RG30	180385	7288-7580		<p><b>Records of the Chief Engineer, Construction Department - Gzowski papers (sub-series)</b></p>	<p>MIKAN 180385 Records of the Chief Engineer, Construction Department - Gzowski papers Sub-series consists of records created and maintained by the Canadian National Railways Operations Division. These records pertain to the activities of C.S. Gzowski who served with the Canadian National Railways as a chief engineer. Included are construction files, freight rate investigation records, rail replacement files, joint facility files, and records pertaining to a Royal Commission on Railways and Transportation for the period 1917-1940. The bulk of the records relate to the years 1917 to 1930, after which construction activity virtually ceased. Subsequent material largely deals with joint facility planning studies.</p> <p>The sub-series is split into multiple sub-sub-series.</p> <p>Included within the textual records are photographs, maps, and plans. The photographs can be found in vols. 7422, 7424, 7443, 7455, 7508, 7511, 7515, 7517, 7527. There are also postcards that can be found in vol. 7542.</p>	1878-1948, predominant 1916-1938

RG30	180386	7288-7533		<b>Primary construction files of chief engineer (sub-sub-series)</b>	Sub-sub-series consists of records created and maintained by the Canadian National Railways Operations Division. These records pertain to the activities of C.S. Gzowski who served with the Canadian National Railways as a chief engineer. The major subjects covered in these files are construction, planned construction and development, line and service abandonment and cooperation with other railways. File numbers are 1-1 to 759-1. Included within the textual records are numerous photographs, maps, and plans. Of particular interest are the records for the construction of the Hudson Bay Railway (in Manitoba), the Vancouver Terminals construction photographs, records and photographs relating to the construction of the Abitibi River Canyon Bridge (Ontario), and photographs relating to the construction of the Lemoine River Narrows Bridge (Quebec).	1911-1944.
RG30	180386	7288-7293		Plans for Railway Structures	Includes folded up right of way plans, plans for proposed passenger and freight shelters, relating to the Turtleford, Thunderhill, Vancouver Island Main Line subdivisions	
RG30	180386	<b>7292</b>	19-1	Cowichan Subdivision records	Correspondence, reports on track and map showing Rnt & Ker's contract for Cowichan Subdivision extension mile 83.3 to 92.5, 1928	1928
RG30	180386	<b>7292</b>	17-2	Fort Rouge Yards, Winnipeg	BRC Order 19120 Authorizing CNOR to construct proposed cut-off in City of Winnipeg to connect to it's Fort Rouge Yards, 1912	1912

RG30	5735890	7364-7371		Records of the National Transcontinental Branch Lines Company	This consists of administrative records such as payrolls, staff forms, maps and plans relating to the former Rouyn Mines Railway Company. This company was incorporated April 1925 to build a line from a point on the National Transcontinental railway to provide rail transport to the copper and gold mines in the area. Arrangements were made with the Noranda Mines Ltd. whereby the mining company would subsidize the railway should its operations result in a loss. On 26 September 1925 the railway was leased to the Dominion Government, which entrusted its operation to Canadian National Railways. On 11 March 1926 the name was changed to National Transcontinental Railway Branch Lines Company. A 42.8 mile line from Taschereau to Rouyn was opened on 1 January 1928. On 8 June 1954, National Transcontinental Branch Lines Railway Company was amalgamated with the Canadian National Railway Company	1923-1940

RG30	180393	7574-7580		<b>Royal Commission on Railways and Transportation in Canada</b>	Miscellaneous reports, statistics, evaluations relating to the Grand Trunk Railway and Canadian Northern Railway conducted by the Royal Commission on Railways and Transportation in Canada (the first occurred in 1917 and the second occurred in 1932). THhe Chief Commissioner Drayton from the Board of Railway Commissioners was appointed to serve on the royal commission along with W. M. Acworth, a British railway economist, and A.M. Smith, president of the New York Central Railway. Their findings were released in May 1917. Although Smith dissented, Drayton and Acworth agreed that CN, the Grand Trunk and the Grand Trunk Pacific should be united into a single national railway with other railways that the government already owned, including the Intercolonial Railway. In 1932, R.B. Bennett's government appointed a royal commission to look into the condition of Canada's transportation system. Mr. Justice Lyman Duff, of the Supreme Court of Canada, was named head of the commission. The CN system was suffering financially and the government sought a solution to the public railway's problems.	1916-1939
RG30	180393	7574		Miscellaneous Royal Commission ON Railays Records - Grand Trunk Railway	Includes personal correspondence re GTR Arbitration 1920-21, 2 maps 1924-1925, personal papers re. valuation of Toronto Suburban Railway Company, 1920, with valuation report Oct. 1919, readjustment of CN Capital Structure 1930s	1917-1936
