S - Studies											
R15519	MSS2541	Textual record and Photo	1	1	Open	Curriculum and biography	Curriculum of E. Poitevin and biography from F.-J. Leduc, president of "l'Association des Anciens de Polytechnique". Contains a photograph of E. Poitevin with some members of his family and 6 small photographs of two of his children and correspondance related to the family of his wife, Marie Poitevin (daughter of Dionis L. Desnaulniers).	French and English	7 photographs : b.&w. ; 13 X 8 cm; 5,5 X 3,5 cm		November 23rd 1954
R15519	MSS2541	Textual record	1	2	Open	Travaux scolaires	2 travaux d'étudiant d'E. Poitevin : un sur les "Aciers spéciaux ternaires" et l'autre sur "Bernardin de Saint-Pierre"	French			n.d.
R15519	MSS2541	Textual record	1	3	Open	Cahiers de notes de l'École Polytechnique	Cours de Chimie des métaux (2ième année; prof. : M. Flahault) et carnet de notes récapitulatif.	French			1908-1912
R15519	MSS2541	Textual record	1	4	Open	Cahiers de notes de l'École Polytechnique	Cours de Minéralogie et de Mines (3ième année; prof. : E. Dulieux)	French			1909-1910
R15519	MSS2541	Textual record	1	5	Open	Cahiers de notes de l'École Polytechnique	Cours de Géologie et de Métallurgie (4ième année; prof. : E. Dulieux)	French			1910-1911
R15519	MSS2541	Textual record	1	6	Open	Contribution to the Mineralogy of the Black Lake Area, Megantic County, Quebec	Text by E. Poitevin and R.P.D. Graham	English			[1916]
R15519	MSS2541	Textual record	1	7	Open	Études préliminaires sur les transformations minéralogiques d'origine profonde et d'origine externe des intrusions dites Thetford	Version manuscrite et préliminaire de la thèse de E. Poitevin en vue d'obtenir le grade de docteur es sciences. Contient aussi une lettre adressée à M. Alfred Fyen, directeur à l'École Polytechnique, et des feuilles de calculs	French			1917
R15519	MSS2541	Textual record	1	8	Open	Étude des transformations minéralogiques d'origine profonde et d'origine externe qui se sont produites dans le filon-couche Black-Lake-Thetford	Une partie d'une version préliminaire de la thèse présentée à la Faculté des Sciences de l'Université de Montréal pour obtenir le grade Docteur es sciences.	French			1922
R15519	MSS2541	Cartographic material and Architectural, technical drawing	9	1	Open	Maps and drawing of the Thetford region	Maps and drawing of the Thetford region related to thesis of E. Poitevin	English	8 maps and 1 technical drawing	Une carte est en partie déchirée (nécessite un traitement de la part de l'équipe de la préservation)	1887-1919
R15519	MSS2541	Photo	8	1	Open	Asbestos mines in Black Lake and Thetford	Photographs of dykes, pits and various views of the region. Some of these photos were used in the publication "Étude sur la minéralogie du district de Blak Lake" (1919).	English	69 photographs : 49 b&w prints and 20 b&w negatives.		1916-1918
S - Professional life											

Numéro de référence arch. / Reference Arch Number	No instrument de recherche / Finding Aid No.	Genre de support / Media Type	No Volume	No dossier / File No.	Code d'accès / Access Code File	Titre / Title	Portée et contenu / Scope and Content	Langue / Language	Étendue / Extent	Condition matérielle / Physical condition	Dates
R15519	MSS2541	Textual record	1	9	Open	Geological Survey of Canada	Concerns jobs held by E. Poitevin or which are more generally related to the Geological Survey of Canada (GSC). Concerns also the history of the GSC. Contains correspondence, booklets of the GSC, the book "A century in the history of the Geological Survey of Canada" by F.J. Alcock, job descriptions, a general description of what is a mineralogist and on the mandate of the Division of Mineralogy at the GSC, a Mines and Surveys Bulletin containing an article on E. Poitevin retirement on November 30th 1956 and a text of Poitevin with some of his souvenirs working at the GSC.	English and French			December 30th 1911 to December 7th 1970
