

FINDING AID: 6-9

RECORD GROUP: RG 6 - Secretary of State

SERIES: C-3 - Indexes and Registers

VOLUMES: 340-346

REEL: T-4161

DESCRIPTION: The finding aid is a file list indicating volume number, reel number, file description and outside dates.

The indexes provide an alphabetical means of locating a subject and assign a file number. Under the file number in the register it is often possible to determine file content and transactions. This is very useful if the file itself cannot be located.
