAR-4, PIN-1, PIN-2, and PIN-4, discusses background information, previous environmental studies, cleanup protocols, design issues, and DLCU project costs. For each site the report discusses general site characteristics, previous investigations, the sampling program, general soil and water results, and potential environmental impacts, and also provides site plans and photographs. | Locations mentioned in the file include: BAR-1 KOMAKUK BEACH - YUKON; BAR-4 NICHOLSON PENINSULA - NWT; PIN-1 CLINTON POINT - NWT; PIN-2 CAPE YOUNG - NUNAVUT; PIN-4 BYRON BAY - NUNAVUT. Organizations mentioned in the file include: Department of National Defence; Environmental Sciences Group / Royal Military College RMC. | 1993/06/30 |

| 1459 | R112 | RG24 | 2021-00207-1 | 86 | 7690-DLCU001-F04045 | | DYE-M Cape Dyer - 1997 Photographs - Job Number: 0171-095-23-02 | UMA photo album containing 4x6 colour photos of DYE-M in 1997. Among other things, the images show landfills, debris, buildings, building interiors, electrical equipment, fuel tanks, and other infrastructure. The file also contains negatives and a photo log identifying the subject matter of the respective images. The photos and negatives come from rolls D2, D3, D4, D5, D6, D7, D8, D9, D10, D11, D12, M1, and M2. The album contains many of the photos in duplicate | Locations mentioned in the file include: DYE-M CAPE DYER - NUNAVUT. Organizations mentioned in the file include: UMA Engineering. | 1997/01/01-1997/12/31 |
| 1460 | R112 | RG24 | 2021-00207-1 | 87 | 7690-DLCU001-F04046 | | DYE-M Cape Dyer - Site Photographs - 1993 | File contains 4x6 colour photos of DYE-M from 1993. The images show landfills, debris, buildings, building interiors, old machinery, fuel tanks, and so forth. The file also contains negatives and photo logs identifying the subject matter of the respective images. The photos and negatives come from rolls 8, 9, 10, 37, 38, 39, and 40. The album contains some of the photos in duplicate. Although most of the album pertains to DYE-M, a few photos relate to FOX-2 or FOX-5. | Locations mentioned in the file include: DYE-M CAPE DYER - NUNAVUT; FOX-2 LONGSTAFF BLUFF - NUNAVUT; FOX-5 BROUGHTON ISLAND - NUNAVUT. Organizations mentioned in the file include: SGE Group; UMA Engineering. | 1993/01/01-1993/12/31 |
| 1461 | R112 | RG24 | 2021-00207-1 | 87 | 7690-DLCU001-F04047 | | DYE M 1992 | File contains 4x6 colour photographs of DYE-M from 1992. The photos, in clear plastic album pockets, show buildings, building interiors, fuel tanks, other infrastructure, landfills, debris, and so forth. There are also a number of oblique aerial photos. The envelope contains photo indexes for rolls T, U, V, W, X, 11, 12, 13, 14, and 15, and negatives for rolls R, S, T, U, V, W, and X. | Locations mentioned in the file include: DYE-M CAPE DYER - NUNAVUT. Organizations mentioned in the file include: UMA Engineering. | 1992/01/01-1992/12/31 |

| 1501 | R112 | RG24 | 2021-00207-1 | 92 | 7690-DLCU001-F04151 | | DEW Line Cleanup - Section F - Vol 1 | File is volume 1 of Section F, which contains correspondence with Transport Canada, DIAND, the Government of the Northwest Territories (GNWT), the US Air Force (USAF), and other organizations external to DND. Some of the material pertains to the closure of DEW Line sites. The file includes memos/letters from DIAND regarding the statement of work for a consultant contract, PCB sampling, closure of CAM sector sites, cleanup protocols, a concept design report, northern disposal facilities for disposal of contaminated soils, cleanup and closure of BAR-1; DND letters/memos regarding a DLCU environmental workshop, financial issues, tender procedures, and contaminant inputs; UMA letters regarding an abandoned military site at Coal Harbour and sewage disposal practices; and GNWT letters discussing residents' concerns, remediation of landfills, and construction of sewage lagoons. The file also contains a suggested travel itinerary for community consultation; a map of the Inuvialuit Settlement Region; minute sheets regarding North American Air Defence Modernization, surplus facilities; a fax transmittal notice regarding disposal of empty 45 gallon drums; a proposed itinerary for USAF visit to North Warning System (NWS) sites; a Project Manager briefing to Director General Environment on design status; DLCU protocols; a report on site visit at BAR-1 and recommendations for the historic preservation of DEW Line history; a Scope of Work for BAR-4; a briefing on issue of long-range transport of contaminants to the Arctic; a briefing package on a proposed Canadian polar information system; a copy of the MOU between DND and Department of Environment for the management of the NWS at Stokes Point; a copy of a land use and quarrying permit application for cleanup of CAM-M; and material on general environmental protection measures. | Locations mentioned in the file include: BAR-1 KOMAKUK BEACH - YUKON; BAR-2 SHINGLE POINT - YUKON; BAR-3 TUKTOYAKTUK - NWT; BAR-4 NICHOLSON PENINSULA - NWT; CAM-1 JENNY LIND ISLAND - NUNAVUT; CAM-2 GLADMAN POINT- NUNAVUT; CAM-3 SHEPHERD BAY - NUNAVUT; CAM-4 PELLY BAY - NUNAVUT; CAM-5 MACKAR INLET - NUNAVUT; CAM-M CAMBRIDGE BAY - NUNAVUT; DYE-M CAPE DYER - NUNAVUT; FOX-2 LONGSTAFF BLUFF - NUNAVUT; FOX-3 DEWAR LAKES - NUNAVUT; FOX-4 CAPE HOOPER - NUNAVUT; FOX-5 BROUGHTON ISLAND - NUNAVUT; FOX-M HALL BEACH - NUNAVUT; PIN-1 CLINTON POINT - NWT; PIN-2 CAPE YOUNG - NUNAVUT; PIN-3 LADY FRANKLIN POINT - NUNAVUT; PIN-4 BYRON BAY - NUNAVUT; PIN-M CAPE PARRY - NWT. Organizations mentioned in the file include: Canadian Parks Services; Defence Construction Canada Ltd Other; Department of Indian Affairs and Northern Development Canada; Department of National Defence; UMA Engineering. | 1992/02/28- 1995/12/13 |