R15519	MSS2541	Textual record	1	10	Open	Correspondance reliée à l'École Polytechnique	Correspondance reliée aux activités d'E. Poitevin en lien avec l'École Polytechnique	French			November 7th 1939 to January 27th 1955
R15519	MSS2541	Textual record	1	11	Open	Instituts, associations et sociétés scientifiques	Correspondance et documents en lien avec la participation d'E. Poitevin à différentes associations scientifiques. Contient, entre autres, de la correspondance avec la Société française de Minéralogie, le discours de A.-O Dufresne au Congrès de l'ACFAS de 1944 "Contribution de la science à la recherche des mines" et un texte de 1956 de F.J. Leduc sur l'Institut des sciences pures et appliquées.	French and English			January 24th 1912 to June 16th 1956
R15519	MSS2541	Cartographic material	10		Open	Geological and topographic maps	Geological Maps of the Geological Survey representing the Laurentian rocks in parts of the counties of Ottawa, Terrebonne, Argenteuil and Two Mountains (1862), the Eastern Townships (1890), Montreal (1896), the vicinity of the National Transcontinental Railway between the counties of Levis and Temiscouata (1911), Nova Scotia (1891), and Topographic Maps of the Geological Survey representing Maniwaki (1933), Châteauguay (1935), Huntingdon (1935), Lachine (1936), Vaudreuil (1940) and a map of Canada from the Departement of the Interior representing Railway lines across Canada (1929).	English and French	10 maps.		1862-1940
R15519	MSS2541	Cartographic material	11		Open	Geological and topographic maps	Geological Maps of the Geological Survey representing the Southern Part of the Lake Woods and Rainy River (1890), Newfoundland (1955) and a map of Canada from the Departement of Mines representing Principal Mineral Areas (1956)	English	3 maps.		1890-1956
R15519	MSS2541	Textual record	2	30	Open	Preliminary report on Thetford Mines - Black Lake Area	Geological report of the Thetford Mines - Black Lake area by P.H. Riordon for the Departement of Mines of Quebec with a map of the area. The map is in the Vol. 11.	English and French			1954
R15519	MSS2541	Cartographic material	11		Open	Carte de la région de Thetford Mines et de Black Lake	Carte qui accompagne le rapport préliminaire produit par P.H. Riordon du Minsitère des Mines de la province de Québec	French and English	1 map.		1954

Numéro de référence arch. / Reference Arch Number	No instrument de recherche / Finding Aid No.	Genre de support / Media Type	No Volume	No dossier / File No.	Code d'accès / Access Code File	Titre / Title	Portée et contenu / Scope and Content	Langue / Language	Étendue / Extent	Condition matérielle / Physical condition	Dates
R15519	MSS2541	Object	6	1	Open	Measurement instruments and seal	Differents objects related to the professional life of E. Poitevin : contact goniometer, stereographic protractor, seal and rods	French	5 objects : contact goniometer, stereographic protractor, seal and 2 rods		n.d.
R15519	MSS2541	Object	7	1	Open	Compass	An old compass and its box	English	2 objects : a compass and a box.		n.d.
R15519	MSS2541	Object	13	1	Open	Dictabelts	2 red vinyl plastic belts and a cylinder used in Dictaphone	English	3 objects : 2 dictabelts and a cylinder		n.d.
