SELF-HELP EMIGRATION SOCIETY.

(ESTABLISHED 1884.)

REPORT FOR THE YEAR 1893.

PRESS NOTICES IN BRIEF.

The Times.—“This Society assists emigrants to the Colonies after the most careful selection, sending only suitable cases. In this way the comparatively small outlay used in giving suitable emigrants a start is productive of most far-reaching benefit to them.”

Northern Daily Telegraph.—“The Self-Help Emigration Society has already accomplished a considerable work. Over four thousand emigrants have been sent out, at a cost of about twenty thousand pounds, of which seventy-two per cent. has been paid by the emigrants or contributed by friends interested in them. The emigrants as a rule have prospered in the land of their adoption; only ‘in a very few cases have unsatisfactory reports been received.’”

The City Press.—“The Self-Help Emigration Society continues by its work amply to justify the confidence that is placed in it by the public at large. The Society is doing a work, the value of which it is impossible to exaggerate.”

Stockton Herald.—“The emigrants who put themselves under the care of the Self-Help Emigration Society have thus a special advantage. All anxiety as to their position is removed, and they get settled and make a start in their new life at the minimum cost and also under the safest conditions possible.”

The Christian World.—“The Society is doing an admirable work, which appears the better the more it is looked into.”

The Pall Mall Budget.—“Through the efforts of the Society’s honorary correspondents in Canada, employment is awaiting nearly all the emigrants.”

Wotts Evening Post.—“The Society has been instrumental in sending large numbers of people to Canada, who, but for its timely assistance, would in all probability have gone to swell the great body of helpless poor in this country.”

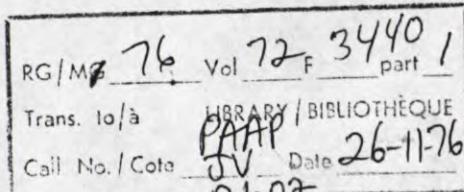

Bristol Times.—“The Self-Help Emigration Society continues to carry on its useful work in the Colonies with marked success.”

Montreal Gazette.—“The immigrants are of a superior class to the usual arrivals, both as regards physique, education, and finances.”

Liverpool Daily Post.—“Its resources are being used to the best advantage in helping others to help themselves.”

Christian Age.—“The Self-Help Emigration Society, whose head-quarters are at the Memorial Hall, Farringdon Street, E.C., and of which the Governor-General of Canada (the Earl of Aberdeen) has recently been chosen President, is making good progress with its useful work.”

(ESTABLISHED 1884.)

REPORT FOR THE YEAR 1892.

PRESS NOTICES IN BRIEF.

The Times.—"This Society assists emigrants to the Colonies after the most careful selection, sending only suitable cases. In this way the comparatively small outlay used in giving suitable emigrants a start is productive of most far-reaching benefit to them."

The Daily Telegraph.—"Already the Self-Help Emigration Society has commenced its useful work for the year."

The Daily News.—"At this period of the year public attention is generally attracted to this useful Society and the valuable work effected by it."

The City Press.—"The Self-Help Emigration Society continues by its work amply to justify the confidence that is placed in it by the public at large. The Society is doing a work, the value of which it is impossible to exaggerate."

The Christian World.—"The Society is doing an admirable work, which appears the better the more it is looked into."

The Pall Mall Budget.—"Through the efforts of the Society's honorary correspondents in Canada, employment is awaiting nearly all the emigrants."

Matts Evening Post.—"The Society has been instrumental in sending large numbers of people to Canada, who, but for its timely assistance, would in all probability have gone to swell the great body of helpless poor in this country."

Bristol Times.—"The Self-Help Emigration Society continues to carry on its useful work in the Colonies with marked success."

Montreal Gazette.—"The immigrants are of a superior class to the usual arrivals, both as regards physique, education, and finances. The immigration officers say they are the best they have had to deal with for some time."

Liverpool Daily Post.—"Its resources are being used to the best advantage in helping others to help themselves."

♦ A WEEK ♦

AT

MANSFIELD HOUSE.

"There shall come from out this noise of strife and groaning

A broader and a juster brotherhood,

A deep equality of aim, postponing

All selfish seeking to the general good.

There shall come a time when each shall to another

Be as Christ would have him—brother unto brother."

—LEWIS MORRIS.

EMMIGRATION

APR 30 1906

OBJECTS.

To assist persons to emigrate who are likely to make good Colonists, and to dissuade those who are unsuitable.

METHODS.

The Society gives information gratis to all comers.

It investigates the character of applicants, and helps those who are suitable by booking passages, giving Colonial introductions, and, in cases of necessity, making small grants.

The fundamental principle is **Self-Help**, which means that every emigrant must contribute, personally or through friends, the whole or the greater part of the cost of emigration. Those who are able to pay their own expenses secure the Society's guidance and advice by booking through its agency.

WHAT BECOMES OF THE EMIGRANTS SENT OUT.

The Society sends emigrants to Canada principally during the spring, exception being made in the cases of persons going to homes provided for them by their friends, or to situations. A responsible representative of the Society accompanies each large party.

This Society does not merely assist emigrants to the port of landing, and there leave them to take their chance. It has numerous correspondents in various parts of Canada, to whom they are sent. These correspondents inform the Committee in London what class of persons they can receive, and for how many they can find employment. They are also provided by the Committee with funds to enable them to supply the Society's Emigrants (in case of need) with food and lodging for a day or two, until employment is secured. The Society has, also, correspondents in Queensland, Victoria, South Australia, Tasmania, New Zealand, and South Africa.

WORK ON ARRIVAL.

Places can readily be found in Canada for hundreds of Good Farm Labourers and Domestic Servants, and a reasonable number of good mechanics, such as carpenters, bricklayers, stone-cutters, etc., etc.

Strong, healthy young men who are willing to take work on farms can be placed in situations without difficulty.

Many more *domestic servants* are required than ever apply. Clerks, shopmen, and persons having no particular trade or calling, or who are unfit for manual labour, are not wanted.

Steerage passengers for Canada should take with them Certificates of Vaccination, to avoid the necessity of the operation on board.

Information re Shipping Settlers' Effects to Western Canada

1. When shipping emigrant's movables or settler's effects to Canada, keep in mind the fact that these terms mean a shipment which consists of household goods, personal effects, farm implements, live stock, etc., and the freight rates for a carload are based on a minimum of 20,000 lbs. in the United States, and 24,000 lbs. in Canada. If you are shipping household goods only, then the U. S. freight tariff is based on a minimum of 12,000 lbs. and the Canadian tariff on a minimum of 24,000 lbs. These minimums are applicable only to freight cars not exceeding 36 ft. 6 inches in length inside measurement.

2. Emigrant's movables or settler's effects include household furniture, clothing, agricultural implements, tools of trade, carriages, wagons, a limited quantity of live stock, second hand tractor (without limit of value), second hand automobile valued at not more than \$1,000, if all owned for at least six months before removal to Canada. All free of duty and taxes. New tractors valued at not more than \$1,400, and traction attachments for combination with automobiles for tractor work, can be taken to Canada free of duty, but they are subject to a sales tax of ~~six~~ per cent. All emigrant's movables can be shipped at the emigrant's movables freight rate, except automobiles, which are charged the automobile freight rate in addition to the emigrant's movables rates, even when shipped in the same car.

The freight rate on automobiles is the first class rate on a minimum of 5,000 lbs., or the actual weight multiplied by two and one-half times the first class rate. Boxing or crating an automobile will reduce the rate somewhat.

For full particulars as to what constitutes emigrant's movables or settler's effects, customs regulations, freight regulations, see page on inside of front cover of pamphlet "Canada West."

3. Before attempting to ship any live stock, write for special instructions as to Quarantine Regulations, certificate of ophthalmic test for horses, certificate for man who accompanies the live stock to care for them in transit, and full instructions.

4. Information as to freight rates on emigrant's movables, settler's effects, and household goods from Harrisburg Pa., to the principal cities in Western Canada, via Niagara Falls, N. Y., or Buffalo, N. Y., will be found at the bottom of this sheet. This information will give you approximate cost.

5. Should you desire to make a shipment of household goods or emigrant's movables write to the undersigned, giving a general idea of the quantity and kind of goods you want to ship, the point of shipment and the destination, and definite information will be sent to you as to best rates and route.

6. The United States Government requires three forms of export declaration to be delivered to the freight agent at point of shipment. These forms will be sent to you on application with a sample form made out, showing route, U. S. Customs port of exportation, Canadian Customs port of entry, and destination. These forms do not have to be sworn to, when the goods are going to Canada. Description of goods in the declaration must be free from erasures or interlineations. Be sure and have

the freight agent route the shipment as given in the sample export declaration.

7. Advise the undersigned of date of shipment, and in case of a carload shipment the name of railway and number on the car. Let me know your Canadian address immediately on arrival, also write the Collector of Customs at the Canadian port of entry named in export declaration, giving your Canadian address and asking him to send forms of entry, the name and address of a reliable customs broker. You can employ the broker to make the entry for you for a moderate charge, or you can attend to the matter by personally going to the customs office, which ever is the least trouble and expense.

8. Before deciding what to ship as emigrant's movables read carefully the "customs' regulations," "freight regulations," and "hints for the man about to start" on the inside of front cover of "Canada West," also ask the freight agent at point of shipment to send to you a copy of Rule 34, U. S. Freight Regulations. While it is all right for a man from the Western or Central States to take live stock to Canada, the man living in the Eastern States is in a different position. Speaking generally, we are of the opinion that it is best not to take live stock from the Eastern States to Western Canada.

If you ship a carload, fill up your car to the weight limit, if possible. Many things about a farm, which will not bring much if offered for sale are valuable on a prairie farm, such as pieces of hardwood, lumber, chains, pieces of iron and steel, and parts of old implements and vehicles. Inquire as to whether all of your implements are suitable for Western farming.

If you ship less than a carload, the rates are so high that it does not pay to take bulky things of small value, but shipment should be confined to things of maximum value for minimum weight, such as bedding, dishes and things of value, which can be shipped in boxes or securely crated.

A carload shipment can be described as "One carload of emigrant's movables or settler's effects," giving car number, minimum weight, and value.

An automobile can be described by giving make, engine number, weight and value.

If a carload of household goods only is being shipped, use the phrase "one carload of household goods only," giving car number, weight, and value.

If a less than carload shipment is made, each piece must be crated or boxed, and marked with the name of owner and destination in Western Canada. Each piece must be described, giving weight and value, for example: "One box of bedding, 100 lbs., value, \$50.00; one barrel of dishes, weight 200 lbs.; one sewing machine, 100 lbs., value \$40.00." At the bottom of the list add the words, "All being household goods, emigrant's movables or settler's effects." In the bill of lading the gross weight is used. In the export declaration, the net weight is used. Allow for the weight of the box or crate, when filling in the export declarations.

Freight Rates on Settlers' Effects from Niagara Falls, Ont., or Bridgeburg, Ont.

Based on valuation of 10 cents per pound. Higher rates charged for a higher valuation (in case of loss or damage).

To	Carload Rate per 100 lbs. min. 24,000 lbs.	Cost Carload	Less Carload Rate per 100 lbs.
Winnipeg59 1-2 cts.	\$142.80	\$2.67
Regina71 1-2 cts.	171.60	3.51
Saskatoon73 cts.	175.20	3.85
Calgary90 1-2 cts.	217.20	4.59
Edmonton91 cts.	218.40	4.59

Add to these rates the rate from point of shipment in the United States to Buffalo, N. Y., or to Niagara Falls or Suspension Bridge, N. Y. For example, the rate from Harrisburg, Pa., to Niagara Falls, N. Y., on a carload of emigrant's movables released to 10c. per lb. in value in case of loss, is .89 1-2 cents per 100 lbs. on a minimum of 20,000 lbs., or \$179.00. Household goods only released to 10c. per lb., .89 1-2 cts. per 100 lbs. on a minimum of 12,000 lbs., or \$107.40. Less than carload rate for both classes, \$1.03 per 100 lbs. actual weight. Rates to Bridgeburg or Niagara Falls, Ont., .02 cts. per 100 lbs. additional.

For information about REDUCED RAILWAY RATES SEE OTHER SIDE.

WESTERN CANADA

Cheap Railroad Rates for Settlers

510

An intending settler from a country other than Canada wishing to take up farm land in Western Canada and wishing to secure the lowest transportation rates, should obtain a certificate from a Canadian Government Agent, purchase a ticket to the nearest point on the Canadian Pacific Railway, the Canadian National Railway, or the Grand Trunk Pacific Railway, and on arrival there present his certificate, in exchange for which he will receive for himself and any member of his family accompanying him, as enumerated on certificate, a ticket to his destination in Western Canada, at a very low rate, which rate may be learned from the Agent before starting.

