Canadian Composers - Individual Correspondence

Note: Correspondence in this section covers letters from, to, and concerning each individual composer. The bulk of the correspondence (80%) deals with administrative detail including requests for copying, permission to sell works, shipping information, and details of the circulation of scores deposited in the CMC library. The amount of more personal information often depends on the kind of relationship the individual composers has with the CMC and its staff. The arrangement is alphabetical by the composers last name.

INDIVIDUAL CORRESPONDENCE

MUS 144

**Canadian Composers
Individual Correspondence**

Note: Correspondence in this section covers letters from, to, and concerning each individual composer. The bulk of the correspondence (80%) deals with administrative detail including requests for copying, permission to sell works, shipping information, and details of the circulation of scores deposited in the CMC library. The amount of more personal information often depends on the kind of relationship the individual composers has with the CMC and its staff. The arrangement is alphabetical by the composers last name.