R15519	MSS2541	Architectural, technical drawing	12	1	Open	Plans of Louis Merrill Poitevin	Plans from Louis Merrill Poitevin representing Bonsecours Farm in Montebello and the MacDonald College Farm in Ste-Anne-de-Bellevue. L. M. Poitevin, the son of E. Poitevin, graduated as engineer from McGill University and joined the Canadian National in 1944.	English	2 technical drawings : 97 X 64 cm.		1942-1944
R15519	MSS2541	Photo	8	2	Open	Laboratorys of the Geological Survey		English	3 photographs : b&w ; 17 X 24 cm.		November 2nd 1955
R15519	MSS2541	Photo	14	1	Open	12ième Congrès géologique canadien de 1913 à Toronto	Reproduction d'une photographie représentant les participants au Congrès géologique canadien de 1913 à Toronto	French	1 reproduction de photographie : b&w ; 26 X 33 cm.	La reproduction est en très mauvais état et nécessitera un traitement spécial de la part de l'équipe de la préservation.	1913
R15519	MSS2541	Photo	14	2	Open	The Canadian Mining Institute Convention in Ottawa	Reproduction of a photograph representing the participants at the "Canadian Mining Institute Convention" in Ottawa the 6th of March 1913.	English	1 reproduction de photographie : b&w ; 28 X 35 cm.	La reproduction est en très mauvais état et nécessitera un traitement spécial de la part de l'équipe de la préservation.	March 6th 1913
S - Analysis and Exhibitions of Minerals											
R15519	MSS2541	Textual record	1	12	Open	Analysis of lithium-bearing minerals from Manitoba	Descriptions of lithium-bearing minerals with commercial value in Manitoba (Silver Leaf, Bear River). Contains analysis, correspondence, reports.	English			December 9, 1926 - February 25, 1928
R15519	MSS2541	Textual record	1	13	Open	Analysis of lithium-bearing minerals from Manitoba (2)	Descriptions of lithium-bearing minerals with commercial value in Manitoba (Silver Leaf, Bear River). Contains analysis, reports correspondance, calculation sheets.	English			March 24th 1923 - January 30th 1930
R15519	MSS2541	Textual record	1	14	Open	Comparative study of some platiniferous rocks from Tulameen (B.C.) and the Ural Mountains	Different versions of a study by E. Poitevin intituled "Comparative study of some platiniferous rocks from Tulameen (B.C.) and the Ural Mountains" concerning an investigation of several areas of ultra-basic irruptives near Tulameen potentially containing platinum in commercial quantities.	English			1918

Numéro de référence arch. / Reference Arch Number	No instrument de recherche / Finding Aid No.	Genre de support / Media Type	No Volume	No dossier / File No.	Code d'accès / Access Code File	Titre / Title	Portée et contenu / Scope and Content	Langue / Language	Étendue / Extent	Condition matérielle / Physical condition	Dates
R15519	MSS2541	Textual record and Photo	1	15	Open	Comparative study of some platiniferous rocks from Tulameen (B.C.) and the Ural Mountains (2)	Different versions of a study by E. Poitevin intituled "Comparative study of some platiniferous rocks from Tulameen (B.C.) and the Ural Mountains" concerning an investigation of several areas of ultra-basic irruptives near Tulameen potentially containing platinum in commercial quantities. Contains also photographs and a map of the area.	English	1 map; 9 photographs b.&w.; 5.5 X 7 cm (8 photos); 8 X 14 cm (1 photo)		1911-1918
R15519	MSS2541	Textual record	2	1	Open	Collinsite : a new phosphate	Analysis of the chemical and optical proprieties of a new mineral found near Francois Lake (B.C) and named Collinsite after Dr. W.H. Collins, Director of the Geological Survey; containing a report by E. Poitevin intituled "Collinsite, a new mineral and Quercyite, a new mineral occurrence", analysis, calculation sheets and correspondence	English			June 22nd 1922 - August 29th 1925
R15519	MSS2541	Textual record	2	2	Open	Descriptive mineralogy – Thetford Map area – Quebec serpentine Belt		English			n.d.
R15519	MSS2541	Textual record	2	3	Open	New optical data for analysed Sussexite; new occurrence of Langsfordite from Athin, BC	Contains the preliminary and final versions of the articles and calculation sheets	English			n.d.