Should the settler, after acquiring land, desire to return to his family, he will be accorded similar rate returning.

Information as to special reduced rates on settlers' effects in carloads or less than carloads will be given on application to the Canadian Government Agent, or any agent of the Canadian Pacific Railway, the Canadian National Railway, or the Grand Trunk Pacific Railway.

HOMESTEAD REGULATIONS

Any person who is the sole head of a family, or any male over 18 years old, may homestead a quarter-section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at the office of any Local Agent of Dominion Lands (not sub-agent), on certain conditions, by wife, father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

A habitable house is required in every case except when residence is performed in the vicinity in accordance with the regulations.

The area of cultivation required by regulations is subject to reduction in case of rough, scrubby or stony land after report is made by Homestead Inspector on application for patent. Live stock may be substituted for breaking and cropping where the required area cannot be brought under cultivation.

All lands in the provinces of Saskatchewan and Alberta south of the south boundary of township 16 are reserved from homestead entry, but any vacant lands in this area may be applied for under the grazing regulations.

A temporary reservation has also been placed upon all the remaining lands in the Calgary, Lethbridge, and Swift Current Land Districts, together with those portions of the Moose Jaw and Saskatoon districts lying west of the 3rd meridian, pending a general inspection of such lands.

Homestead entries may be secured in the ordinary way for any vacant and available lands in the following districts:—

Moose Jaw Land District north of the south boundary of township 16 and east of the 3rd meridian.

Saskatoon Land District east of the 3rd meridian.

The whole of the following land districts:—

Winnipeg, Dauphin, Prince Albert, Battleford, Edmonton, Peace River, and Grande Prairie.

LIVE STOCK AND SETTLERS' EFFECTS—DUTY FREE

A settler may bring into Canada, free of duty, live stock for the farm on the following basis, if he has actually owned such live stock abroad for at least six months before his removal to Canada, and has brought them into Canada within one year after his first arrival, viz:—

If horses only are brought in, 16 allowed.

If cattle " " 16 "

If sheep " " 160 "

If swine " " 160 "

If horses, cattle, sheep and swine are brought in together, or part of each, same proportions as above are to be observed.

Nov, 1922.

"L'OUEST CANADIEN"

TAUX RÉDUITS SUR LES CHEMINS DE FER POUR LES COLONS.

P201229

Un colon venant de tout autre pays que le Canada, et ayant l'intention de s'établir sur une terre dans l'Ouest Canadien, peut obtenir des taux réduits sur les chemins de fer. Il devra se procurer un certificat d'un des agents du gouvernement canadien, acheter un billet pour le point le plus rapproché sur le Pacifique-Canadien, le Canadian Northern, ou le Grand-Tronc-Pacifique, et à son arrivée il présentera son certificat, et recevra en échange pour lui ou tout autre membre de sa famille l'accompagnant, tel que mentionné dans le certificat, un billet jusqu'à destination dans l'Ouest Canadien, à un taux très bas, qu'il pourra connaître de l'agent avant de se mettre en route.

Si le colon, après avoir fait l'acquisition d'une terre, rentre dans sa famille, il pourra obtenir de semblables taux pour son retour.

On peut obtenir les renseignements concernant les taux spéciaux pour effets de colons par un wagon ou porté par le wagon d'un agent du gouvernement canadien ou des agents du Pacifique-Canadien, du Canadian-Northern ou du Grand-Tronc-Pacifique.

Animaux sur pied et effets de colons—Sans droits.

Un colon peut amener avec son franc de droits, au Canada des animaux pour la ferme d'après l'échelle suivante, s'il possédait réellement ces animaux à l'étranger pendant au moins six mois avant sa venue au Canada, et s'il les a amenés au Canada durant l'année qui a suivi sa première arrivée, à savoir:

Si des chevaux seulement sont importés; nombre alloué,	16
" bestiaux " " " 16	
" moutons " " " 160	
" cochons " " " 160	

Si des chevaux, des bestiaux, des moutons et des cochons sont importés ensemble ou un nombre de chaque espèce, les mêmes proportions données ci-haut devront être observées.

Des droits seront imposés sur les animaux sur pied dépassant le nombre stipulé.

La douane considère une jument avec un poulain âgé de moins de six mois comme un seul animal; une vache avec un veau de moins de six mois est considérée comme un seul animal.

WESTERN CANADA

Cheap Railroad Rates for Settlers.

An intending settler from a country other than Canada wishing to take up farm land in Western Canada and wishing to secure the lowest transportation rates, should obtain a certificate from a Canadian Government Agent, purchase a ticket to the nearest point on the Canadian Pacific Railway, the Canadian Northern Railway, or the Grand Trunk Pacific Railway, and on arrival there present his certificate, in exchange for which he will receive for himself and any member of his family accompanying him, as enumerated on certificate, a ticket to his destination in Western Canada, at a very low rate, which rate may be learned from the Agent before starting.

Should the settler, after acquiring land, desire to return to his family, he will be accorded similar rate returning.

Information as to special reduced rates on settlers' effects in carloads or less than carloads will be given on application to the Canadian Government Agent, or any agent of the Canadian Pacific Railway, the Canadian Northern Railway, or the Grand Trunk Pacific Railway.

HOMESTEAD REGULATIONS.

Any person who is the sole head of a family, or any male over 18 years old, may homestead a quarter-section of available Dominion lands in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Land Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, (not Sub-Agency) on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years, and erection of a habitable house. A homesteader who does not hold a pre-emption may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Price \$3 per acre. Duties—Must reside six months in each of six years from date of homestead entry (including the time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may take a purchased homestead in certain districts. Price \$3 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$300.

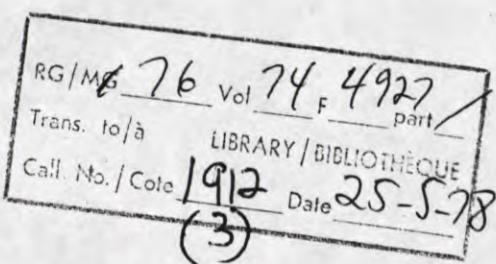

Application for patent should be made at the end of three years, before the local Agent or Sub-Agent.

N.B.—In addition to Free Grant Lands, to which the regulations above briefly stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroads and other corporations and private firms in Western Canada.

LIVE STOCK AND SETTLERS' EFFECTS—DUTY FREE.

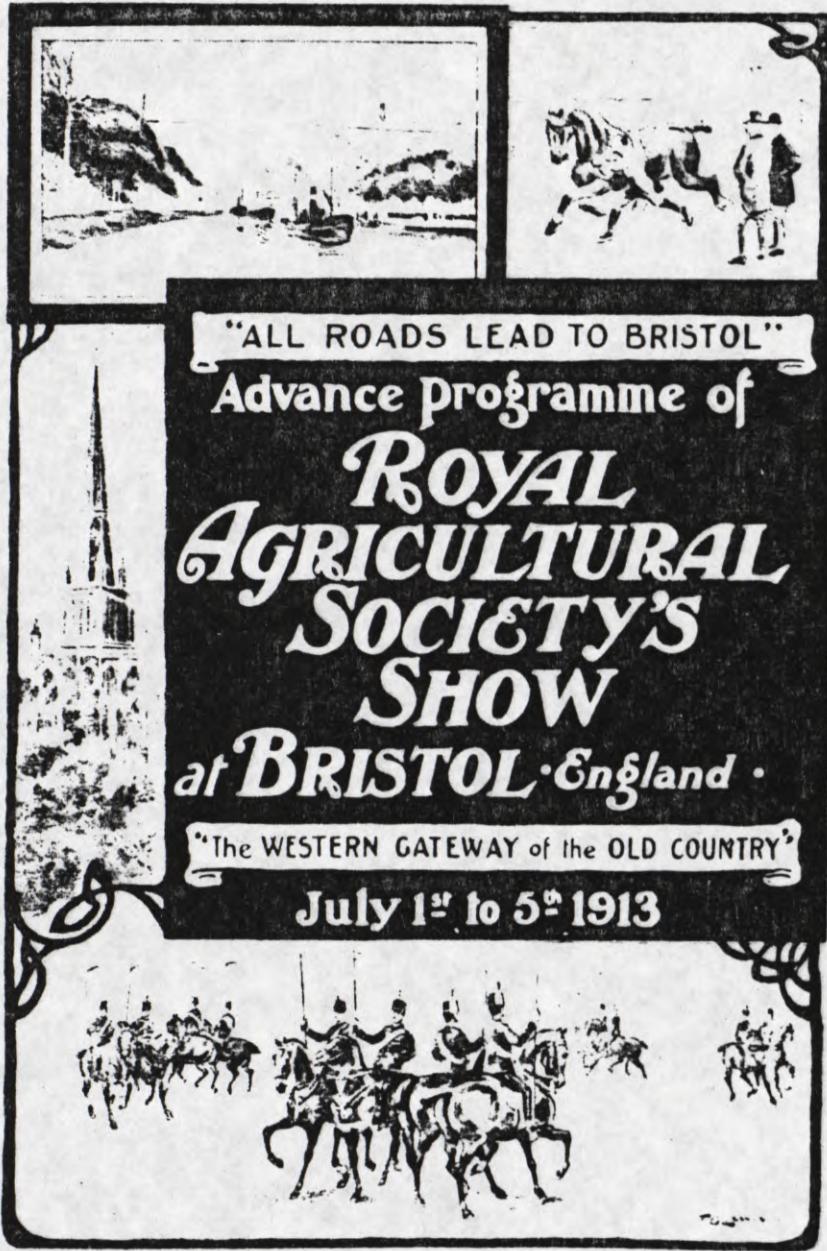

A settler may bring into Canada, free of duty, live stock for the farm on the following basis, if he has actually owned such live stock abroad for at least six

The Report of Two Minnesota Farmers.

We are farmers of Polk County, Minnesota, and having lived in this county a number of years, became dissatisfied with the small returns for our labor, and having heard of the natural advantages offered for mixed farming in Western Canada, through the Colonization Office of Munson & McCrea in Crookston, determined to visit that country for the purpose of finding homes for ourselves and friends if we found the Canadian Northwest as good as represented to be.

We left Crookston on the 20th of September, and went to Winnipeg which we found to be a fine city with wide paved streets, electric street railways and other modern improvements, and containing 33,000 inhabitants. Then through the courtesy of H. H. Smith, commissioner of Dominion lands and L. A. Hamilton, C. P. R. land commissioner, we got transportation over the Canadian Pacific Railway to Edmonton.

Starting west next morning we passed through Portage la Prairie, which was surrounded by a first-class wheat country, and before noon reached Brandon, a nice town situated on a fine elevation and containing a population of 5,000. The farmers at that point have made a success of wheat raising, although this year their crops are not as good as formerly. We visited the experimental farm located at this place and was shown over the grounds by the manager, Mr. Bedford. There the Canadian Government tests all kind of grains, grasses, fruits and shrubs for the benefit of the farmers. We thought it a fine institution and one that should give great satisfaction to the farming community.

Our next stop was at Calgary where we remained two days. That we found to be a substantial built town, situated on the Bow River in the center of a fine stock country. We then proceeded north as far as Olds. There we met several parties from Nebraska; they had settled there this year and some of them had driven their stock the whole distance. They were delighted with the country and thought there was a fine chance to make money raising stock, as beef was bringing a good price and hay and grass so plenty that it cost but very little to raise cattle. We then continued on as far as Wetaskewan, a small

town about forty miles south of Edmonton. From this point we went east some twenty-five miles, where we found the settlers had considerable crop which they had raised on land that had been broken this year. They had wheat that would yield 30 bushel to the acre, oats from 60 to 80 and barley from 40 to 60. Vegetables of all kinds were first-class. We also found there, 980 miles from Winnipeg, that wheat was worth about the same as at Crookston, beef worth from 3 to 4 cents per pound, butter 25 cents per pound, eggs 20 cents a dozen; in fact everything a farmer had to sell was a good price and brought the cash.

We examined the country thoroughly and found it as good in every respect as had been represented to us by the agents at Crookston. We then returned to Wetaskewan and conversed with many of the farmers. They claimed there was no danger of frost if grain was sown in good season; that stock of all kinds paid well, especially cattle and hogs, which could be raised very cheaply and always brought a good price. That taxes were very low, there being none except for school purposes and that the government paid from 60 to 75 per cent of a teacher's salary, and also that the government built all their roads and bridges. In fact we found in almost every instance that they were perfectly satisfied with the country and more than satisfied with the laws.

After due consideration we determined to take land for our friends and ourselves, and filed on nine quarter sections in township 45 range 21, west of 4th meridian.

Before starting back we went as far as Edmonton, a lively town on the Saskatchewan River. There we also found immense crops of grain and vegetables, they having had no frost to injure grain until the 21st of September.

