## IMMIGRATION RECORDS

### Border entries 1908 to 1935

The National Archives of Canada holds lists of immigrants arriving across the Canada/U.S. border from April 1908 to 31 December 1935. These border entry records contain genealogical information about each immigrant such as age, country of birth, occupation, place of residence in the U.S. and destination.

#### 1908 to 1918:

The lists for 1908 to 1918 are arranged by border port and date of entry. In order for you to undertake a meaningful search in these unindexed lists, it is necessary to know the port and month of arrival, otherwise you must search the lists for the appropriate region, port by port and month by month.

#### 1919 to 1924:

From January 1919 to the end of 1924, individual forms (Form 30) were used to record immigrants entering Canada from or via the United States. The Form 30 records are arranged in a quasi-alphabetical format. This series also includes a few forms from later years.

#### 1925 to 1935:

In 1925, the use of border entry lists was reinstated. For each month, the records for all ports are filed together. A series of old nominal indexes exists for this period. Since the indexes include post-1935 entries, which are closed under the *Privacy Act*, they cannot be consulted by members of the public. A database will be produced when resources become available. In the meantime, staff of the Genealogy Unit will undertake searches in the indexes, if sufficient identifying details, including year of entry, are provided. Note that the records for January to March 1925 are not indexed; however, individual Form 30 records are also available for those months in addition to the border entry lists by port.

Post-1935 records are still in the custody of Citizenship and Immigration Canada.

#### Important Note:

Not all immigrants crossing the border were registered. Some crossed when the ports were closed or where no port existed. Many families were not registered because one or both parents had been born in Canada or previously resided here, and they were considered Returning Canadians rather than immigrants.