R15519	MSS2541	Textual record	2	4	Open	Ashtonite, a new mineral from British Columbia	Concerns a new zeolite collected by E. Poitevin in the summer of 1921 and named after the Hon. Wesley Ashton Gordon, K.C., Minister of Departement of Mines. Its occurrence is on the Indian Reserve traversed by the Pentincton Kerremos highway. Contains the preliminary and final versions of articles on the mineral, correspondence and calculation sheets.	English			March 15th 1929 to January 8th 1932
R15519	MSS2541	Textual record	2	5	Open	Chromite investigation – Eastern township	Concerns analysis of chromite found in very basic rocks in the Eastern townships of Quebec especially near Coleraine, Black Lake and Thetford. Contains correspondence, reports, analysis and calculation sheets. Contains also a publication of the GSC of 1932 in french, "Rapport sommaire 1930", with an article of E. Poitevin on chromite : "Études chimiques et minéralogiques sur quelques chromites de la province de Québec."	English and French			April 15th 1931 to the May 30th 1933
R15519	MSS2541	Textual record	2	6	Open	Camptonite from near Sherbrooke	Article, brochures of the Royal Society of Canada, analysis of samples, calculation sheets and correspondence	English			1946
R15519	MSS2541	Textual record	2	7	Open	Natrolite	Articles, correspondence and calculation sheets	English			April 27-June 17 1938
R15519	MSS2541	Textual record	2	8	Open	Prehnite	Analysis of samples and calculation sheets	English			December 12th 1932 - January 26th 1933
R15519	MSS2541	Textual record	2	9	Open	Thomsonite	Article, correspondence and analysis of samples	English			1929
R15519	MSS2541	Textual record	2	10	Open	Ilmenite	Analysis of samples and calculation sheets	English			1931
R15519	MSS2541	Textual record	2	11	Open	Vesuvianite	Samples analysis and correspondence	English			2-5 October 1929
R15519	MSS2541	Textual record	2	12	Open	Diopside	Article, samples analysis, calculation sheets and correspondence	English			1929

Numéro de référence arch. / Reference Arch Number	No instrument de recherche / Finding Aid No.	Genre de support / Media Type	No Volume	No dossier / File No.	Code d'accès / Access Code File	Titre / Title	Portée et contenu / Scope and Content	Langue / Language	Étendue / Extent	Condition matérielle / Physical condition	Dates
R15519	MSS2541	Textual record	2	13	Open	Hematite – Mont Pinnacle - Counties of Mississquoi and Brome, Eastern Townships	Prospection for Pinnacle Copper Corporation Limited. Contains 2 reports	English			1955
R15519	MSS2541	Textual record	2	14	Open	Picrite Porphyry, Augite Prophyry Tuff	Descriptions of the minerals	English			1947
R15519	MSS2541	Textual record	2	15	Open	Albite from the Martin Bennett Asbestos Mines, Thetford Mines	Preliminary version of an article, drawings and calculation sheets	English			1947
R15519	MSS2541	Textual record	2	16	Open	Serpentine	Articles, samples analysis, calculation sheets and correspondence	English			1929-1931
R15519	MSS2541	Textual record	2	17	Open	Native elements	Descriptions of native elements	English			n.d.
R15519	MSS2541	Textual record	2	18	Open	Analysis of sands used as ballast in Japanese balloon bombs	Analysis of sands used as ballast in Japanese balloon bombs that landed on th U.S. and Canadian pacific coast during World War II. Contains reports, calculation sheets and correspondence.	English			1946
R15519	MSS2541	Textual record	2	19	Open	Gems and rare Minerals of economical value	Articles, report and correspondence	English			1910 to December 14th 1924
R15519	MSS2541	Textual record	2	20	Open	Geological Survey of Canada - Extracts of annual reports on minerals		English			1863 to 1887
R15519	MSS2541	Textual record	2	21	Open	Analysis and descriptions of minerals and metals	Lists of minerals with their description and their origin, correspondence and a little pamphlet on the chief ores of the Common metals with notes on the Industrial uses of these Metals	English			December 5th 1939 to January 20th 1940
R15519	MSS2541	Textual record	2	22	Open	Exhibitions of minerals and meteorites	Documents related to different exhibitons of minerals and meteorites. Contains correspondence and general descriptions of some minerals (gypsum and graphite) and an article on a meteorite which feel near Abee, Alberta on June 9th 1952	English			May 10th 1955 to April 30th 1960
R15519	MSS2541	Textual record	2	23	Open	1937 International Exhibition in Paris : the Canadian mineralogical display	Concerns the Canadian mineralogical display at the 1937 Paris Exhibits. Contains correspondence and a brochure about the Canadian Pavillon.	English			July 6th to September 24th 1937
R15519	MSS2541	Object	7	2	Open	Medal from the 1937 International Exhibition in Paris	Medal won by E. Poitevin at the 1937 International Exhibition in Paris	French	1 medal and a box : bronze.		1937
R15519	MSS2541	Photo	8	3	Open	Minerals	Photographs of various minerals : vesuvianite with diopside, white diopside rock, collinsite, quercyte, andesite, colerainite and other minerals non-identified. Some of these photos were used in two publications of E. Poitevin : "Contributions to Canadian Mineralogy and Petrography" (1927) and "Étude sur la minéralogie du district de Blak Lake" (1919).	English	23 photographs : b&w.		1916-1926
R15519	MSS2541	Photo	8	4	Open	Exhibition of minerals by the Departement of Mines and Ressources	Exhibition of the chief ores and minerals of Canada	English	4 photographs : b&w ; 20 X 24 cm.		n.d.