We advise anyone that is not satisfied with this country to go and see western Canada, and you will be well repaid for your trouble and expense. And in conclusion we wish to tender our thanks to the Dominion and Railway officials who have assisted us in every way to procure desirable homes for ourselves and friends.

LUDWIG OLSON.

A Polk County Farmer Gives his Opinion of Western Canada.

509 509 509 509 509 509 509 509 509 509

CROOKSTON, MINN., Sept. 28th, 1893.

To the Commissioner of Dominion Lands,

Winnipeg, Manitoba.

SIR:—I have lived nine years in Polk County, Minnesota, and on account of poor crops, low prices, high rate of taxation and interest, have not made a success of farming, although I have done fully as well or better, than many of my neighbors; and having heard of the natural advantages offered for mixed farming in Western Canada, through the colonization office of Munson & McCrea in Crookston, I determined to inspect the Canadian Northwest, not only for myself, but for many of my fellow farmers as well, who are anxious to make a change, if they could be sure of bettering their condition by doing so.

Accordingly, I left Crookston on the 25th of August, arrived that afternoon in Winnipeg—a fine city of some 33,000 inhabitants, substantially built and with all modern improvements—and through the courtesy of yourself and L. A. Hamilton, C. P. R. Land Commissioner, was given transportation over the Canadian Pacific railway to Prince Albert.

After remaining in Winnipeg one day, I started west, passing through Portage la Prairie, Brandon and a number of other fine towns. The crops as far as I could see were first-class. In the afternoon I reached Indian Head, where I stopped over for a day. I found that a thriving little town, business good and money plenty, farmers in the best of spirits, claiming their wheat would turn out over thirty bushels to the acre, and to judge from the appearance of the crop I think they were quite correct in their estimate. Coarse grain and vegetables were enough to gladden the heart of any farmer.

Next afternoon I started west again and in a short time reached Regina. That I thought to be a nice town of some 5,000 inhabitants, surrounded by a good farming country, and to judge by the number of fine brick buildings in course of erection must be in a flourishing condition. Here I changed cars, and next morning reached Prince Albert, a lively town, beautifully situated in a fine valley on the north branch of the Saskatchewan River, with a population of 1200. That town contains a large number of mills, churches and schools, which speaks well for the public spirit of its inhabitants. After spending an hour or more

looking over the town, I met by chance a Mr. S. W. Vanluvan, an uncle of my own, who had lived nine years in that part of the Northwest. He invited me to go home with him, some 14 miles east of Prince Albert, which proposition I gladly accepted. I found my uncle was nicely situated near the South Saskatchewan, having 320 acres of land, a good mill capable of grinding a large quantity of wheat per day, a fine stock of horses, cattle, sheep and hogs, and best of all, out of debt, he having went to that country a few years since, comparatively a poor man. Mr. Vanluvan and myself spent a number of days examining the Birch Hill, Carrot River and Stony Creek countries, and found them all first-class for mixed farming. Soil good, plenty of hay and water, with an abundance of timber for building, fencing and fuel, crops of all kinds were as good as I have ever seen. Cattle very large and in fine condition. We also went to see a portion of country directly east of Prince Albert and east of the Saskatchewan River. There I found a beautiful country, fine soil, timber and other natural advantages, through which runs the Pevinan River into the Saskatchewan. That valley has no settlers and offers great inducements to parties wishing to start a colony, as the land is all ready for settlement and the choice locations remain to be taken.

Now in conclusion, I must say that I was delighted with the country. I have bought a half section of railroad land running down to the Saskatchewan. Shall settle up my business here as quickly as possible and intend to take my family and effects to that country in less than thirty days, and then I will take a homestead on the Pevinan River not far from Saskatchewan.

And to my neighbors and friends, who are wasting the best part of their lives here, I advise you to go and see that country, which nature has done much for, which this year will turn out from 25 to 30 bushels of wheat to the acre, where beef cattle are worth from 3 to 4 cents per pound, where your roads and bridges are all built for you, where you have no taxes but for school purposes, and where the government believes that the success of the nation depends on the prosperity of her farmers.

I have the honor to be,

Sir,

Your obedient servant.

WELLINGTON CAMPBELL.

"Der Nordwesten" has the Confidence of the Germans

523

1913

GERMANS FORM SOCIETY

Announcement Made of the Organization of a "German-Canadian Alliance."

The announcement was made at the German society banquet to celebrate Emperor William's birthday, held at the Royal Alexandra, last night, that the Germans in Canada form a society to be known as the German-Canadian Alliance.

Prominent Germans all over Western Canada have been quietly arranging the many details of this big undertaking.

The alliance is purely non-partisan in character, and its object is to enable the German speaking residents of Canada to express their opinions on all important issues which concern them.

Gotthard Maron has been chosen as president; Dr. Muschik as secretary, and J. Alfermann, as treasurer. The other officers will be announced later. "Der Nordwesten" was chosen as the official organ.

As there are thousands of Germans in Canada, the alliance will undoubtedly fill a long-felt want by uniting all the nationalities in Canada speaking the German language.—Telegram, Jan. 28.

UNION OF GERMANS

Movement is Under Way to Have Canadian Alliance.

The annual German banquet was held in the ball-room of the Royal Alexandra hotel last night. Hugo Carstens, German consul in Winnipeg, presided, and among the guests was N. de Jurystowski, consul of Austria-Hungary. During the dinner the Royal Alexandra orchestra, conducted by Stephan Albrecht, played selections from the works of the great German composers. Announcement was made at this banquet of the inauguration of a movement for the union of all Germans in Canada, under the name of the German-Canadian alliance. The alliance is to be non-partisan in character, its object being to enable the German-speaking residents of Canada to express their opinions on important issues in which they are concerned.

Gotthard Maron has been appointed president, Dr. Muschik secretary, and J. Alfermann treasurer. The German newspaper, "Der Nord-

German-Canadians Organize

German-Canadians have announced the formation of an alliance to be known as the German-Canadian Alliance. The announcement, which was first made at the celebration of the German society of Winnipeg in celebrating Emperor William's birthday, met with a hearty response. It will mean a consolidation of all Germans in Canada and prominent Germans all over the west are quietly arranging the details. "Der Nordwesten" was selected as the official newspaper of the new organization.—Tribune, Jan. 28.

GERMANS IN WEST HAVE ORGANIZED

German - Canadian Alliance is Launched at Banquet in Winnipeg.

The Executive: President, G. Maron, editor of Der Nordwesten; Vice-President, Dr. G. Umgelter, Langenburg, Sask.; Hon. Secretary, Dr. E. Muschik, Winnipeg.

The organization of the German-Canadian Alliance, the formation of which was forecast exclusively by the Daily Province in December last, took place in Winnipeg last evening when a large number of German-speaking citizens of the three prairie provinces attended the inaugural banquet.

It was the original intention of the promoters to inaugurate the alliance in this city, but it is understood that local differences prevented this and hence the decision to hold the first meeting in Winnipeg. In addition to electing the officials of the association Der Nordwesten was created the official organ of the alliance.

The organization has been created to consolidate the German-speaking citizens of Western Canada for the purpose of preserving the mother tongue and traditions of the fatherland, as well as to instil the principles of patriotism and loyalty to the land of their adoption. The alliance will be strictly non-partisan and will not seek to sway the political opinions of its adherents.

With the expected growth of the organization it is the intention later to form subsidiary branches in the other provinces.—

MEMORANDUM CONCERNING "RETURN-MEN."

In order to encourage the temporary return of successful settlers in Canada to their former homes in Europe, with a view to extending a knowledge of the resources of Canada and the advantages she has to offer intending emigrants, the Department of the Interior and the railway and steamship companies, some two or three years ago, combined to offer pecuniary assistance and free transportation to persons of the right class who should be found willing to act in the capacity of "Return-men."

The plan, however, has not as yet been found to work very satisfactorily. A large number of Return-men have availed themselves of the advantages it brought to them, but they apparently have not been successful in producing any compensating effect on the flow of immigration to Canada. The Department and the transportation companies have therefore felt the need this year of devising some new method of dealing with this matter, which would both place it on a more business-like footing and give greater assurance of results commensurate with the expense involved than did the old method.

Under the plan which accordingly has now been adopted, each Return-man will receive free transportation from his nearest railway station in Manitoba, the North-west Territories or British Columbia, to the seaboard, and a free first class ocean passage. The steamship company will make a charge of \$30 for his meals on board ship, but this will be defrayed unconditionally by the Department of the Interior. The Return-man will also receive from the Department, if required, for his incidental expenses, a cash advance not exceeding \$24, which, however, he will be required afterwards to repay out of commissions earned.

His return passage to Canada and the amount of the pecuniary compensation he will receive from the Department, will depend entirely on his own efforts in the cause of immigration.

The Department will be prepared to pay the Return-man a commission of \$8 for every eligible homesteader he induces to declare his or her intention of becoming a settler in Canada, in the form provided for that purpose, and to make a deposit of \$10 with the Department as an earnest of good faith.

The commission will be payable in each case, and will be remitted to the Return-man immediately on the receipt at the Department of the intending settler's declaration and deposit, and on his securing not less than ten (10) such declarations and deposits, the Return-man will be provided with absolutely free first class ocean and rail transportation (by any of the S.S. lines running to Halifax or Quebec, the Intercolonial and the C. P. R.) back to the railway station in Canada from whence he started.

Specimen copies of the form required to be filled up by the intending emigrant to Canada, and of the certificate which will be issued on receipt thereof by the Department of the Interior, are annexed hereto, and it will be noticed that on claiming a refund of his deposit, by virtue of his having carried out his declared intention of becoming a settler in Canada, the depositor will in each case receive a bonus addition of \$5. In other words, he will find awaiting him in Canada, in absolute security, a sum equal to something over £3 sterling, which will be immediately available for use, either in taking up Government land in the North-west or for any other purpose he may think proper, in return for his temporary deposit with the Government of £2.

The Return-man must bear in mind that he will be paid commissions only on *eligible homesteaders*, that is to say, persons who are eligible to make entry for free grant lands under the provisions of the Dominion Lands Act. A *spinster* is not so eligible, but any man, married or single, who is eighteen years of age or upwards, is eligible, and so is a widow who is the sole head of a family. But it is not made a condition either to the payment of the Return-man's commission or the \$5 bonus to the settler and the return of his deposit, that the latter should become a homesteader. Nor is the intending settler who makes a deposit required to proceed immediately to Canada. The Department will be satisfied, and will pay the money, if he becomes a resident of the Dominion in any permanent capacity within two years. But it is hoped and believed that the majority of such people, having once made up their minds to emigrate to Canada, will come out much sooner than this, and that a large proportion of them will find their way to the desirable free grant lands in Manitoba and the North-west.

Return-men will be expected to devote their energies mainly to this end.

MEMORANDUM CONCERNING "RETURN-MEN."

In order to encourage the temporary return of successful settlers in Canada to their former homes in Europe, with a view to extending a knowledge of the resources of Canada and the advantages she has to offer intending emigrants, the Department of the Interior and the railway and steamship companies, some two or three years ago, combined to offer pecuniary assistance and free transportation to persons of the right class who should be found willing to act in the capacity of "Return-men."

The plan, however, has not as yet been found to work very satisfactorily. A large number of Return-men have availed themselves of the advantages it brought to them, but they apparently have not been successful in producing any compensating effect on the flow of immigration to Canada. The Department and the transportation companies have therefore felt the need this year of devising some new method of dealing with this matter, which would both place it on a more business-like footing and give greater assurance of results commensurate with the expense involved than did the old method.

Under the plan which accordingly has now been adopted, each Return-man will receive free transportation from his nearest railway station in Manitoba, the North-west Territories or British Columbia, to the seaboard, and a free first class ocean passage. The steamship company will make a charge of \$80 for his meals on board ship, but this will be defrayed unconditionally by the Department of the Interior. The Return-man will also receive from the Department, if required, for his incidental expenses, a cash advance not exceeding \$24, which, however, he will be required afterwards to repay out of commissions earned.

His return passage to Canada and the amount of the pecuniary compensation he will receive from the Department, will depend entirely on his own efforts in the cause of immigration.

The Department will be prepared to pay the Return-man a commission of \$8 for every eligible homesteader he induces to declare his or her intention of becoming a settler in Canada, in the form provided for that purpose, and to make a deposit of \$10 with the Department as an earnest of good faith.

The commission will be payable in each case, and will be remitted to the Return-man immediately on the receipt at the Department of the intending settler's declaration and deposit, and on his securing not less than ten (10) such declarations and deposits, the Return-man will be provided with absolutely free first class ocean and rail transportation (by any of the S.S. lines running to Halifax or Quebec, the Intercolonial and the C. P. R.) back to the railway station in Canada from whence he started.

