F.A. 1419
MG 40,
D
AM

Great Britain, Air Ministry

MG 40, D AM is a collection of official records of World War I aviation activities which were amassed by the Directorate of History, DND, as source material for the first volume of the official history of the RCAF. MG 40, D AM includes documents extracted from several Public Record Office record groups including Air 1, 2, 6, 8, 10, Foreign Office 371, Colonial Office 616, Cabinet 23, and War Office 106. The collection also includes documents from the personal Maxse, Wemyss and Marder Collections.

Finding Aid 1419 consists of two parts. The first is a shelf list describing the contents of each of the 38 volumes in the collection. The second is a file list which provides the numbers and title of each file in the collection.

Finding Aid 1419 should be used in conjunction with the microfilmed subject index on cards of the contents of the Air Ministry record groups and a different file list than that included in Finding Aid 1419.