R15519	MSS2541	Photo	8	5	Open	Specimens of Asbestos	Specimens of Asbestos from differents places around the world. Photographs by J.C. Maugans published by the Asbestos and Mineral Corporation, Whitehall Building, New York.	English	15 photographs : b&w ; 10 X 15 cm; 20 X 25 cm.		n.d.

Numéro de référence arch. / Reference Arch Number	No instrument de recherche / Finding Aid No.	Genre de support / Media Type	No Volume	No dossier / File No.	Code d'accès / Access Code File	Titre / Title	Portée et contenu / Scope and Content	Langue / Language	Étendue / Extent	Condition matérielle / Physical condition	Dates
S- Asbestos Corporation of Canada											
R15519	MSS2541	Textual record	2	24	Open	Preliminary report as to the origin of the Asbestos in the Eastern Townships of the Province of Quebec	Short report with a letter	English			June 4th 1929
R15519	MSS2541	Textual record	2	25	Open	Assistance to the Asbestos Corporation Ltd. in the Thetford area	Correspondence file regarding the work done by E. Poitevin for the Asbestos Corporation Ltd. In the Thetford area. Contains also the memorandum of an agreement made between this corporation and the Sudbury drilling company.	English			April 4th 1923 to May 24th 1929
R15519	MSS2541	Textual record	2	26	Open	Assistance to Asbestos Corporation Ltd. in the Thetford area	Correspondence file regarding the work done by E. Poitevin for the Asbestos Corporation Ltd. in the Thetford area. Contains also the description of the assignement confer to E. Poitevin by the director of the Geologicla Survey of Canada which is to assist the corporation in its efforts to increase its unmined reserves of asbestos-bearing rocks and to locate new deposits on its properties.	English			June 10th to December 30th 1929
R15519	MSS2541	Textual record	2	27	Open	Assistance to the Asbestos Corporation Ltd. in the Thetford area	Correspondence file regarding the work done by E. Poitevin for the Asbestos Corporation Ltd. in the Thetford area. Involving especially Mr. Charles Clamsell, Deputy Minister of Mines, Col. Robert Massie, President of Asbestos Corporation in Toronto and R.F. Ross, President and General Manager of the corporation in Thetford Mines.	English			January 2nd to May 30th 1930
R15519	MSS2541	Textual record	2	28	Open	Assistance to the Asbestos Corporation Ltd. in the Thetford area	Correspondence file regarding the work done by E. Poitevin for the Asbestos Corporation Ltd. in the Thetford area. Contains also his notes on the Asbestos Industry of Southern Quebec and his interim notes regarding Asbestos Corporation.	English			June 13th 1930 to May 12th 1931
R15519	MSS2541	Textual record	2	29	Open	Research on chromite in the Thetford area	Correspondance and samples analysis related to geophysical research of E. Poitevin in the vicinity of Thetford mines in connexion with chromite. Contains also 2 drawings showing location of samples from Chrome raise at Beaver Mine.	English			January 5th 1930 to September 14th 1936
R15519	MSS2541	Textual record	3	1	Open	Thetford Map Area by Robert Harvie	Unpublished report by Mr. Robert Harvie given to E. Poitevin by the Geological Survey in order to help him in his work for the Asbestos Corporation.	English			1923
R15519	MSS2541	Textual record	3	2	Open	Documentation on asbestos and asbestos industry	Short texts related to asbestos and the asbestos industry and a brochure of the Royal Society of Canada on the "Granitic Segregations in the Serpentine Series of Quebec".	English			1921-1929
R15519	MSS2541	Architectural, technical drawing	11		Open	Plans of the Asbestos Corporation Ltd	4 plans from the Asbestos Corporation Ltd. showing location of Diamond Drilling Holes at Bennet Martin, Beaver, King and Consolidated Mines	English	4 technical drawings.		September 24th 1929 to October 21st 1930
S- Silicosis											