Specimen copies of the form required to be filled up by the intending emigrant to Canada, and of the certificate which will be issued on receipt thereof by the Department of the Interior, are annexed hereto, and it will be noticed that on claiming a refund of his deposit, by virtue of his having carried out his declared intention of becoming a settler in Canada, the depositor will in each case receive a bonus addition of \$5. In other words, he will find awaiting him in Canada, in absolute security, a sum equal to something over £3 sterling, which will be immediately available for use, either in taking up Government land in the North-west or for any other purpose he may think proper, in return for his temporary deposit with the Government of £2.

The Return-man must bear in mind that he will be paid commissions only on *eligible homesteaders*, that is to say, persons who are eligible to make entry for free grant lands under the provisions of the Dominion Lands Act. A *spinster* is not so eligible, but any man, married or single, who is eighteen years of age or upwards, is eligible, and so is a widow who is the sole head of a family. But it is not made a condition either to the payment of the Return-man's commission or the \$5 bonus to the settler and the return of his deposit, that the latter should become a homesteader. Nor is the intending settler who makes a deposit required to proceed immediately to Canada. The Department will be satisfied, and will pay the money, if he becomes a resident of the Dominion in any permanent capacity within two years. But it is hoped and believed that the majority of such people, having once made up their minds to emigrate to Canada, will come out much sooner than this, and that a large proportion of them will find their way to the desirable free grant lands in Manitoba and the North-west.

CANADIAN PACIFIC RAILWAY CO'S

..EXCURSION..

SASKATCHEWAN

—VALLEY!

Where is found good water, plenty of wood, abundance of coal, the most nutritious of grasses, a healthy climate, and the most fertile soil in the world.

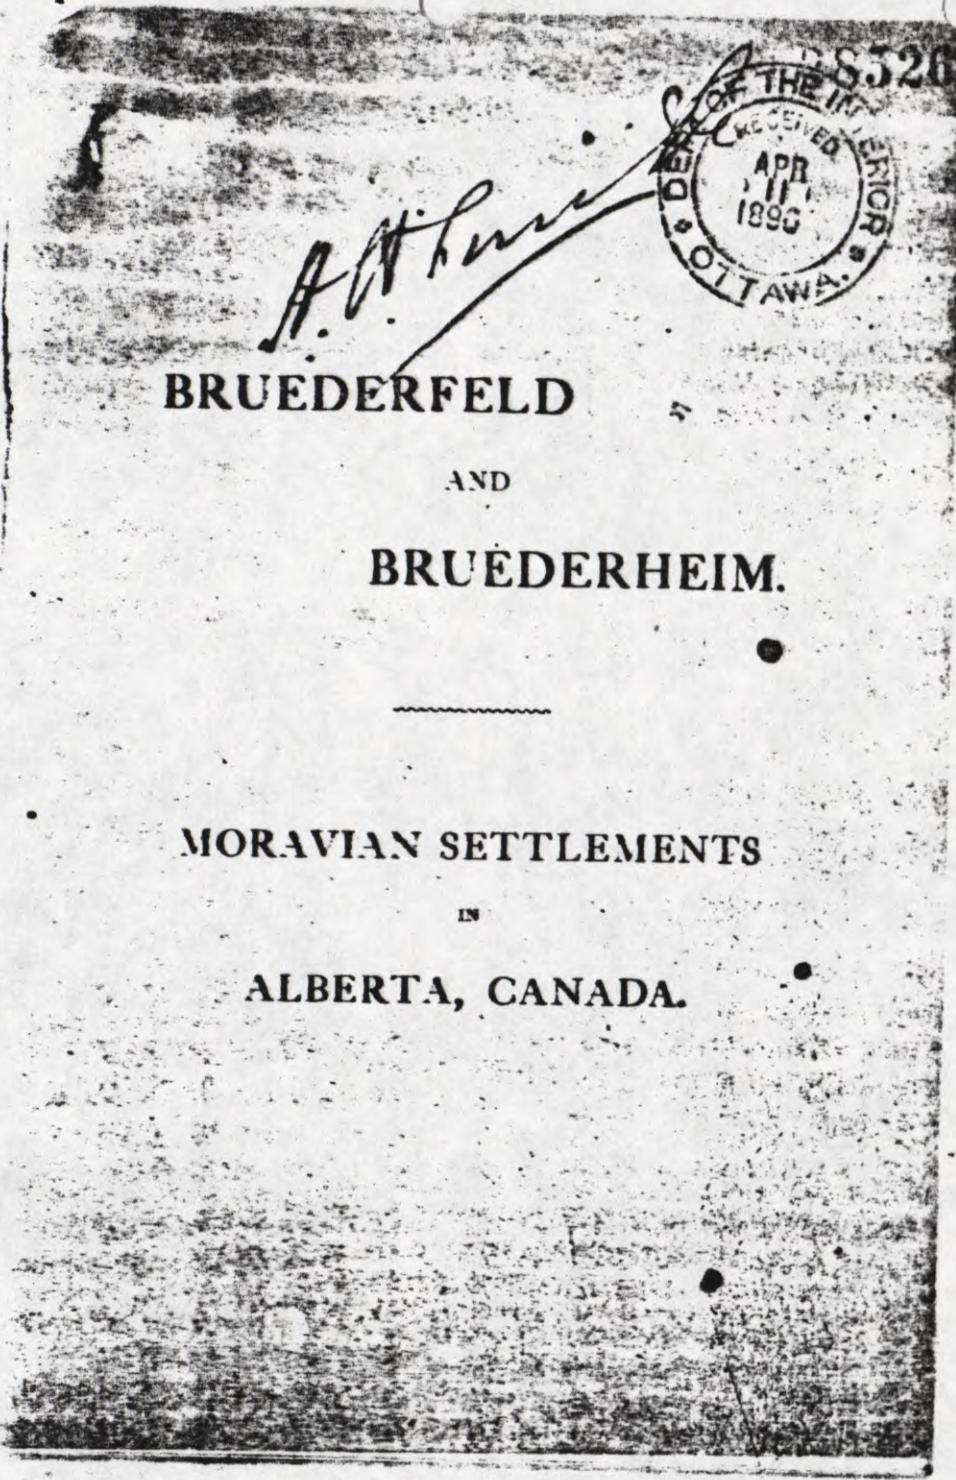

An excursion will leave Prescott, opposite Ogdensburg, N. Y., early in April, for the fertile belt of Western Canada. That part of the Great Saskatchewan Valley which lies next to the foot of the Rockies, should be examined most thoroughly by intending settlers.

The excursion rate will be \$40.00 for a return ticket to Edmonton, the most westerly railway station in the Saskatchewan Valley. Those who do not wish to return will be refunded the difference between the lowest single fare and the return ticket rate.

WINNIPEG, MANITOBA, TUESDAY, DECEMBER 17, 1895.

1895

A YEAR OF JUBILEE.
A FAVERED CHILD OF THE CENTURY.
THE STORY OF TWELVE MONTHS OF PROSPERITY.

The year of our Lord one thousand and eight hundred and ninety-five, so soon to slip like a grain of sand from the nerveless grasp of Time, so soon to be buried among the debris of a fast dying century, claims a loving regaleum and a monument of

ted all over with ant and mole hills — stacks and stocks. Then came the threshing machines, by one, by twos and threes, until there were hundreds of them clattering, rattling, puffing and shrieking, till the plains were startled and the air was dinned with their clamor, and their smoke rose skyward in dense black

was sometimes burdened with an "embarras de richesse" for in many sections, away from the established lines of railway, farmers had no means of disposing of their surplus and many thousands of bushels of fine wheat were fed to the live stock, unthreshed, or were allowed to rot for lack of transportation and storage facilities. The extension of the C. P. R. branches and the building of the Manitoba Northwestern and other lines remedied the evil and furnished ample outlets for the ever increasing crops.

The annual production of grain from 1883 to 1895, inclusive, was as follows:

WHEAT.

Year.	Yield.		Product.
	Area in Crop. Acres.	Per Acre. Bushels.	
1883	260,842	21.80	5,686,355
1884	307,020	20.11	6,174,182
1885	357,013	20.81	7,429,440
1886	384,441	15.33	5,803,480
1887	432,134	27.7	12,351,724
1888*			
1889	623,245	12.4	7,201,519
1890	746,058	19.65	14,665,769

which is included in the grand total for 1895, suggests another great possibility in the future of Manitoba. Flax has only been cultivated for a few years, it was first introduced by the Mennonites and their success with it induced a few of the other farmers to experiment on a small scale, the results being highly satisfactory. The quality of flax produced in Manitoba is excellent and its manufacture into oil and meal should become an important branch of industry. The manufacture of linen is also a proposition worthy of serious consideration. It is the opinion of experts that there is no country in the world better suited to the successful manufacture of linen than Manitoba, and there is no reason why the industry, once established, should not become extensive and profitable.

Potatoes were a good crop this year, the province producing 4,042,582 bushels averaging 243 bushels to the acre. Turnips and mangolds averaged 336 bushels to the acre, the ag-

not by any means define a limit to the productive qualities of the soil. The Canadian Northwest has established itself as one of, if not the greatest wheat producing countries of the world, but wheat production alone will not make up the country's fame. The wheat industry will have a rival, and a formidable one, in cattle raising and its attendant train of dairying operations, and while "Manitoba No. 1 Hard" will be a household word wherever wheaten bread is eaten, Nor' West beef, mutton, pork, cheese, butter and poultry will become equally famous and equally in demand the world over.

Enormous as has been the increase in grain production the business of cattle raising has kept pace if it has not actually outstripped it. In 1881, the total number of cattle in Manitoba and the Territories was 73,153, in 1891 they had increased to 463,425, and in 1895 the country exported 50,000 head. Fifty per cent of these were from the western ranches, and the balance from the farms

The business of horse raising is only in its infancy and as experience is gained and better methods are adopted the quality of our horses will be improved to suit the most exacting demands of the British and foreign markets. In 1881 the horses of Manitoba and the Territories numbered 27,000, in 1891 they had increased to 129,600.

CHEESE AND BUTTER.

The production of cheese and butter is assuming important proportions. The encouragement given to cheese and butter making by the federal and provincial governments by means of travelling dairies and the establishment of schools for dairying, where the most modern and improved methods of manufacture are taught, has aroused a universal interest in these important branches of domestic art. Manitoba has now 53 cheese factories and 19 creameries in operation and the quality of their output is beginning to be recognized and appreciated in the world's markets. The cheese factories of Manitoba produced over

NOVA SCOTIA.

Provincial Government Crop Report, November, 1895.

GOVERNMENT OF NOVA SCOTIA.

OFFICE OF AGRICULTURE,

Halifax, N. S., 16th November, 1895.

SIR,—

In the month of July a report on the condition of the crops throughout the Province was issued, which showed that up to that time the season was one of great promise.

I have now the honor to submit returns which bring results up to the close of the season.

In the majority of cases, the promise has been fairly fulfilled, and bountiful returns have rewarded the labors of the husbandman.

I have the honor to be, Sir,

Your most obedient servant,

JOHN MACALONEY,

THE HON. W. S. FIELDING,

Provincial Secretary.

Acting Secretary for Agriculture.

REPORT

OF

W. L. MACKENZIE KING, C.M.G. COMMISSIONER APPOINTED TO ENQUIRE

INTO THE METHODS BY WHICH

ORIENTAL LABOURERS HAVE BEEN INDUCED TO COME TO CANADA

TO HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

THE undersigned, having been appointed by a Royal Commission, dated the fifth day of November, 1907, to enquire into the methods by which Oriental labourers have been induced to come to Canada within the past year, has the honour to submit herewith a report containing the proceedings of the commission and the results of his investigation, together with the evidence taken before him and such opinions as he has deemed it desirable to express thereon, pursuant to the directions of the commission issued by Your Excellency in Council.

INTRODUCTORY.

Proceedings of Commission—Witnesses examined—Province of British Columbia and City of Vancouver represented by Counsel—Asiatic Exclusion League also represented—Searching nature of inquiry—Extent of evidence—Main divisions of report—Statistical table setting forth, by nationalities, extent of immigration of Orientals.

THE notification of my appointment as commissioner was received by wire at Vancouver on the fifth day of November, at which date I was engaged under Royal Commission in an enquiry into the losses and damages sustained by the Japanese population resident in Vancouver on the occasion of the anti-Asiatic riots during the month of September. The hearing of evidence in connection with that enquiry having been completed on the day of receipt of this notification.

**6TH ANNIVERSARY
EDITION**

VOL. VI., NO. 1,869.

Canada — WON BY
CANADIANS

...AT THE...