| 1505 | R112 | RG24 | 2021-00207-1 | 92 | 7690-DLCU001-F04155 | | DEWLINE CLEANUP - SECTION I - VOL 1 - PART 2 | File is part 2 of volume 1 of Section I, which pertains to consultant coordination and design review meetings. The file mainly contains meeting material and related correspondence pertaining to a concept design briefing for 10 DLCU sites held at Royal Roads Military College on 15-16 Sept 1992, and subsequent quality review or design review meetings during the next two months. The file includes correspondence, agendas, and various Reports of Meeting from UMA Engineering. The Reports of Meetings discuss such matters as Northern Benefits, a Project Implementation Plan, a Public Consultation Program, site information, site recommendations and review of drawings, draft environmental screening reports, cost estimates, management of contaminated soils/hazardous materials/PCBs, secure landfills in the Arctic, thermal analysis, and Contracting Strategy Alternatives. The file also contains a Forward Operating Location (FOL) Construction Northern Benefits Summary, a list of design drawings, a copy of the Contribution Agreement between INAC and the Hamlet of Coral Harbour, DIAND memos summarizing the current status of the DLCU, a draft Project Manager Direction paper regarding the DLCU project, Progress Submission Schedules, a list of media questions and answers for NWSO, a Project Manager Briefing to the Director General of Environment dated 26 Oct 1992, a proposed action plan for persuading the Northwest Territories of the merits of the Secure Northern Landfill option, and an outline from EBA Engineering of the preliminary design and geotechnical evaluation. | Locations mentioned in the file include: BAR-2 SHINGLE POINT - YUKON; BAR-3 TUKTOYAKTUK - NWT; CAM-3 SHEPHERD BAY - NUNAVUT; CAM-M CAMBRIDGE BAY - NUNAVUT; FOX-3 DEWAR LAKES - NUNAVUT; FOX-5 BROUGHTON ISLAND - NUNAVUT; FOX-M HALL BEACH - NUNAVUT; PIN-3 LADY FRANKLIN POINT - NUNAVUT; PIN-M CAPE PARRY - NWT. Organizations mentioned in the file include: Defence Construction Canada Ltd Other; Department of Indian Affairs and Northern Development Canada; Department of National Defence; EBA Engineering Consultants; Jacques Whitford Environmental Ltd; Queens University; Royal Military College of Canada; Sheppard Hedges & Green Ltd; UMA Engineering. | 1992/09/11- 1992/11/03 |

| 1506 | R112 | RG24 | 2021-00207-1 | 92 | 7690-DLCU001-F04156 | | SECTION I - CONSULTANT COORDINATION AND DESIGN REVIEW MEETINGS - AGENDAS - TRAVEL TO MEETINGS - MINUTES - VOLUME 1 - PART 1 | File is Part 1 of Volume 1 of Section I, which pertains to DLCU consultant coordination and design review meetings. The file contains minutes of an administrative/preliminary design briefing held at Royal Roads Military College on 16-17 Jun 1992 regarding the design and costing of DLCU decommissioning plans. The file also contains minutes of technical review meetings held on 21 and 28 Aug 1992. The various meetings discussed such issues as project team organization, contractual issues, administrative issues, public consultation, the clean-up protocol, site inspections, and geotechnical considerations. Material annexed to the minutes includes agendas, a Project Information Sheet, a Consultant Organization Chart from UMA, a list of key project personnel, a table outlining the number of barrels, a draft Northern Benefits Plan, a 1992 Artic Program Sampling Schedule, an FOL directory, Operating Guidelines and Procedures for Environmental Impact Screening Committee, and technical drawings and equipment schematics for disposal of hazardous and non-hazardous materials. | Locations mentioned in the file include: BAR-1 KOMAKUK BEACH - YUKON; BAR-2 SHINGLE POINT - YUKON; BAR-3 TUKTOYAKTUK - NWT; BAR-4 NICHOLSON PENINSULA - NWT; CAM-1 JENNY LIND ISLAND - NUNAVUT; CAM-2 GLADMAN POINT- NUNAVUT; CAM-3 SHEPHERD BAY - NUNAVUT; CAM-4 PELLY BAY - NUNAVUT; CAM-5 MACKAR INLET - NUNAVUT; DYE-M CAPE DYER - NUNAVUT; FOX-2 LONGSTAFF BLUFF - NUNAVUT; FOX-3 DEWAR LAKES - NUNAVUT; FOX-4 CAPE HOOPER - NUNAVUT; FOX-5 BROUGHTON ISLAND - NUNAVUT; FOX-M HALL BEACH - NUNAVUT; PIN-1 CLINTON POINT - NWT; PIN-2 CAPE YOUNG - NUNAVUT; PIN-4 BYRON BAY - NUNAVUT; PIN-M CAPE PARRY - NWT. | 1512 | R112 | RG24 | 2021-00207-1 | 93 | 7690-DLCU001-F04163 | 2 | DEW Line Cleanup - Section C - VOL 2 | File pertains to contract and implementation strategy for the DLCU project, especially in relation to the Inuvialuit Regional Corporation (IRC) and Tungavik Federation of Nunavut (TFN). The