Numéro de référence arch. / Reference Arch Number	No instrument de recherche / Finding Aid No.	Genre de support / Media Type	No Volume	No dossier / File No.	Code d'accès / Access Code File	Titre / Title	Portée et contenu / Scope and Content	Langue / Language	Étendue / Extent	Condition matérielle / Physical condition	Dates
R15519	MSS2541	Textual record	3	3	Open	Silicosis - Correspondence	Correspondence related to the mandate given to E. Poitevin by the Department of Health of Ontario in the study of silicosis. Contains also a short text which presents the origin of the project, the mandate of E. Poitevin and the necessity of more cooperation between scientists who are trying to solve the problem of silicosis.	English			May 19th 1931 to December 16th 1935
R15519	MSS2541	Textual record	3	4	Open	Silicosis - Correspondence	Correspondence related to the mandate given to E. Poitevin by the Department of Health of Ontario in the study of silicosis. The correspondence is also related to the collaboration with the Banting Institute of the University of Toronto. Includes a letter written by Frederick Banting in which he praises Poitevin for his work. Contains also correspondence with the Brotherhood Railway - Carmen of America (with some samples of dust which were sent at that time).	English			January 16th to December 19th 1936
R15519	MSS2541	Textual record	3	5	Open	Silicosis - Correspondence	Correspondence related to the mandate given to E. Poitevin by the Department of Health of Ontario in the study of silicosis. The correspondence is also related to the collaboration with the Banting Institute of the University of Toronto. Contains also correspondence with the Brotherhood Railway - Carmen of America and a report on the rock dust problem at Luscar Coal Ltd in Luscar, Alberta.	English			January 8th 1937 to March 30th 1948
R15519	MSS2541	Textual record and Photo	3	6	Open	A study of the lung ash of Ontario Miners	Analysis of miners lungs derived from individuals who had dust exposures in one, two, three or all of Ontario's four most prominent mining camps : Sudbury, Cobalt, Porcupine and Kirkland Lake. Descriptions of the properties of certain minerals identified in the insoluble portions of lung ashes.	English	1 photograph : b.&w.; 14 X 9 cm.		[193-]
R15519	MSS2541	Textual record	3	7	Open	A mineralogical study of ash residues obtained from human silicotic lungs	Text of introduction and detailed analysis of 74 cases : miners, industrials and normals lungs.	English			[193-]
R15519	MSS2541	Textual record and Object	3	8	Open	A mineralogical study of ash residues obtained from human silicotic lungs	Data on the spectrographic examination of insoluble portion of lung ash. Contains glass plates.	English	6 glass plates : 10 X 25 cm.		[193-]
R15519	MSS2541	Textual record and Photo	3	9	Open	A mineralogical study of ash residues obtained from human silicotic lungs	Text of introduction and analysis of several samples. Contains also a text which explains the spectroscopic examination of lung residues and a photo.	English	1 photograph : b&w ; 11 x 8 cm.		[193-]
R15519	MSS2541	Textual record	3	10	Open	A mineralogical study of ash residues obtained from human silicotic lungs	Tables of data, graphs, statistics and calculation sheets	English			[193-]
R15519	MSS2541	Textual record	3	11	Open	A mineralogical study of ash residues obtained from human silicotic lungs	Tables of data, graphs, statistics and calculation sheets	English			[193-]

Numéro de référence arch. / Reference Arch Number	No instrument de recherche / Finding Aid No.	Genre de support / Media Type	No Volume	No dossier / File No.	Code d'accès / Access Code File	Titre / Title	Portée et contenu / Scope and Content	Langue / Language	Étendue / Extent	Condition matérielle / Physical condition	Dates
R15519	MSS2541	Textual record	3	12	Open	Undesirable guests in the human lungs	Text of a presentation by E. Poitevin at a Meeting of the Ceramic Society, April 8th 1940. Contains also two letters and a telegraph in relation with the presentation.	English			April 3rd to 8th 1940