**THE GRAND
ARRAY
OF PRIZES**

World's Fair

ACH year, on the anniversary of the first issue of The Empire it has been our custom to specially devote the issue to bringing before the public some feature of the progress or development of Canada, as we have felt it appropriate that a paper which was established specially to promote the industries and uphold the integrity of the Dominion should thus mark the stepping stones in the country's progress. On the present occasion we believe we can do no greater service to the country than to bring prominently before the public Canada's achievements at the World's Fair, by presenting the grand array of awards won there by Canadians in competition with the world. The record given in the following pages is one of which every

awards, reaches something like 70,000, and of these Canadian exhibitors captured something like 1,912, with a considerable number yet to be officially announced.

Probably the largest and most costly exhibit at the Fair was that made by Germany. The Imperial Gazette, of Berlin, lately published two entire pages, giving the names of 1,946 German exhibitors who had carried off awards and diplomas at the World's Fair. This list may or may not be complete, but the chances are that it is quite as complete as that here published for Canada. The population of Germany is about 41,265,437, so that taking the number of awards officially given in The Imperial Gazette as won by German exhibitors, only one in every 20,000 of the population of that country obtained an award. The population of Canada is about 4,089,363, and, taking the number of awards already of-

the world. The vast concourse of visitors from every state in the American union were astonished at the excellence of what Canada had to show in every department. Foreign exhibitors and the representatives of foreign Governments eagerly sought information regarding the commercial resources and the advantages Canada offered to intending settlers in the great North-west. Several foreign commissioners, sent by their respective Governments, travelled through Canada to obtain information regarding the resources of the country for the purpose of reporting the results of their investigations to their Governments.

Such an awakening of a general interest in Canada cannot fail to attract immigration to the fertile acres of the North-west from the older European countries, while the splendid exhibits, illustrating the resources of the mines, forests and fields, have already begun to attract the attention of English and United States capitalists to Canada as a field for the profitable investment of capital. It is true that the exhibit which Canada made at the World's Fair has cost considerable money, but what was done was well done, and the future—it may be the very near future—will show that the investment was a good one, and that the country will reap a wonderful harvest from the seed sown at Jackson Park during the past summer.

AGRICULTURE.

The Canadian exhibits in the important

In the competition in June the judges agreed to recommend that all exhibits of cheese which received a score of 90 points and over should be awarded a medal and diploma.

The following are the names of the successful exhibitors, with the points scored by all of the exhibits of June, which are entitled to medals:

DR. BARNARDO'S HOMES.

MANAGING DIRECTOR:
T. J. BARNARDO, ESQ., F.R.O.B.E.
18 TO 26 STEPNEY CAUSEWAY,
LONDON, ENGLAND.

MANITOBA BRANCH.

MANITOBA FARM:
RUSSELL.
E. A. STRUTHERS, MANAGER.

The following particulars are furnished for the information of parties desiring to obtain Boys from the Home:—

1. The inmates range in age from eleven to twenty, and are sent out on conditions varying according to their age and capability and the amount of work required.
2. A month's trial is usually allowed at the commencement of the engagement, and upon the result of this the terms are generally based.
3. Reliable parties may obtain lads who have come out direct from the London Institutions or they may have their choice from numbers of boys and young men who have had one year's experience at the Industrial Farm and in some cases have become proficient in the methods of agriculture as followed by experienced farmers in this country.
4. In some cases an engagement is made until the boy reaches the age of eighteen, under which the employer furnishes board, lodging, clothing and necessaries, and pays to the boy on his reaching his eighteenth birthday, a cash sum, the amount of which is determined after the month's trial.
5. In other cases the engagement is for three years, the boy receiving, in addition to board, lodging and washing, a moderate wage, out of which necessary clothing is provided.
6. In the case of boys over eighteen, the engagement is for one year, but an agreement for a longer period, concluded on reasonable terms between the employer and the boy, will be gladly sanctioned by the Manager of the Home.
7. Attendance at school during the winter months is desired in the case of younger boys.
8. An employer wishing to return a boy to the Home, or to transfer him to another person, before the expiration of the engagement, is required to give a month's notice of the same in writing to the Manager.
9. The Manager reserves to himself the right of summarily removing any boy with whose treatment he is not satisfied.
10. To avoid the possibility of misunderstanding, the terms of the engagement, when concluded between the Manager of the Home and the employer, are embodied in a simple form of Agreement, which employers are expected to sign, and of which a copy is furnished.
11. Applications should be made on the accompanying form, and after being duly certified by a Minister or Magistrate, forwarded to the Manager at the earliest possible date. No application can be entertained that is not accompanied by such certificate.
12. The amount of railway fare from Russell to the applicant's nearest station must be advanced by the applicant.

E. A. Struthers
Manager.

(565)

"It will be an ill day when we are so engaged in seeking lost sheep that we forget the lambs."

December, 1893.

To the Friends of Christ's Work among the "Waifs and Strays" of our Streets.

Revd. and Dear Sir,

The misery and wretchedness confronting us this Winter in East, Central and South London are more intense and widespread than I have ever hitherto known during the past 28 years of incessant toil. The Country continues to pour its poorest folk into the Towns. An immense proportion of these new-comers fall into rank among the already homeless, workless and destitute, with the result that the concentrated misery of the congested city districts may be imagined, but cannot be adequately described. It is here, therefore, that Christian compassion and missionary zeal find their truest sphere, and, among the unhappy, joyless Children of the Slums, their most hopeful subjects.

For whatever may be the general opinion as to the practicability of raising the adult masses from the slough into which they have fallen, there can be, I imagine, little dispute as to the economy and the wisdom, to say nothing of the humanity and the Christianity, of snatching the Waif and Stray Children from ruin, and of giving them, in new surroundings, opportunities for a better life.

It is in this work that the Homes under my care have been engaged for more than a quarter of a century. One result of their labours is that over

EMIGRATIONEN

INDVANDRING og COLONISATION

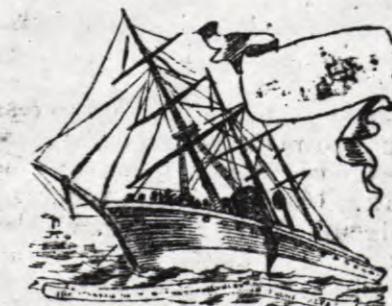

Dagens brændende spørsmål, særlig vesten for de store Søer, er angaaende Indvandringen til den canadiske Nordvest og den Maade, paa hvilken man hurtigst kan få Landet befolket. For at frembringe en Nation maa der findes en Befolknin, og en Nations Styrke beror for en stor Del paa dens numeriske Antal. Et Faktum er, at uagtet vore Territorier nemvise ukørte Fordele, og tilbyde Nybyggeren gode Udsigter, tiltrekke det dog ikke den Opmærksomhed fra e ropeisk Side som de burde, Strømmen af Emigranter er derfor hidtil gaaet til andre Lande, der langtfra ere saa begunstigede af Naturen som Canada. Aarsagen

VERDENSUDSTILLINGEN I CHICAGO.

Fra vor specielle Korrespondent.

Siden jeg sidst skrev til Dem, har den hvide By oplevet tre betydningsfulde Ting. De spanske Karaveller ankom under Kanonsalut og behørig Enthusiasme, faa Dage efter styrede Vikingsnekken ind i Chicagos Havn, og for det tredie har Udstillingen været hjemmøgt af den første store Ulykke, idet Afkølingsbygningen gik op i Flammer og flere Menneskeliv omkom i Luerne.

At Caravellerne vakte Opsigt er kun rimeligt. Amerikanerne havde jo fra i "la Rabida" paa Udstillingen anbragte Columbusrelikvier faaet et lille Begreb om hvordan Alt "saa ud" den-

dringer.

Ved Modtagelsen af Emigranterne i Quebec staar i første Ræk Hr. Alfred Akerlindh, en Mand, væg fordelagtigt kendt over hele Dominion, som een af Emigrationssagens Pionerer. Hr. Akerlindh er som skabt til at hjælpe Landsmændene tilrette, og det er næsten utroligt hvormeget han i en kort Tid kan udrette i denne Røring. Hans udmaerkede Sprogkundskaber komme ham meget til Hjælp, og gör, at han aldrig er som man siger "stuk".

Vor Landsmand, Hr. August Holm, den canadiske Pacificbæns Emigrationsagent har fuldt oppe gøre i sit Kontor, og er ikke alene behælpsom Mand, men besidder ogsaa en høj Grad af Forretningsdygtighed forbunden med meget udviklede Sprogkundskaber. Hr. Holm er meget agtet blandt Skandinaverne, og har bidraget meget til at vor Pacificbane staar i saa stort Ry overalt i Scandinavien.

Det turde her være paas in Plads at omtale, at den canadiske Pacificbane udstyrer specielle Sovayogte for Emi-

Fra Michigan i de Forenede Stater berettes, at af 90,000 Jord ejendomme ere 39 p. Ct. pantsatte, og Gælden repræsenterer circa 46 p. Ct. af Ejendommenes Værdi.

Det er en vigtig Kendsgørling, at man har udfundet, at Værdien af alle Landejendommene i Staten var i 1893 15,000 Dollars mindre end i Aaret 1888.

LIDT OM FORHOLDENE I DE FORENEDE STATER.

Fra COUNCIL BLUFFS i Staten Iowa skrives om Tilstandene i Colorado med Hensyn til den store Arbejdsløshed der hersker: Union Pacificbanen og Rock Islandbanen have saa at sige givet sine Folk Ordre til at befordre Folk derfra og til Steder, hvor der er en Mulighed for at faa Arbejde, og store Masser drage Fordel af denne Velvilje.

Sultne og pjaltede drage Tusinder af sted, og Ord kan ikke beskrive Elendigheden som herskar i denne Stat

DANMARK.

Vort Land, vort Land, vort Fædreland !
En fattig Plet paa Jord.

Dog ! Foden faas fra Mark og Strand.
I Muld, i Klæg, i Ler og Sand,
Paa Eng, i Skov, ved Bæk og Fjord
Forglemmigejen gror.

Vort Maal, vort Maal, vort Moder smaal,
Det har saa mild en Klang.
Saa glat, saa smidigt som en Aal,
Saa skarpt, saa sejgt som Sværdets Staal,
Dog tolker det hver Tankes Trang
I Tale og i Sang.

Vort Flag, vort gamle røde Flag,
Det faldt fra Himlen ned ;
Det vajer over Hvermands Tag,
og vi vil endnu slaa et Slag,
Om nogen pönser paa Fortraad.
Se ! det var den Besked !

Vort Folk har døjet Ulvs-Saar,
Og Søndagsdragt det bør ;
Men Danmark stod i Tusind Aar,

faaet den Dag i Dag. Thi det er desværre Hundrede af Fod i Vejret kan man se dem kun en mindre Dø, der anser Kirke og hængende ud over vore Hoveder, tilsyneladende ganske løse. Togets Rysten for dette, ere ikke i Stand til at taale store Opofrelser. Nu er Guds Ord forknydt her i 18 Aar frit for alle og enhver, ligesom samtlige Børn ere underviste frit i Religion. 245 Børn ere blevnedøbte, 240 unge Mennesker forberedte til Konfirmationen, Altergang hver Maaned for alle. 45 Par have modtaget den kirkelige Vielse, og 61 den kristelige Begravelse, foruden en Maengde Husbesøg og Guds Ords Tröst til Syge og Döende, altsammen i det danske Sprog. Enhver har Lov til at döfome om dette Skridt, som han vil, men min Dom, grundet paa 18 Aars Erfaring, er, at det var en stor Velgerning mod vor Koloni.

Udsigterne for den danske Koloni i Ny Brunsvig for Fremtiden ere gode. De fleste ere komne over Bakken eller ere ved at komme over den. De have faaet de nødvendige Bygninger, Heste og Avlsredskaber, og der kan vel vorfor være Tanke om, at de kunne legge op en lille Nødskilling. Hvad der har hjulpet os meget i det sidste Par Aar er en Saugølle, som køber Lumber, og giver Farmerne Anledning til god Vinterfortjeneste, da de fleste har noget af den Slags at undvære.

Hundrede af Fod i Vejret kan man se dem Hunreder af Fod i Vejret kan man se dem Praest for en Nödverdighed, og de, som gör dette, ere ikke i Stand til at taale store Opofrelser. Nu er Guds Ord forknydt her i nu og da kan man høre Hjulene mase Smaasten og smaa Skifferstumper slaa imod Kupéruderne. Nær herved er et Skifferverk, der ikke bearbejdes nu. Bergtoppene her ere beklædte med Sne. Dag efter Dag kan man se Soleu skinne paa de sneklædte Bergtoppe, men Skyerne deroppe forhindrer Solstrænderne fra at udøve den formildende Kraft, som de give os nede i Dalene. Klimaet her er godt, om end lovlig varmt om Dagen og temmelig koldt om Natten.