file includes two copies of the draft cooperation agreement between the IRC and DND for the restoration of the 21 sites; correspondence on manpower resource requirements for the cleanup project; a speech by a representative of the Inuvialuit Development Corporation (IDC) on balancing economic development and the environment; meeting reports from UMA on the cleanup project at CAM-M and for the project implementation plan for cost estimating for all 21 of the sites; a summary of the risk assessment completed by UMA; and a copy of the MOU between DIAND and DND for the restoration of the DEW Line. The file also contains the Sensitivity Assessment of Design and Construction Issues completed by UMA (March 1994), which also includes specifics on the excavation and transportation of contaminated soils, the demolition particulars, and the construction of Northern Disposal Facilities. Also included in this file is correspondence on Inuit and Northern participation during the cleanup project, draft contracting clauses for Inuit participation requirements, and records of meetings between DND and the IRC and between DND and Nunavut Tunngavik Incorporated (NTI) concerning the cooperation agreement negotiations. | Locations mentioned in the file include: BAR-1 KOMAKUK BEACH - YUKON; BAR-2 SHINGLE POINT - YUKON; BAR-3 TUKTOYAKTUK - NWT; BAR-4 NICHOLSON PENINSULA - NWT; CAM-1 JENNY LIND ISLAND - NUNAVUT; CAM-2 GLADMAN POINT - NUNAVUT; CAM-3 SHEPHERD BAY - NUNAVUT; CAM-4 PELLY BAY - NUNAVUT; CAM-5 MACKAR INLET - NUNAVUT; CAM-M CAMBRIDGE BAY - NUNAVUT; DYE-M CAPE DYER - NUNAVUT; FOX-2 LONGSTAFF BLUFF - NUNAVUT; FOX-3 DEWAR LAKES - NUNAVUT; FOX-4 CAPE HOOPER - NUNAVUT; FOX-5 BROUGHTON ISLAND - NUNAVUT; FOX-M HALL BEACH - NUNAVUT; PIN-1 CLINTON POINT - NWT; PIN-2 CAPE YOUNG - NUNAVUT; PIN-3 LADY FRANKLIN POINT - NUNAVUT; PIN-4 BYRON BAY - NUNAVUT; PIN-M CAPE PARRY - NWT. Organizations mentioned in the file include: Department of Indian Affairs and Northern Development Canada; Department of National Defence; Inuvialuit Development Corporation; Inuvialuit Regional Corporation; Nunavut Tunngavik Incorporated; UMA Engineering. | 1994/11/09-1995/04/12 |
| 1513 | R112 | RG24 | 2021-00207-1 | 93 | 7690-DLCU001-F04164 | | DEW Line Cleanup - Section C - VOL 1 | File is the first volume of material related to contracting, protocol discussions, and project management scheduling for the design and cost estimating of the cleanup protocol for 10 of the DEW Line sites. The file includes two contract amendments from Supply and Services Canada (SSC) to Major DS Services Ltd for the services of a project manager for the DLCU program. The file also includes correspondence between UMA and DND, signed copies of two amendments to UMA's contract with Supply and Services Canada, the cleanup protocols for BAR-2, BAR-3, PIN-M, PIN-3, CAM-M, CAM-3, FOX-M, FOX-3, FOX-5, and DYE-M, and the scope of work for Design Change Notice #1 under the UMA contract. | Locations mentioned in the file include: BAR-2 SHINGLE POINT - YUKON; BAR-3 TUKTOYAKTUK - NWT; CAM-3 SHEPHERD BAY - NUNAVUT; CAM-M CAMBRIDGE BAY - NUNAVUT; DYE-M CAPE DYER - NUNAVUT; FOX-3 DEWAR LAKES - NUNAVUT; FOX-5 BROUGHTON ISLAND - NUNAVUT; FOX-M HALL BEACH - NUNAVUT; PIN-3 LADY FRANKLIN POINT - NUNAVUT; PIN-M CAPE PARRY - NWT. Organizations mentioned in the file include: Department of Indian Affairs and Northern Development Canada; Department of National Defence; Major DS Services Limited; Supply and Services Canada. | 1991/05/08-1992/12/18 |

The file contains minutes of meetings of the DND-IRC Review Committee. Correspondence with the IRC deals with a variety of environmental issues, including discussion of hydrocarbons, chlorinated hydrocarbons, arsenic, and PCB amended paint (PAP), as well as potential revisions to the environmental provisions within the DND-IRC cooperation agreement. Also discussed are business matters, including Inuvialuit contracting opportunities and employment levels in DLCU work. The file contains legal advice about the proper approach to provision of aboriginal contracting opportunities in light of the Inuvialuit Final Agreement and Nunavut Land Claims Agreement. | Locations mentioned in the file include: BAR-1 KOMAKUK BEACH - YUKON; BAR-2 SHINGLE POINT - YUKON; BAR-3 TUKTOYAKTUK - NWT; BAR-4 NICHOLSON PENINSULA - NWT; CAM-1 JENNY LIND ISLAND - NUNAVUT; CAM-2 GLADMAN POINT - NUNAVUT; CAM-3 SHEPHERD BAY - NUNAVUT; CAM-4 PELLY BAY - NUNAVUT; CAM-5 MACKAR INLET - NUNAVUT; CAM-M CAMBRIDGE BAY - NUNAVUT; DYE-M CAPE DYER - NUNAVUT; FOX-2 LONGSTAFF BLUFF - NUNAVUT; FOX-3 DEWAR LAKES - NUNAVUT; FOX-4 CAPE HOOPER - NUNAVUT; FOX-5 BROUGHTON ISLAND - NUNAVUT; FOX-M HALL BEACH - NUNAVUT; PIN-1 CLINTON POINT - NWT; PIN-2 CAPE YOUNG - NUNAVUT; PIN-3 LADY FRANKLIN POINT - NUNAVUT; PIN-4 BYRON BAY - NUNAVUT; PIN-M CAPE PARRY - NWT. | 1526 | R112 | RG24 | 2021-00207-1 | 95 | 7690-DLCU001-F04181 | | DLPMO-NTI-06 | PMO file pertaining to communication with Nunavut Tunngavik Incorporated (NTI), or to aspects of the DLCU work in Nunavut of interest to NTI. The majority of the file relates to a UMA report titled 'DEW Line Clean Up - Economic Assessment