Mange passere her, Eventyrere og Turister, Dagdrivere, Sjovere og Kapitalister, Folk af alle Nationer og af alle Egenskaber ; men kun faa finde her noget blivende Sted. Her findes en Forsøgsstation for Mineralier, der har ophört sin Virkomhed.

Der findes adskilige Miner her omkring eller et Par Hhndrede Mile herfra. Her er Guld-, Sølv- og Knlminer. De bearbejdes, om end ikke efter nogen stor Maalestok. Ting, man skal köbe her, ere genemgaaende dyre, og Arbejdslønnen staar ikke i Forhold dertil. For Kosten betales 5 Doll. pr. Uge. Til B. C. Government betales 3 Doll. Skat ur. Aar for at faa Lov

The 25th Anniversary of the Founding of "The Danebrog," March, 1918.

The Prime Minister of Canada.

My dear Mr. Meyer:

I am very interested to learn that "The Danebrog" has attained its twenty-fifth anniversary, and I send my warm congratulations. Canada has been happy to extend a hearty welcome to the Danes who have come to make their home in the Dominion, and they have proven themselves to be a valuable acquisition to our population.

With best wishes for the continued success of "The Danebrog."

Yours faithfully,
R. L. Borden.

Hon. Sir Hugh John Macdonald,
Winnipeg, Man.

My dear Mr. Meyer:

I hear that the 25th anniversary of The Danebrog is to be celebrated this month and I write to congratulate you most heartily on the success that this journal, which you have edited so long and so ably, has met with and on the unique position which it occupies amongst papers published in foreign languages in Canada, for, if I am not mistaken, it is still the only Danish paper in the Dominion; whereas most European countries have several organs published in their respective languages.

My connection with you which has extended over very many years,

has been always most pleasant and satisfactory and I am more than pleased to be able to send you and "The Danebrog" my most hearty congratulations.

Yours faithfully,
Hugh J. Macdonald.

The Right Hon. Sir Wilfrid Laurier.

Dear Mr. Meyer:

Please accept my sincere congratulations upon "The Danebrog's" twenty-fifth anniversary and my best wishes in your good work.

Yours faithfully,
Wilfrid Laurier.

Dr. Steele, M.P., Tavistock, Ont.

Dear Mr. Meyer:

The celebration of the twenty-fifth anniversary of the founding of The Danebrog is an event which entitles you to congratulation. The Danish people in Canada are fortunate in having such a publication, meriting and receiving their support.

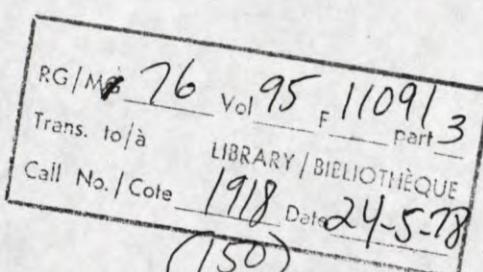

Canada offers wonderful opportunities to the people of Denmark who choose to make this country their home. The splendid success of those who have already become citizens of this country is an evidence that here they find those conditions, of country and of people, that suit them.

The climate, healthy and invigorating, the freedom, the observance of law, the educational facilities and the business opportunities, all appeal to such a people as Denmark produces.

I hope The Danebrog may have many prosperous years under your efficient management.

With kind regards and best wishes,

Yours sincerely,
M. Steele.

IN THE PUBLIC EYE.

(Evening Journal, Aug. 9, 1913.)

Today Mr. C. C. Meyer celebrates the twentieth anniversary of his appointment as the Consul of Denmark to Canada. Somehow the term, "Danish Consul," sounds rather out of place, even alien, if that can be permitted. He has lived in Ottawa now for 27 years, during which time he has "lived, moved and had his being," heart and soul, in Canada, that to speak of him in his official capacity has a different ring. The truth is that Ottawa likes the Danish Consul and Mr. Meyer likes Ottawa.

And yet there never was a more loyal Dane to the dear homeland. In many ways has Mr. Meyer shown this. His fellow-countrymen all over the Dominion, many of whom he has helped in the new land, know his worth and bless the name of Meyer; the Dominion appreciates his efforts in bringing to this country the best stock of citizenship, and Denmark must feel grateful to him for his seeing to it that her sons and daughters were properly transplanted in a land of opportunity.

Look you in our prisons and charitable homes and there is a great paucity of Danes. These people are workers, citizens of the first rank and home-builders. Ottawa has 800 of them, most of them own the houses they live in and can salt down a good part of the pay envelope.

Mr. Meyer was born in Jutland in 1864, coming to Canada in 1885. It was not long before he made and founded the first Danish Society in 1888, one of its officers being the late Sir John A. Macdonald. In 1893 he established "The Danebrog," the only Danish newspaper in Canada. It will be interesting to know that for the first six months of its existence this paper was published in the present building of The Ottawa Journal.

He can look back over 20 years of faithful effort—and the retrospection must be pleasant.

C. C. Meyer has made as big a "hit" in Ottawa as ex-Ambassador Bryce did in Washington, and there you are.

Extract from The Ottawa Free Press, October 29th, 1912.

CONGRATULATIONS TO CONSUL OF DENMARK

Mr. C. C. Meyer is Today 48 Years of Age, Most of Which Has Been Spent Here.

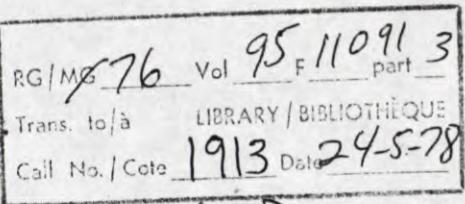

Today, October 29th, is the forty-eighth birthday of a well-known and well respected citizen of Ottawa, Mr. C. C. Meyer, the Consul of Denmark to Canada, and Mr. Meyer's many friends in the city are busy extending their congratulations. In fact, Mr. Meyer, although a young man, is almost a native of this city, seeing he has a record of 27 years' continuous residence in the Canadian Capital.

Mr. Meyer was born in Jutland, in 1864, and came to Canada in 1885. He founded the first Danish Society in Canada in 1888. One of the officers of this society was Sir John A. Macdonald, former Prime Minister.

Mr. Meyer established The Danebrog, the only Danish newspaper in Canada, in 1893, and it was his efforts that brought that paper to the success it has reached.

On August 9th, 1893, he was appointed Consul for Denmark, and two years later a J. P. for Ontario. He became a British subject and Canadian citizen as soon after his arrival here as time permitted, and has always advocated through his public speeches, his newspaper, and in other ways, that his people should become firm Canadians at the earliest opportunity. In this way he has accomplished much good work for Canada, in the guiding of the many hundred Danish settlers that annually reach the shores of this country.

Mr. Meyer is well known and well liked in Ottawa, where he has a large number of friends among the public men of Canada.

XII.

I Fortsættelse af forrige Uges Om tale af Fordelne, som tilbyder sig i Saskatchewan, skulle vi nævne, at denne Provinss forneimste Industri er Kornavl. Det kan saaledes konstateres, at få Steder i Verden er mere passende til Kornavl end Saskatchewan. Og gennem dets uhyre Afgrøder af de højeste Grader af Hvede, Havre, Byg, Hør og Rug har Provinss med Inspektion. Vejretugen samt Kommission er ca. en cent pr. bushel.

(Fortsættes).

denne Slags Landbrug ikke gerue følges ekslusivt. Størst Held faar man ved at drive blandet Landbrug — Korn- og Kreaturavl. Racedyr aubetales selvstændig.

Provinss har udmarkede Ma-ked-r. Regeringen og dens Inspektører iuddeler Kornet i forskellige Grader. På næsten alle Jernbanestationer findes der Korn-Elevatører, som klare Exporten. Alle Kornhandlere i det vestlige Canada maa løse Bemilting og stille Kautions. Elevatorens betale kontant for Kornet eller holdt det på Ordre. Vil Landmanden hellere selv sælge sit Korn, har hver Station let tilgængelige Ladepladser.

Inspektion, Vejrtugen samt Kommission er ca. en cent pr. bushel. Kommoden kostet nu kun 2 600 Kr., saade Carl Petersen.

— De talelytne Københavnere har i denne Tid en hel Del at fortælle om den engang forgudede Jøde, Gluckstadt, hans kostbare Samlinger og deres eventuelle Værdi for Landmandsbanken. En lille Anecdote, der har den Fordel at være sandhædig, opfordrer til at vise noget Mådehold ved denne Vurdering.

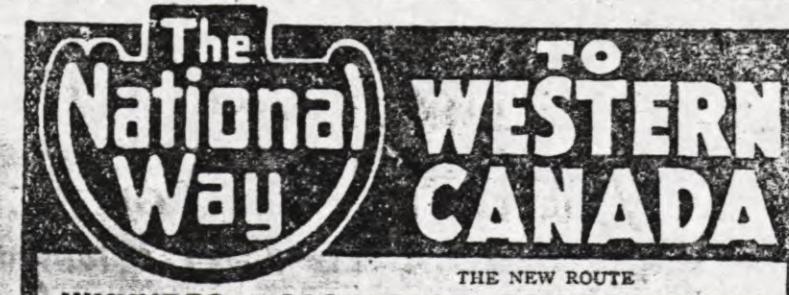

Gluckstadt kom en Dag ind til en Antikvar Carl Petersen i Kronprinsensgade, og saa på en pragthuldt mansk Kommode, hvad kostet den, spurgte han.

20 000 Kr.

Godt — send den hjem til mig.

Gluckstadt gik. Carl Petersen vendte sig sam mod en Knude der havde hørt Samtalen.

Kommoden kostet nu kun 2 600 Kr., saade Carl Petersen.

danske Landmænd.

XI.

De foregående Artikler har handlet om Manitoba. I dette Nr. begynde vi en Beretning om Provinserne Saskatchewan, som i mange Henseender har meget tilfælles med Manitoba, da de to Provinser ligger Side om Side. Der er dog visse Ting om Saskatchewan, som bør vides og kendes af Nybyggere.

Saskatchewan var i sin Tid en Del af det store Territorium, der ejedes af Hudson Bay Co i Følge et Dekret udstedt af Charles II i 1670. Senere blev det overtaget af den canadiske

maa der endnu baade Energi og Tsalmodighed til om Hold skal følge Arbejdet. Kornavl alene gør i Længden Jorden fattig. Korn-Elevatorerne er i Marken, hvor Landmanden kun kan kontanter for sine Varer strax. De gode Resultater som en fin Høst altid giver, virker hen til at man uvilkaarligt vil sætte alt ind på eksklusiv Kornavl, men den Nybygger, der tjener Samfundet bedst, er den, der ikke stadig benytter sig af Jordens Rør-kraft uden at yde noget igen. Den fortunige Nybygger forsøger så vidt muligt at drive blandet Agerbrug.

XII.

I de forløbne Åar er store Landstrækninger i Saskatchewan skenkede til Nybyggere frit, med Undtagelse af visse Hjemstedsfærtigelser. Der findes endnu frie Hjemsteder men vi skylder at meddele, at disse for det meste ligge langt fra Jernbane. For Nybyggeren, der agter at drive Kreaturavl, har dette mindre at eige, men for dem, der særlig vil lægge Vind paa Koruavl, stiller det sig jo anderledes. De sidste gør bedst i at købe deres Land, og

CANADA som Virkefelt for danske Landmænd.

VII.

Mulighederne for Kornavl og Mejeribrug i Manitoba omtaltes i det foregaaende Meddelelse. De to Brancher er de vigtigste, kan der med Held drives Høvbrug, et Felt, som Kolonisten ikke bør undlade at forsøge sig paa, da der ved et saadant kan spares paa mange Omraader. Havesager og Rødfrugter, saa som Kartofler, Kaal, Hvidkaal, Blomkaal, Rødbeder, Kaalrabi, Gulrøder, Lög, Pastinakker, Neleri, Bønner, Ærter, etc, gro med Lethed og uden synderligt

Opdyrkning i mange Aar, behøver ikke kunstig Gødning. Men en erfaren Landmand ved dog, at lige meget hvor ilig Jordbunden er fra Naturens Haand, kan Gødning dog ikke undværes i Loengden. Derfor staar man sig bedst ved et saa stort Kreaturholt som muligt. Blandet Agerbrug er derfor mere populært i det vestlige Canada, da nogle flere Heste, Kør, Faar og Svin forhøje den aarlige Indtægt samt afgiver Gødning til Jorden. Man ved nu bestemt, at eksklusiv Kornavl næsætter Frugtharbeden af Jorden, medens Kreaturavl forhøjer den. En Kombination af begge anses fra autentisk Side som den bedste Metode for Landbrug i Manitoba og i hele Canada.