of Northern Industry and Construction Activity.' A work plan/cost proposal for the report, email related to the project, and drafts of the report are found in the file. The file also contains correspondence related to negotiation of the DND-NTI Economic Agreement and the contracting approach to be taken for site cleanup in the Nunavut area, particularly at CAM-4 and FOX-5. Blue labels reading 'DND - NTI vs AGC - Litigation' and 'NTI vs. AGC (DCC)' are stapled to the file cover. | Locations mentioned in the file include: BAR-1 KOMAKUK BEACH - YUKON; BAR-2 SHINGLE POINT - YUKON; BAR-3 TUKTOYAKTUK - NWT; BAR-4 NICHOLSON PENINSULA - NWT; CAM-4 PELLY BAY - NUNAVUT; CAM-M CAMBRIDGE BAY - NUNAVUT; FOX-4 CAPE HOOPER - NUNAVUT; FOX-5 BROUGHTON ISLAND - NUNAVUT; PIN-1 CLINTON POINT - NWT; PIN-3 LADY FRANKLIN POINT - NUNAVUT; PIN-M CAPE PARRY - NWT. Organizations mentioned in the file include: Defence Construction Canada Ltd Other; Department of National Defence; Nunavut Impact Review Board; Nunavut Tunngavik Incorporated; SGE Group; UMA Engineering. | 2000/11/07- 2001/02/27 |
| 1527 | R112 | RG24 | 2021-00207-1 | 95 | 7690-DLCU001-F04182 | | DLPMO-NTI-05 | PMO file pertaining to communication with Nunavut Tunngavik Incorporated (NTI), or to aspects of the DLCU work in Nunavut of interest to NTI. The file contains records of various meetings, including meetings of the NTI-DND Steering Committee, of the Nunavut Impact Review Board, and of the Environmental Working Group (EWG), as well as an EWG progress report and Record of Recommendations regarding FOX-5. The wide range of topics discussed in the file include levels of Inuit employment in DLCU contracts, Inuit contracting opportunities, Inuit training, and environmental assessments for DLCU projects in Nunavut. The file contains the first draft of the DND-NTI Economic Agreement, draft MOUs concerning the construction and operation of a road from Kugaaruk to CAM-4, and a large document titled 'Nunavut Impact Review Board Operational Procedures.' Blue labels reading 'DND - NTI vs AGC - Litigation' and 'NTI vs. AGC (DCC)' are stapled to the file cover. | Locations mentioned in the file include: BAR-1 KOMAKUK BEACH - YUKON; BAR-2 SHINGLE POINT - YUKON; BAR-3 TUKTOYAKTUK - NWT; BAR-4 NICHOLSON PENINSULA - NWT; CAM-1 JENNY LIND ISLAND - NUNAVUT; CAM-2 GLADMAN POINT- NUNAVUT; CAM-3 SHEPHERD BAY - NUNAVUT; CAM-4 PELLY BAY - NUNAVUT; CAM-5 MACKAR INLET - NUNAVUT; CAM-M CAMBRIDGE BAY - NUNAVUT; DYE-M CAPE DYER - NUNAVUT; FOX-2 LONGSTAFF BLUFF - NUNAVUT; FOX-3 DEWAR LAKES - NUNAVUT; FOX-4 CAPE HOOPER - NUNAVUT; FOX-5 BROUGHTON ISLAND - NUNAVUT; FOX-M HALL BEACH - NUNAVUT; PIN-1 CLINTON POINT - NWT; PIN-2 CAPE YOUNG - NUNAVUT; PIN-3 LADY FRANKLIN POINT - NUNAVUT; PIN-4 BYRON BAY - NUNAVUT. | 1628 | R112 | RG24 | 2021-00207-1 | 101 | 7690-DLCU001-F04435 | | 01-DLPMO-IRC | PMO file pertaining to relations with the Inuvialuit Regional Corporation (IRC) in the carrying out of the DLCU project. The file contains correspondence, meeting records, and associated material discussing such issues as Inuvialuit contracting and employment opportunities, environmental problems and standards, use of and payment for earth materials, and the negotiation of an IRC-DND cooperation agreement. The file also contains correspondence and meeting material dealing with contracting/employment opportunities and environmental standards in the Nunavut region, and the potential negotiation of an agreement with Nunavut Tunngavik Incorporated (NTI). Also found in the file is discussion of the legal interpretation of the Inuvialuit Final Agreement, the 1989 DND-DIAND MOU, and the Territorial Lands Act. | Locations mentioned in the file include: BAR-1 KOMAKUK BEACH - YUKON; BAR-2 SHINGLE POINT - YUKON; BAR-3 TUKTOYAKTUK - NWT; BAR-4 NICHOLSON PENINSULA - NWT; CAM-M CAMBRIDGE BAY - NUNAVUT; FOX-M HALL BEACH - NUNAVUT; PIN-1 CLINTON POINT - NWT; PIN-M CAPE PARRY - NWT. Organizations mentioned in the file include: Defence Construction Canada Ltd Other; Department of Indian Affairs and Northern Development Canada; Department of National Defence; Inuvialuit Regional Corporation; North Warning System Office; Nunavut Tunngavik Incorporated; Treasury Board of Canada; UMA Engineering. | 1993/01/15- 1995/07/12 |

Much of the file discusses plans for visits to the arctic, either for community meetings or for tours of DEW Line sites, such as Site Assistance Visit (SAV) tours or due diligence investigation visits. Another key topic discussed is the West Kitikmeot Land Use Plan, community meetings about it in May 2002, and a DLCU presentation to the Nunavut Planning Commission on the subject. The file also contains a 20 June 2002 Due Diligence Site Inspections Implementation Plan, as well as a letter about the cancellation of a 1995 DND-DCC Memorandum of Agreement and the development of Service Level Agreements in accordance with a 2001 DND-DCC MOU. | Locations mentioned in the file include: BAR-1 KOMAKUK BEACH - YUKON; BAR-2 SHINGLE POINT - YUKON; BAR-3 TUKTOYAKTUK - NWT; CAM-1 JENNY LIND ISLAND - NUNAVUT; CAM-2 GLADMAN POINT- NUNAVUT; CAM-4 PELLY BAY - NUNAVUT; CAM-5 MACKAR INLET - NUNAVUT; CAM-M CAMBRIDGE BAY - NUNAVUT; DYE-M CAPE DYER - NUNAVUT; FOX-2 LONGSTAFF BLUFF - NUNAVUT; FOX-3 DEWAR LAKES - NUNAVUT; FOX-4 CAPE HOOPER - NUNAVUT; FOX-5 BROUGHTON ISLAND - NUNAVUT; FOX-M HALL BEACH - NUNAVUT; PIN-1 CLINTON POINT - NWT; PIN-2 CAPE YOUNG - NUNAVUT; PIN-3 LADY FRANKLIN POINT - NUNAVUT; PIN-4 BYRON BAY - NUNAVUT. | 1634 | R112 | RG24 | 2021-00207-1 | 101 | 7690-DLCU001-F04445 | | 09-DLCPMO-GEN - 2000-2001 | PMO file containing miscellaneous material related to the DLCU project. The file contains periodic update reports about the DLCU project as a whole, which discuss political, environmental, and administrative issues. A memo from DND legal counsel discusses conflict of interest resulting when a firm both receives DLCU contracts and sits on the Review Committee or the Environmental Working Group (EWG). The file also contains briefing notes and discussion papers regarding PCB amended paint (PAP), management of project costs, and potential adjustments to the Project Management Office (PMO). Other items of note in the file are a December 2000 report titled 'DEW Line Clean Up - Economic Assessment of Northern Industry and Construction Activity,' and implementation plans for 2001 site investigations of FOX-2, FOX-3, and CAM-1. | Locations mentioned in the file include: BAR-1 KOMAKUK BEACH - YUKON; BAR-2 SHINGLE POINT - YUKON; BAR-3 TUKTOYAKTUK - NWT; BAR-4 NICHOLSON PENINSULA - NWT; CAM-1 JENNY LIND ISLAND - NUNAVUT; CAM-2 GLADMAN POINT- NUNAVUT; CAM-3 SHEPHERD BAY - NUNAVUT; CAM-4 PELLY BAY - NUNAVUT; CAM-5 MACKAR INLET - NUNAVUT; CAM-M CAMBRIDGE BAY - NUNAVUT; DYE-M CAPE DYER - NUNAVUT; FOX-2 LONGSTAFF BLUFF - NUNAVUT; FOX-3 DEWAR LAKES - NUNAVUT; FOX-4 CAPE HOOPER - NUNAVUT; FOX-5 BROUGHTON ISLAND - NUNAVUT; FOX-M HALL BEACH - NUNAVUT; PIN-1 CLINTON POINT - NWT; PIN-2 CAPE YOUNG - NUNAVUT; PIN-3 LADY FRANKLIN POINT - NUNAVUT; PIN-4 BYRON BAY - NUNAVUT; PIN-M CAPE PARRY - NWT. | 1637 | R112 | RG24 | 2021-00207-1 | 101 | 7690-DLCU001-F04451 | | DLPMO-APP-01 | PMO file pertaining to estimation of costs and attempts to obtain approval for components of the DLCU project. The file contains material related to submissions to and meetings of the Senior Review Board (SRB), submissions to Treasury Board, inquiries about land use permits, and attempts to obtain permission from the Environmental Impact Screening Committee in the Inuvialuit Settlement Region (ISR). The file also deals with cost estimates, including estimates of the cost of disposing of PCB amended paint (PAP) debris. Also found in the file is a 3.5 inch floppy disk labeled 'Cost Attributable to a Site: Sitecost: WK3 - Escalated Cost - Escal Cost - WK3.' A blue label stapled to the file cover reads 'DND - NTI vs AGC - Litigation.' | Locations mentioned in the file include: BAR-1 KOMAKUK BEACH - YUKON; BAR-2 SHINGLE POINT - YUKON; BAR-3 TUKTOYAKTUK - NWT; BAR-4 NICHOLSON PENINSULA - NWT; CAM-1 JENNY LIND ISLAND - NUNAVUT; CAM-2 GLADMAN POINT- NUNAVUT; CAM-3 SHEPHERD BAY - NUNAVUT; CAM-4 PELLY BAY - NUNAVUT; CAM-5 MACKAR INLET - NUNAVUT; CAM-M CAMBRIDGE BAY - NUNAVUT; DYE-M CAPE DYER - NUNAVUT; FOX-2 LONGSTAFF BLUFF - NUNAVUT; FOX-3 DEWAR LAKES - NUNAVUT; FOX-4 CAPE HOOPER - NUNAVUT; FOX-5 BROUGHTON ISLAND - NUNAVUT; FOX-M HALL BEACH - NUNAVUT; PIN-1 CLINTON POINT - NWT; PIN-2 CAPE YOUNG - NUNAVUT; PIN-3 LADY FRANKLIN POINT - NUNAVUT; PIN-4 BYRON BAY - NUNAVUT; PIN-M CAPE PARRY - NWT. | 1643 | R112 | RG24 | 2021-00207-1 | 102 | 7690-DLCU001-F04471 | | DLPMO-DD | PMO file pertaining to cleanup work undertaken in 2002 and planned for 2003 to remedy potentially 'acute' contamination problems promptly for purposes of due diligence, within a shorter time frame separate from the normal schedule for the rest of the DLCU project. This due diligence work arose in response to warning letters from Environment Canada about certain environmental problems at particular sites. The file deals with the planning of the scope of work and contracting approach for 2002, discusses the due diligence PCB and hydrocarbon remediation measures carried out in the summer of 2002 at DYE-M, FOX-5, and FOX-M, contains an interim ESG report on due diligence site investigations carried out in the summer of 2002, and discusses remedial options for due diligence work to be performed in 2003 at PIN-4, CAM-5, and FOX-2. The file also contains meetings records, including minutes of the 18 April 2002 meeting of the DND-Nunavut Tunngavik Incorporated (NTI) DLCU Steering Committee. | Locations mentioned in the file include: BAR-1 KOMAKUK BEACH - YUKON; BAR-2 SHINGLE POINT - YUKON; BAR-4 NICHOLSON PENINSULA - NWT; CAM-1 JENNY LIND ISLAND - NUNAVUT; CAM-2 GLADMAN POINT- NUNAVUT; CAM-3 SHEPHERD BAY - NUNAVUT; CAM-4 PELLY BAY - NUNAVUT; CAM-5 MACKAR INLET - NUNAVUT; CAM-M CAMBRIDGE BAY - NUNAVUT; DYE-M CAPE DYER - NUNAVUT; FOX-2 LONGSTAFF BLUFF - NUNAVUT; FOX-3 DEWAR LAKES - NUNAVUT; FOX-4 CAPE HOOPER - NUNAVUT; FOX-5 BROUGHTON ISLAND - NUNAVUT; FOX-M HALL BEACH - NUNAVUT; PIN-1 CLINTON POINT - NWT; PIN-2 CAPE YOUNG - NUNAVUT; PIN-3 LADY FRANKLIN POINT - NUNAVUT; PIN-4 BYRON BAY - NUNAVUT; PIN-M CAPE PARRY - NWT. The file discusses such