Mejerivæsnet er af en saadan Natur og har gjort saa enorme Fremskridt i de senere Aar, at det er blevet en af Provinvens vigtigste Industrigrønne. For et heldigt Mejeribrug besidder denne Provinser ogsaa de fleste Muligheder, saavel med Hensyn til Jordens Frugtbarthed, som til de klimatiske Forhold. Ren Luft, kølige Nætter i den varme Sommertid og Regnmængden er tilstrækkelig til at frembringe en frodig Væxt af de forskellige Kornsorter og de mange forekommende Grøs-

besøge hver enkelt Landmand fra Danmark, som har optaget Land i Canada, vilde man ganske sikkert finde, at den langt overvejende Del af disse sidde i gode Kaar og er vel tilfredse med deres adopterede Fædreland.

Høhøsten paabegyndes i July paa Nybyggerens eget Land og paa noptaget Land i Nærheden. Sædhøsten begynder i August. Naboer hjælpe sædvanligvis hverandre med Høsten i de første Aar. Der gøres Akkord med Ejeren af en Tørskemaskine for en bestemt Sum pr. bushel. Kornet kan bringes til nærmeste Jernbanestation og sælges på aabent Marked eller sendes til de store Kornmagasiner.

Jordbundens Beskoffenhed i det vestlige Canada er allerede beskrevet, i Manitoba findes der mest kraftig sort Muldjord paa Leibund. Landet i Manitoba, Saskatchewan og Alberta er opmaalt i Sektioner paa en Kvadratmile Størrelse. 640 Acres udgør en Sektion, som altså kan inddeltes i en Kvart Sektion, en halv eller mindre. En halv Sektion menes at være passende. Kolonisten begynder med Rydning og Pløjning. Ploven drives med Oxer, Heste eller Maskineri. Efter Harvning

er at holde en Del Melkekøer og sende Floden til nærmeste Mejeri. Floden betales kontant, og da Mejerismør bringer den allerhøjeste Pris, er dette den bedste Maade at selge Floden paa. Landmændene i Manitoba ejer over tre Kvart Million Kør. Tal, der stadigt vokser. Studie fra Manitoba har taget første Præmie paa de største Dyrekuer i Amerika. De slagtede og solgte Kreaturer repræsentere Værdi af tolv Millioner Dollars om Året.

Svineavlens i Manitoba er meget heldig. Som Foder benyttes delvis skummet Mælk og beskadiget Korn. Yorkshire og Berkshire Racen synes mest populær. Manitoba frembringer årligt 200,000 Svin, og de store Slagterier afgive et godt Marked.

Faareavlens drives ikke...

LA COLONISATION

618

NOTES ET RENSEIGNEMENTS SUR LE CANADA.

SERIE A.

AVIS.

La Colonisation, est publiée sous les auspices et avec la collaboration d'un groupe d'amis de la colonisation au Canada et a pour mission, de faire mieux connaître notre pays à l'étranger.

Nous nous ferons un plaisir d'expédier à titre gratuit, les numéros de *La Colonisation*, parus et à paraître, à toute personne qui nous en fera la demande. S'adresser à :

P. BOSQUET,
Gérant de *La Colonisation*,
Sherbrooke, P. Q., Canada.

LE SERVICE RAPIDE

Le gouvernement fédéral a définitivement annoncé qu'il demandera des soumissions pour l'établissement d'un service de navigation océanique rapide entre le Canada et l'Angleterre.

Le gouvernement canadien accorde une subvention de \$750,000 par année, le gouvernement anglais de \$350,000.

La compagnie qui obtiendra ces subventions de plus d'un million de dollars, par année, soit \$1,100,000, aura quatre navires à construire, du modèle du "Teusonic" de la ligne White Star. Ces

SHERBROOKE, 15 MARS 1896.

No. 63

la langue huronne, le second, l'idiome algonquin. Brûlé passa presque toute sa vie au milieu des Hurons, qui l'adoptèrent comme un des leurs. Marsolet eut pour compagnons les Algonquins du haut de l'Outaouais. Il sut s'attacher cette nation puissante et habile à chasser les bêtes à la riche fourrure.

Les historiens du Canada mentionnent la présence en ce pays de plusieurs autres interprètes, dont les uns furent souches, et les autres prirent tour à tour le chemin de la France. Trois arrivèrent en 1618 : ce furent Nicolas du Vignau, Jacques Hertel et Thomas Godefroy. On n'en signale qu'un en 1617, et c'est Jean Manet, qui dut se transporter au milieu des Nipissiriniens : un autre seulement en 1618 — ce n'est pas le moins célèbre —, Jean Nicolet, père d'une belle famille ; trois en 1621, du Vernet, le Baillif et Olivier le Tardif. Il en vint deux en 1623, Jean Paul Godefroy et Jacques Couillard ; deux enfin, en 1624, Jean Richer et un nommé Lamontagne.

Douze interprètes, de 1608 à 1625. Sur ce nombre, Godefroy, Marsolet, Nicolet, Hertel et le Tardif furent les seuls vraiment remarquables par le rôle qu'ils furent appelés à jouer dans les affaires du pays. Leur connaissance approfondie

Notre-Dame de Québec, au cahier des baptêmes et des mariages, que dans la grande histoire. Celle-ci toutefois lui a réservé une place à part en sa qualité de père d'une nombreuse postérité.

Abraham Martin maria l'une de ses filles au célèbre voyageur Médard Chouart, sieur des Groseilliers qui, en 1668, conduisait les Anglais à la baie d'Hudson. Une autre de ses filles épousa Jean Côté, souche de la famille de ce nom répandue dans tout le Canada.

A côté d'Abraham Martin se place naturellement la belle figure de Louis Hébert, le type du génie colonisateur. Un mot sur sa vie.

Hébert, fils d'un apothicaire de Paris, au service de Catherine Medicis, avait embrassé la carrière de son père, sans trop savoir probablement où il le conduirait. La fortune ne venait pas à son gré, et d'autres raisons qui nous sont inconnues, l'engagèrent un jour à aller tenter le sort du côté de l'Acadie. Voilà pourquoi nous le voyons à Port-Royal en 1606, occupé à la culture du sol, à côté de Champlain, Lescarbot et Poutrincourt. Il en était parti en 1607, mais il y retourna plus tard, et nous l'y retrouvons, en 1613, menant une vie bien modeste dans cette humble habitation de Port-Royal.

pays. Entré comme matelot sur le navire qui amena Champlain en 1613, il ne retourna en France que pour peu de temps. A Québec il vécut d'abord des gages qu'il recevait des commis. "Bon matelot, charpentier et calfeutreux." Couillard put se rendre utile à beaucoup de gens, et surtout à Champlain, lors de la construction du fort Saint-Louis.

La famille Couillard — Hébert a laissé une nombreuse descendance. Nos familles canadiennes quelque peu anciennes remontent par leurs ancêtres jusqu'à Couillard. Plusieurs de ses descendants se sont signalés par des services rendus au Canada et à la France. Un de ses petits-fils obtint des lettres de noblesse pour lui et sa postérité. Hébert, Couillard, Martin ! Ces trois hommes doivent être regardés comme les pionniers de la forte race de nos agriculteurs. Trinité providentielle et bénie, que nous ne pouvons trop nous lasser d'admirer dans ses œuvres, rendues fécondes par l'amour du bien et la pratique des vertus chrétiennes.

N. E. DIONNE.

L'industrie laitière progresse dans toutes les parties du Canada. Le nombre

de retour au Canada l'année suivante, il se prépara, à Lapointe, à faire son fameux voyage d'exploration sur le Mississippi, ayant recueilli de précieux renseignements sur le grand fleuve parmi les Indiens du lac Supérieur. Toutefois ce ne fut qu'en 1673, que grâce à l'appui de Frontenac, le gouverneur du Canada, le père Marquette put mettre son périlleux projet à exécution.

Enfin, le 17 mai de cette année, le père Marquette, accompagné de cinq autres Français, partit de Mackinaw, avec deux canots, gagna la rivière Wisconsin, par la voie de Green Bay et de la rivière Fox. Ils entrèrent dans le Mississippi le 17 juin, près du confluent de l'Ohio, auquel ils donnèrent le nom de Ouabon-Rigou, devenu depuis Wabash. Ils descendirent alors le Mississippi jusqu'à Akamesa, près du confluent de l'Arkansas. Après s'être assurés qu'ils n'étaient plus qu'à quelques journées de l'embouchure du Mississippi, ils résolurent de ne pas aller plus loin, de peur d'être inquiétés par les Espagnols. Le 17 juillet, ils remontèrent le fleuve pour retourner au Canada, mais passèrent par l'Illinois au lieu du Wisconsin et furent de retour à Green Bay au mois de septembre, ayant

BOITE 2167, B. P.

MONTRÉAL, Canada.

MONTRÉAL, 15 OCTOBRE, 1895.

ANS LE NORD

Nous avons assisté à cette fête comme représentant du *Colonisateur* et agent de la Société de Colonisation de Montréal. En effet, il ne s'agissait pas seulement, comme l'ont si bien dit les honnables G. A. Nantel, président actif du Club et Joseph Royal, ex-lieutenant-gouverneur de l'Ouest, de réunir un groupe d'hommes d'élite uniquement pour trouver dans les plaisirs de la chasse et de la pêche un délassement aux affaires publiques et aux préoccupations de la vie. Il s'agissait surtout de contribuer à l'œuvre nationale de la colonisation d'une région vierge ; il s'agissait de créer un nouveau centre ; il s'agissait de s'avancer davantage dans le nord, ce grand nord si fertile, si beau dans sa splendeur sauvage ; ce grand nord qui a inspiré tant de dévouement au digne curé Labelle et de si belles pages à Arthur Buies.

Une pensée plus élevée, un désir plus patriotique, un but plus

dents qui ont constellé la magnifique excursion du club et de ses invités à l'île Chapleau. Les colonnes de nos grands confrères sont remplis de récits débordants du plus pur lyrisme

Un article remarquable, publié dans "La Presse" et dû évidemment à une plume exercée, donne une idée d'ensemble de toute l'affaire.

Nous ne croyons mieux faire que de le reproduire en entier :

"Allons au Nord, disait le curé Labelle en 1880, à un groupe d'habitants à la station de St-Jérôme. "Allons au Nord, mes amis, et les Anglais ne nous troubleront pas ; ils n'ont pas assez de poil aux pattes pour nous suivre jusque là."

"Ces paroles du grand apôtre de la colonisation revenaient à notre esprit en traversant les belles paroisses échelonnées sur le parcours du chemin de fer entre St-Jérôme et la Chute-aux-Iroquois.

"De belles paroisses ! une population chrétienne, laborieuse et prospère ! un chemin de fer ! les richesses naturelles en voie d'exploitation ! Quel rêve pour ce bon gros curé qui avait une si vaste intelligence et un si grand cœur sous sa vieille soutane rapiécée. Cependant tout

manquait à la fête, tant il est vrai qu'il n'y a pas de beaux jours sans nuages. Comme autrefois Moïse expirant en vue de la terre promise, le brave et bon curé Labelle est mort avant d'avoir vu le triomphe de son labeur. Il n'est pas oublié, cependant, et, si ses concitoyens ne lui ont pas encore élevé une statue, sa mémoire est profondément gravée dans les cœurs des colons du Nord.

Comme il eût été heureux de se joindre à nos excursionnistes, qui tous étaient ses amis et ses coopérateurs ; comme son cœur eût débordé de joie en parcourant son royaume, (car M. de La Brière l'avait proclamé le roi du Nord), comme il eût interpellé gaiement chaque colon en l'appelant par son nom, en s'informant de sa famille, de ses affaires. Est-il possible d'oublier ce grand canadien quand ici, tout le monde parle de lui, qu'on le voit partout et que chaque clocher rappelle son souvenir ?

"Encore une fois, si, après la mort du curé Labelle, l'œuvre de la colonisation des cantons du Nord n'a pas périclité, le pays en est redévable au travail persévérant, à l'influence et aux sacrifices personnels de l'honorable M. Chapleau,

puissamment secondé par l'honorable M. Nantel. Viennent ensuite les honorables MM. Ouimet, Leblanc et Beaubien, MM. J. D. Rolland, C. A. Dansereau, R. Préfontaine, G. H. Hughes, G. A. Drolet, Richard White A. T. de Montigny MM.

rond de grosse dimension, très spacieuse et d'une architecture aussi originale que du plus bel effet. La longueur en est de 98 pieds. Avec sa vaste véranda, son hall superbe, sa cheminée monumentale, sa tour du nord ses deux étages, de nombreuses et confortables chambres, ses cuisines et autres accessoires, la maison du Club St-Jérôme est probablement la plus complète, sinon la plus riche de ce genre en Canada.

Le club St-Jérôme a le privilège de la pêche dans quinze lacs environnans où foisonnent la truite de plusieurs espèces ainsi que le brochet, le doré, l'achigan, etc. Le chevreuil abonde dans les bois ; le caribou, l'ours et le renard attirent le chasseur non moins que le canard et la perdrix.