matters as the quantities of PCB waste materials at DEW Line sites and the options for disposing of PCB amended paint (PAP) waste. The file contains an August 1999 paper by the RMC Institute for the Environment titled 'PCBs in Paint - Options Analysis.' Much of the file relates to a 9 December 1998 meeting in Calgary to discuss with private-sector firms the possible contracting approach for disposal of hazardous waste material from DEW Line sites. | Locations mentioned in the file include: BAR-1 KOMAKUK BEACH - YUKON; BAR-2 SHINGLE POINT - YUKON; BAR-3 TUKTOYAKTUK - NWT; BAR-4 NICHOLSON PENINSULA - NWT; CAM-1 JENNY LIND ISLAND - NUNAVUT; CAM-2 GLADMAN POINT- NUNAVUT; CAM-3 SHEPHERD BAY - NUNAVUT; CAM-4 PELLY BAY - NUNAVUT; CAM-5 MACKAR INLET - NUNAVUT; CAM-M CAMBRIDGE BAY - NUNAVUT; DYE-M CAPE DYER - NUNAVUT; FOX-2 LONGSTAFF BLUFF - NUNAVUT; FOX-3 DEWAR LAKES - NUNAVUT; FOX-4 CAPE HOOPER - NUNAVUT; FOX-5 BROUGHTON ISLAND - NUNAVUT; FOX-M HALL BEACH - NUNAVUT; PIN-1 CLINTON POINT - NWT; PIN-2 CAPE YOUNG - NUNAVUT; PIN-3 LADY FRANKLIN POINT - NUNAVUT; PIN-4 BYRON BAY - NUNAVUT; PIN-M CAPE PARRY - NWT. | 1661 | R112 | RG24 | 2021-00207-1 | 103 | 7690-DLCU001-F04496 | | DLP MO-POL-01 | PMO file dealing with policy related to the DLCU project. A large amount of material relates to the negotiation of a revised MOU with DIAND about DEW Line cleanup. The file contains copies of a 29 July 1985 MOU and the 1989 MOU, as well as revised versions from the mid-1990s. DND and DIAND also discuss the negotiation of cooperation agreements between DND, the Inuvialuit Regional Corporation (IRC), and Nunavut Tunngavik Incorporated (NTI). Other materials in the file include Treasury Board Secretariat (TBS), DND, and DCC policy or procedural documents about such matters as contracting policy, contract change management, and property remediation, as well as legal consultation about contracting processes in light of the Inuvialuit Final Agreement and Nunavut Land Claims Agreement. | Locations mentioned in the file include: BAR-1 KOMAKUK BEACH - YUKON; BAR-2 SHINGLE POINT - YUKON; BAR-3 TUKTOYAKTUK - NWT; BAR-4 NICHOLSON PENINSULA - NWT; CAM-1 JENNY LIND ISLAND - NUNAVUT; CAM-2 GLADMAN POINT- NUNAVUT; CAM-3 SHEPHERD BAY - NUNAVUT; CAM-4 PELLY BAY - NUNAVUT; CAM-5 MACKAR INLET - NUNAVUT; CAM-M CAMBRIDGE BAY - NUNAVUT; DYE-M CAPE DYER - NUNAVUT; FOX-2 LONGSTAFF BLUFF - NUNAVUT; FOX-3 DEWAR LAKES - NUNAVUT; FOX-4 CAPE HOOPER - NUNAVUT; FOX-5 BROUGHTON ISLAND - NUNAVUT; FOX-M HALL BEACH - NUNAVUT; PIN-1 CLINTON POINT - NWT; PIN-2 CAPE YOUNG - NUNAVUT; PIN-3 LADY FRANKLIN POINT - NUNAVUT; PIN-4 BYRON BAY - NUNAVUT; PIN-M CAPE PARRY - NWT. | 1690 | R112 | RG24 | 2021-00207-1 | 105 | 7690-DLCU001-F04560 | | DLCU 2003 CRS Audit | File consists of a bundle of materials pertaining to the Chief Review Services (CRS) audit of the DLCU project in 2003. At the beginning of the file are a set of documents providing questions/topics to be discussed in a series of eight audit interviews about the management of the project. The remainder of the file contains materials grouped under nine tabs (most of them corresponding to one of the interview topics): integration, scope, time, cost, quality, human resources, communications, risk, and procurement. The material grouped under these tabs includes a wide range of documentation, including a copy of the DEW Line Cleanup Protocol, excerpts from the 1998 and 2003 submissions to Treasury Board, extensive information about managers' roles and responsibilities, and much else. A blue label reading 'NTI vs. AGC (DCC)' is clipped to the front of the file. | Locations mentioned in the file include: BAR-1 KOMAKUK BEACH - YUKON; BAR-2 SHINGLE POINT - YUKON; BAR-3 TUKTOYAKTUK - NWT; BAR-4 NICHOLSON PENINSULA - NWT; CAM-1 JENNY LIND ISLAND - NUNAVUT; CAM-2 GLADMAN POINT- NUNAVUT; CAM-3 SHEPHERD BAY - NUNAVUT; CAM-4 PELLY BAY - NUNAVUT; CAM-5 MACKAR INLET - NUNAVUT; CAM-M CAMBRIDGE BAY - NUNAVUT; DYE-M CAPE DYER - NUNAVUT; FOX-2 LONGSTAFF BLUFF - NUNAVUT; FOX-3 DEWAR LAKES - NUNAVUT; FOX-4 CAPE HOOPER - NUNAVUT; FOX-5 BROUGHTON ISLAND - NUNAVUT; FOX-M HALL BEACH - NUNAVUT; PIN-1 CLINTON POINT - NWT; PIN-2 CAPE YOUNG - NUNAVUT; PIN-3 LADY FRANKLIN POINT - NUNAVUT; PIN-4 BYRON BAY - NUNAVUT; PIN-M CAPE PARRY - NWT. Organizations mentioned in the file include: Defence Construction Canada Ltd Other; Department of National Defence; Environmental Sciences Group / Royal Military College RMC; SGE Group; UMA Engineering. | 2003/01/01-2003/12/31 |
| 1691 | R112 | RG24 | 2021-00207-1 | 105 | 7690-DLCU001-F04563 | | DLCPMO-FOX5-RPT | PMO file containing a Site Summary Report by ESG concerning the remediation work carried out at FOX-5 in 2011. The report notes the demolition and excavation completed, outlines the sampling performed by ESG at various specific landfills or contaminated areas, indicates that sampling results (post-excavation, in some cases) were acceptable in each area, and identifies further investigation or possibly remediation to be carried out in a future season. | Locations mentioned in the file include: FOX-5 BROUGHTON ISLAND - NUNAVUT. Organizations mentioned in the file include: Environmental Sciences Group / Royal Military College RMC. | 2011/11/01-2011/11/30 |