TRISTE RETOUR

Mercredi soir, les passagers du convoi de Montréal ont été témoins d'un triste et poignant spectacle.

tiers. Un véritable chantier de marchand de bois, avec sa cambuse et ses autres accessoires, pourrait être installé tout à côté de la maison de colon et pourvu d'échantillons de nos plus riches essences forestières.

Ce serait absolument une leçon de choses, et des plus curieuses.

Nul doute que l'on éprouverait un réel plaisir à connaître sur le vif l'existence de plus de trente mille de nos compatriotes employés à la grande industrie des bois.

La suggestion nous semble digne de l'attention du gouvernement provincial et des autorités de l'exposition de Montréal.

DE RETOUR

Son Excellence le lieutenant-gouverneur J. A. Chapleau, patron de la Société Générale de Colonisation, vient d'arriver du Nord-Ouest après l'un des plus beaux voyages qu'on puisse rêver.

Il se rendra tout probablement à La belle et de là jusqu'à la colonie de Minerve pour présider à l'inauguration du Club Chapleau qui doit avoir lieu le dix octobre courant.

des paroisses plus anciennes et reçurent la sainte communion à plus populaires que la nôtre.

Le nom de cette paroisse (Saint-Hyacinthe) rappelle à ceux qui précéda la confirmation des en-l'habitent deux noms bien doux fants. Pendant cette messe, M. pour nous : celui de Mgr. Alexandre-Antoine Taché, ancien élève du Collège de Saint-Hyacinthe nous fit entendre un magnifique P. Q. et celui du Rév C. A. Beaudry, maintenant chanoine à l'Evêché de Saint-Hyacinthe aussi. Pour nous, ces deux noms sont inséparables.

L'adresse fut présentée par M. Josaphat O. Faubert, élu préfet de la Municipalité, bien qu'elle soit en grande majorité anglaise et protestante, prouvant l'estime que ce monsieur a su s'acquérir au milieu de notre population. Mgr. l'Archevêque, comme d'ordinaire, répondit en termes tout-à-fait heureux. Sa Grandeur dit entre autres choses, la satisfaction qu'elle avait eue de donner à cette nouvelle paroisse le premier curé

trop souvent trainer à la ville, dans les cercles rumeurs du jeu et du plaisir, une vie si peu digne de vous, et jeter le reste de vos biens dans les abîmes du luxe, ne vaudrait-il pas mieux pour vous habiter honorablement vos terres et faire pousser dans le pays ces racines profondes que les révoltes ne sauraient arracher ? Oui, soyez fidèles au sol qui a fait votre nom et votre grandeur, et le sol vous sera fidèle à son tour, et les populations vous béniront..."

Notre Gravure.

La gravure que contient ce numéro représente l'hôpital de Matawa, petite ville aux trois quarts française, assise sur la rive ouest de la Rivière Ottawa, à l'entrée de la province d'Ontario. Cet hôpital est tenu par les Dames Grises, qui, bien des fois, ont prodigué leurs soins à nos compagnons blessés dans les nom-

Le commandement de cette petite flotte fut confié à M. d'Iberville; ces vaisseaux étaient le *Pélican* de 50 canons, le *Palmier* de 40 canons, le *Profond* et la *Violente*. M. d'Iberville avait avec lui son frère M. de Sévigny.

Lorsque les vaisseaux arrivèrent à l'entrée de la baie, ils la trouvèrent encore toute remplie de glaces flottantes; ils furent obligés de se séparer pour éviter de se briser les uns contre les autres. M. d'Iberville prit les devants. M. Duguay qui commandait le *Profond* fut poussé vers le Nord par les courants. Dans sa route il rencontra trois vaisseaux anglais contre lesquels il se battit pour éviter d'être capturé. Les trois vaisseaux anglais étaient le *Hampshire*, le *Deering* et l'*Hudson*, tous trois se rendaient à l'intérieur de la baie pour fortifier le poste Bourbon.

Dans ces régions polaires, la navigation présente à chaque instant des dangers qui demandent de la part des marins, une habileté et une hardiesse peu communes.

à prévu son dessin la à vergue. Les boulets prolonge vergue font un terrible ravage et la mitraille redouble son feu, poison. Le *Pélican* juste et lâche une boîte ses canons si que son fier ennemi fût défaite si à propos longueur de chemin tout au plus sa voile. Pas un seul et sombra sous page ne fut sauvé. omme de l'équi-

Aussitôt après, M droit à l'*Hudson*, qui d'Iberville court d'entrer dans la rivière au moment mais celui-ci se voit à Ste-Thérèse; d'être abordé, amenant sur le point *Deering*, auquel son pavillon. Le réussit à s'échapper, donna la chasse,

Cette victoire dor d'Hudson aux Français toute la baie bon, assiégé quelques jours. Le fort Bourg rendit à condition que jours après, seraient transportées en Angleterre. Cette condition fut remplie. Cette Français se montrant à la lettre, leur parole que ne loi plus fidèles à Anglais deux ans au l'avait été les du même fort.

Le dernier poste avaient à la baie d'I que les Anglais pait; ils n'avaient pas dudson leur échappé en terre. La France us à un seul pied de tout ce pays jusqu'à demeura maître par le honteux traité à l'année 1714, où d'*Hudson* retourna d'*Utrecht*, la baie l'a possédée jusqu'à l'Angleterre, qui aujourd'hui.

Canada's Immigration Problem

A Definition of the Dominion Government's Policy in a Matter that is of Vital Interest to the Construction Industry

By ROBT. J. C. STEAD

Director of Publicity, Department of Immigration and Colonization, Ottawa

Many opinions were held as to the probable trend of immigration events after the close of the war, and there was a general anticipation that the movement to Canada would again be very heavy and probably exceed all previous records. This anticipation was not realized, for a number of reasons. Canada, in common with all other countries, experienced a share of the dislocation of business and the industrial uncertainties of the reconstruction period. The demobilization of the Canadian forces, coincident with the suspension of all war activities, brought about a surplus of labour in labour markets which made it impracticable for the Canadian Department of Immigration and Colonization to extend inducements to the vast numbers of labourers available at that time as immigrants. The welfare of the country seemed to demand that, as a rule, only those should be admitted who were in a position to assist in developing its natural resources, chief among which is its fertile agricultural land. Farmers and farm labourers became more than ever the objective of the Department of Immigration and Colonization. Other factors which contributed to the depression of immigration figures as compared with the period immediately preceding the war were the high cost of ocean and land transportation and the balance of exchange against the capital of British and European immigrants, coupled with the generally impoverished condition of some of the countries which had formerly been contributors of immigrants, and to the fact that, although great areas of land were still available as free homesteads, they were now located for the most part at considerable distances from railways. The recent policies of the Department have been not to encourage settlement in localities likely to require additional railway construction at an early date.

Restrictions Now Removed

Most of the restrictive regulations that were found necessary during the reconstruction period have now been cancelled, but they undoubtedly created in the minds of many people abroad doubt as to their welcome to Canada and their ability to meet the standards set up. It is believed that the time has now come to extend operations with a view to encouraging the migration of the largest possible number of those classes that Canada can absorb. A statement to that effect was made to the Canadian Press by the Hon. J. A. Robb, Minister of Immigration and Colonization on September 11th

and was widely reprinted and favourably commented upon by the British Press. While, as Mr. Robb pointed out there are some would-be immigrants into Canada who are not suited for the Dominion owing to physical, moral or industrial unfitness or because they belong to races that cannot be assimilated without social or economic loss to Canada, there are at the same time in Great Britain and Continental Europe tens of thousands of skilled and unskilled workers (not agriculturists) who would be an asset to Canada if steady employment could be found for them.

The immigration policy of the Canadian Government recognized that while Canada required increased population, quality rather than quantity must count; that British immigration must hold first place in the programme, and that the selection of Canada's new settlers must have due regard to physical, industrial, and financial fitness, and the Dominion's power of absorption.

Greatest Need is for Agricultural Workers

The greatest need is for those able and willing to settle on the land and assist in agricultural development. While capital is essential to immediate land settlement, its absence will not close the road to prosperity to those strong of hand and stout of heart, determined to succeed.

The open door policy prevails for those classes likely to succeed and for whom there is a demand. In the interests of the immigrant and of Canada, determination of fitness, as far as possible takes place before the immigrant leaves his own country.

As the British Isles alone cannot furnish a sufficient quota of the agricultural classes, efforts are being made to encourage immigration from certain areas of the continent of Europe and from the United States.

To promote the better functioning of the colonization activities of the Immigration Department, the machinery of the Soldier Settlement Board will be made available, and increased attention will be paid to the problem of converting the immigrant into a successful settler. This, indeed, lies at the root of Canada's immigration problem. Immigration to Canada is limited by no arbitrary rules, but by the ability of the Dominion to absorb additional population. As, with the anticipated return of more prosperous times, that ability for absorption increases, the corresponding increase in immigration may be anticipated. To that end the government is directing its energies.

 Insere in file

L'ANSE AU GRIFFON.—St. Joseph de l'Anse Griffon n'est qu'à six milles de la rivière aux Écureuils. Sa population est de 815 âmes. Il y a quatre moulins à farine, une scierie et plusieurs établissements d'eau. C'est un excellent poste pour la pêche à la morue. Les terres sont de bonne qualité, mais sur le reste de la côte, on s'occupe surtout de la culture. On pourrait y faire de l'industrie laitière, car on compte plus de 200 vaches laitières. Le territoire comprend aussi les rangs est de l'Anse au Griffon, qui sont colonisés. Il y a encore beaucoup de terres disponibles. Il existe assez de bois de commerce, mais peu de chantiers.

RIVIERE AUX RENARDS.—St-Martin de la Rivière aux Renards, qui embrasse la grande paroisse de Sydenham et Fox, a une population d'environ 2,000 âmes dont la grande majorité est d'origine française. C'est un excellent poste de pêche, le grand nombre de ses habitants se livrant à ce métier. On en compte plus de 400 qui ne font pas de commerce. Cinq marchands font le commerce de poisson. Le terrain est, en général, de très bonne qualité. Entre Grand-Etang et la Rivière aux Renards, une quarantaine de lots colonisables qui pourraient être avantageusement occupés. Il y a deux moulins à farine, trois scieries. On pourrait y faire de l'industrie laitière, car on compte plus de 200 vaches dans la paroisse.

L'ANSE DE L'ETANG.—Poste de pêche si quelques milles seulement de Chlorydorme. A l'entrée du Grand-Etang, se trouve le canton Sydenham qui ferme 1,700 acres de terres disponibles. Les plus belles terres se trouvent sur la rivière Darmouth et St-Laurent, où il y a un certain nombre de lots colonisables. Ce canton est un peu montagneux à l'intérieur.

CHLORYDORME.—Ste-Cécile de Chlorydorme à trente milles de St-Martin, en remontant le fleuve St-Laurent. Sa population, adoucée, en partie, à la pêche, comprend environ 710 âmes. Quatre maisons font le commerce de poisson. Le sol du canton est le plus propice à la culture, se trouve sur le bord de la mer, et plus particulièrement à Petite Vallée, à la Pointe, à la Frégate, à la Pointe Sèche. Le reste est montagneux. C'est une place de pêche pour la morue. Il n'y a ni chantiers, ni industries quelconques, à part celle de la pêche. On ne trouve plus de sol colonisable.

GRANDE VALLEE DES MONTS.—Est à 20 milles de St-Martin. Sa population est actuellement d'environ 600 âmes. Elle se livre presque entièrement à la pêche.

Grande Vallée des Monts est aussi le nom de ce canton, mais il y a d'arpenté et d'occupé que le reste du territoire. Les terres, cependant, sont de belle qualité.

BONNES TERRES A VENDRE.—On trouve une excellente terre à coloniser à l'Anse à Beaufils, où il y aura probablement une réserve de colonisation avant longtemps. Egalement, à St-Pierre-Barachois, dans le canton Malbaie, il y a déjà la famille Barachois. À Saint-Isidore, en arrière de Grande Vallée, où sont établis un groupe important de colons. Il y a de quoi établir toute une paroisse. Le sol est de très bonne qualité.

ANSE DU CAP.—A quelques milles de Grande Vallée. Sa population est de 2,167 âmes. Il y a là trois scieries, un moulin à farine et trois pouvoirs d'eau. Les chantiers de bois qui s'y font emploient chaque hiver une centaine d'hommes. Il y existe beaucoup de bons terrains à coloniser à quelques milles de l'église. Le sol, en général, est de bonne qualité; toutes les céréales y poussent bien. Deux cents hommes s'occupent de pêche et le reste se livrent à l'agriculture. Cinq maisons font le commerce de poisson.