| 1692 | R112 | RG24 | 2021-00207-1 | 105 | 7690-DLCU001-F04568 | | DLCPMO-FOX4-SCI | PMO file pertaining to scientific investigation at FOX-4. The file contains documents outlining options for and recommending investigation and remediation work to provide maintenance and further cleanup of landfills and other contaminated areas at FOX-4. The file also contains a final draft of a lengthy ESG report on the maintenance and assessment program at the site in 2010, which discusses the investigation, delineation, and monitoring carried on in July and August of that year, as well as providing recommendations for subsequent cleanup. This report includes maps, colour copies of both aerial photos and land-based photos, detailed landfill evaluations, and analytical sampling data, although the data in Appendix B is identified (whether correctly or erroneously) as pertaining to FOX-2. | Locations mentioned in the file include: FOX-2 LONGSTAFF BLUFF - NUNAVUT; FOX-3 DEWAR LAKES - NUNAVUT; FOX-4 CAPE HOOPER - NUNAVUT. Organizations mentioned in the file include: Defence Construction Canada Ltd Other; Department of National Defence; Environmental Sciences Group / Royal Military College RMC; Environmental Working Group Material. | 2009/11/02-2010/11/30 |

| 1693 | R112 | RG24 | 2021-00207-1 | 105 | 7690-DLCU001-F04572 | | DLCPMO-FOX4-ARCH | PMO file pertaining to archaeological services for the DLCU project, especially at FOX-4. The file includes a draft Statement of Work (SOW) and the contractor's proposal for work at FOX-4 under contract 46555, along with associated correspondence. Some material, including excerpts from earlier archaeological reports, contains substantive archaeological information about the site. | Locations mentioned in the file include: FOX-2 LONGSTAFF BLUFF - NUNAVUT; FOX-4 CAPE HOOPER - NUNAVUT. Organizations mentioned in the file include: AECOM Canada Limited; Defence Construction Canada Ltd Other; Thompson Heritage Consultants. | 2005/10/24-2011/02/07 |
| 1694 | R112 | RG24 | 2021-00207-1 | 105 | 7690-DLCU001-F04574 | | DLCPMO-FOX2-SCI | PMO file pertaining to scientific services for DLCU work at FOX-2. The file contains annual site summary reports for the FOX-2 work performed in the 2010 and 2011 seasons, with tables providing detailed information on the contaminated areas remediated or other work carried out. | Locations mentioned in the file include: DYE-M CAPE DYER - NUNAVUT; FOX-2 LONGSTAFF BLUFF - NUNAVUT; FOX-3 DEWAR LAKES - NUNAVUT; PIN-2 CAPE YOUNG - NUNAVUT. Organizations mentioned in the file include: Defence Construction Canada Ltd Other; Environmental Sciences Group / Royal Military College RMC; UMA Engineering. | 2005/04/22-2011/11/30 |
| 1695 | R112 | RG24 | 2021-00207-1 | 106 | 7690-DLCU001-F04575 | | DLCPMO-FOX2-RPT | PMO file containing DCC season close-out reports for the remediation work carried out at FOX-2 in 2009 and 2010. The reports discuss the work carried out, permits obtained from federal or territorial agencies, environmental incidents, health and safety issues, Inuit employment and contracting levels, and so forth. Colour photographs are printed in the reports. | Locations mentioned in the file include: FOX-2 LONGSTAFF BLUFF - NUNAVUT. Organizations mentioned in the file include: Defence Construction Canada Ltd Other. | 2010/11/05-2011/04/29 |
| 1696 | R112 | RG24 | 2021-00207-1 | 106 | 7690-DLCU001-F04576 | | DLCPMO-FOX2-PR | PMO file containing a report on a partnering workshop provided by Andrew Johnson Associates in Ottawa on 2 June 2009 in regard to the DLCU work at FOX-2. | Locations mentioned in the file include: FOX-2 LONGSTAFF BLUFF - NUNAVUT. Organizations mentioned in the file include: Andrew Johnson Associates. | 2009/06/02 |
| 1697 | R112 | RG24 | 2021-00207-1 | 106 | 7690-DLCU001-F04577 | | DLCPMO-FOX2-PLAN | PMO file pertaining to archaeological work and remediation planning in regard to FOX-2. The file contains a final versions of a December 2009 report on mitigation measures to take during FOX-2 clean-up work in order to protect archaeological features, which also contains a CD attached to the back cover, labeled 'Final Report on Archaeological Mitigation During Final Clean Up at FOX-2 DEW Line Site,' which is said to contain digital photos as well. Also found in the file is material related to the acquisition of an archaeologist permit for this project. The file also contains an implementation plan by ESG for its work in 2011 associated with FOX-2 remediation. The plan includes extensive information on work already completed at specific locations on the site. | Locations mentioned in the file include: FOX-2 LONGSTAFF BLUFF - NUNAVUT. Organizations mentioned in the file include: Defence Construction Canada Ltd Other; Environmental Sciences Group / Royal Military College RMC; Government of Nunavut; Thompson Heritage Consultants. | 2009/07/27-2011/12/31 |

| 1805 | R112 | RG24 | 2021-00207-1 | 111 | 7690-DLCU001-F05051 | | DLPMO-PROP | File pertains to a variety of property issues associated with the DLCU project. The file contains multiple versions of a Public Works and Government Services Canada (PWGSC) proposal to provide real estate services to DCC and DND in relation to the DLCU project. The file also contains a copy of a Specific Service Agreement (SSA) for PWGSC to provide DND with real property services, under PWGSC Project No. 415659. Also found in the file are draft Environmental Disclosure Reports (EDRs) for BAR-4 and PIN-M. A table in the file lists many properties on which DND had a reserve in Nunavut, including many non-DLCU sites. | Locations mentioned in the file include: BAR-1 KOMAKUK BEACH - YUKON; BAR-2 SHINGLE POINT - YUKON; BAR-3 TUKTOYAKTUK - NWT; BAR-4 NICHOLSON PENINSULA - NWT; CAM-1 JENNY LIND ISLAND - NUNAVUT; CAM-2 GLADMAN POINT- NUNAVUT; CAM-3 SHEPHERD BAY - NUNAVUT; CAM-4 PELLY BAY - NUNAVUT; CAM-5 MACKAR INLET - NUNAVUT; CAM-M CAMBRIDGE BAY - NUNAVUT; DYE-M CAPE DYER - NUNAVUT; FOX-2 LONGSTAFF BLUFF - NUNAVUT; FOX-3 DEWAR LAKES - NUNAVUT; FOX-4 CAPE HOOPER - NUNAVUT; FOX-5 BROUGHTON ISLAND - NUNAVUT; FOX-M HALL BEACH - NUNAVUT; Other - Non-DEW Line Site PIN-1 CLINTON POINT - NWT; PIN-2 CAPE YOUNG - NUNAVUT; PIN-3 LADY FRANKLIN POINT - NUNAVUT; PIN-4 BYRON BAY - NUNAVUT; PIN-M CAPE PARRY - NWT. Organizations mentioned in the file include: Defence Construction Canada Ltd Other; Department of Indian Affairs and Northern Development Canada; Department of National Defence; Environmental Sciences Group / Royal Military College RMC; North Warning System Office; Public Works and Government Services Canada; SGE Acres Limited; UMA Engineering. | 1997/05/02-2002/05/24 |
| 1806 | R112 | RG24 | 2021-00207-1 | 111 | 7690-DLCU001-F05052 | | DLPMO-PROP | File pertains to property issues associated with the DLCU project. The file contains draft agreements between DND and the Inuvialuit Regional Corporation (IRC) regarding Annex 'R' lands at BAR-4 and PIN-M. Annexes to these agreements include Landfill Monitoring Plans, draft Environmental Disclosure Summary tables, maps, and copies of the 1996 DND-IRC Cooperation Agreement. The file also contains DCC comments concerning the draft agreements. | Locations mentioned in the file include: BAR-1 KOMAKUK BEACH - YUKON; BAR-2 SHINGLE POINT - YUKON; BAR-3 TUKTOYAKTUK - NWT; BAR-4 NICHOLSON PENINSULA - NWT; PIN-1 CLINTON POINT - NWT; PIN-M CAPE PARRY - NWT. | 1818 | R112 | RG24 | 2021-00207-1 | 111 | 7690-DLCU001-F05087 | | DLB4 - ENG - 2 / DLB4 - ENG - 3 | File consists of two files. The first file contains documentation related to the environmental monitoring of BAR-4. This includes: change request for unforeseen site conditions discovered during field and lab analyses from ESG in 1998, soil contamination and buried debris requiring further remediation, site photos of BAR-4, monitoring well data, site plans, report on thermistors and pore pressure transducers, report on June/July site visit at Bar-4, the Magnetometer Measurement Survey and Site Visit report from EBA with contour maps of sensors 1999 Magnetometer Measurements for the North Landfill, test pit logs, report of meeting to review environmental issues at BAR-4, meeting agenda for review of proposed north landfill remediation design and cover correspondence (email, fax, letter). File dates: October 9, 1998 to September 4, 2002 The second file contains documentation related to the environmental monitoring of landfills at BAR-4. This includes: drawings of the test hole logs from 1998 site visits to BAR-4 landfills, copies of field collection of soil sample, grain size analysis - mechanical method, and classification of soils from UMA Engineering, EBA's BAR-4 North Landfill Report with geophysical survey and contour maps of sensors Magnetometer Measurements for the North Landfill, EBA's August 1998 BAR-4 Site Visit report with photos, laboratory test results of the soil, field compaction results of station area landfills (southwest and west) and of Type 3 Control Systems, a draft of Work Methodology Plan for BAR-4 Clean Up from Inuvialuit Projects Inc. with related cover correspondence, daily project reports for BAR-4, test hole logs from the north landfill at BAR-4, and related memorandums and cover correspondence to the environmental monitoring. File dates: May 1998 to January 21, 1999 | Locations mentioned in the file include: BAR-4 NICHOLSON PENINSULA - NWT. Organizations mentioned in the file include: Defence Construction Canada Ltd Other; Department of National Defence; EBA Engineering Consultants; Environmental Sciences Group / Royal Military College RMC; SGE Group; UMA Engineering. | 1998/05/01- 2002/09/04 |
| 1819 | R112 | RG24 | 2021-00207-1 | 111 | 7690-DLCU001-F05089 | | DLB4 - CLIP | File contains documentation related to the Clean Up Implementation Plan for BAR-4. This includes a draft of the Clean Up Implementation Plan with corrections and related correspondence discussing the needed corrections of the plan. | Locations mentioned in the file include: BAR-4 NICHOLSON PENINSULA - NWT. Organizations mentioned in the file include: Defence Construction Canada Ltd Other; Inuvialuit Land Administration; Inuvialuit Regional Corporation. | 1998/02/27- 2000/04/07 |