R15519	MSS2541	Textual record	3	13	Open	McIntyre Research Foundation	Papers and articles related to the work of the McIntyre Research Foundation on silicosis	English			1949-1956
R15519	MSS2541	Textual record	3	14	Open	Silicosis - Documentation	Papers and articles related to silicosis	English			1930-1937
R15519	MSS2541	Textual record	4	1	Open	Silicosis - Documentation	Papers and articles related to silicosis	English			1933-1938
R15519	MSS2541	Textual record	4	2	Open	Silicosis - Documentation	Papers and articles related to silicosis	English			1944-1949
R15519	MSS2541	Textual record	4	3	Open	Silicosis - Documentation	Papers and articles related to silicosis	English			1916-1941
R15519	MSS2541	Textual record	4	4	Open	Silicosis - Documentation	Papers and articles related to silicosis	English			1935-1952
R15519	MSS2541	Textual record	4	5	Open	Silicosis - Documentation : The Pneumonokonioses (Silicosis), Literature and Laws of 1934	The Pneumonokonioses (Silicosis), Literature and Laws of 1934, Chigaco Medical Press, Chigaco, 1935, 490 p.	English			1935
S- Publications on Mineralogy, Geology and the Mining Industry											
R15519	MSS2541	Textual record	4	6	Open	Notice sur les Travaux scientifiques du Muséum National d'Histoire Naturelle à Paris	Texte de M.A. Lacroix, professeur de minéralogie, et de Jean Ocrel, sous-directeur du Laboratoire de Minéralogie du Muséum National d'Histoire Naturelle à Paris, parus dans Notice sur les Travaux scientifiques. Le texte de Jean Ocrel est dédié à E. Poitevin.	French			1903-1937
R15519	MSS2541	Textual record	4	7	Open	Bulletins de la société française de minéralogie	3 bulletins (1936, 1937 et 1958)	French			1936-1958
R15519	MSS2541	Textual record	4	8	Open	Contributions to Canadian Mineralogy	2 publications (1924 and 1935); from the Departement of Mineralogy and Petrography of the University of Toronto	English			1924-1935
R15519	MSS2541	Textual record	4	9	Open	Publications related to serpentine and chrysotile asbestos	5 publications	English			1913-1928
R15519	MSS2541	Textual record	5	1	Open	Asbestos and asbestic : their properties, occurrence and use	Book by Robert H. Jones, F.S.A, Mineralogist, Hon. Mem. Asbestos Club, Black Lake, Canada. With 10 Collotype Plates and other illustrations, Crosby Lockwood and son, London 1897, 368 p.	English			1897
R15519	MSS2541	Textual record	5	2	Open	Chrysotile-Asbestos : its occurrence, exploitation, milling and uses	Book by Fritz Cirkel, M.E., Departement of Mines, Mines Branch, Government Printing Bureau, Ottawa, 1910, 316 p.	English			1910
R15519	MSS2541	Textual record	5	3	Open	Chrysotile Asbestos in Canada,	Book by James Gordon Ross, Departement of Mines, Mines Branch, Ottawa, 1931, 146 p.; Contains also a Circular of The Departement of mines of Ontario with the article "Asbestos in Ontario" by D.F. Hewitt	English			1931-1950
R15519	MSS2541	Textual record	5	4	Open	Asbestos : its sources, extractions, preparation, manufacture and uses in industry and engineering	Published by Becker & Haag, Berlin, 1928, 88 p. Includes many illustrations.	English			1928

R15519	MSS2541	Textual record	5	5	Open	Publications on the Mining Industry	1 Bulletin of the Institution of Mining and Metallurgy (1934) and 2 Chemical Engineering and Mining Review (1934-1935)	English			1934-1935
R15519	MSS2541	Textual record	5	6	Open	Publications internationales en minéralogie	Contient des textes de la France, l'Allemagne et des États-Unis sur des sujets reliés à la minéralogie : minéraux d'origines magmatique, serpentines, "crystallographic study of millerite", "Kentucky fluorites"	French and English			1904-1934
R15519	MSS2541	Textual record	5	7	Open	Publications internationales en minéralogie	Publications de Belgique, de Suisse et de France en lien avec la minéralogie	French		Les reliures des publications sont défectueuses; à manipuler avec soin.	1928-1937
R15519	MSS2541	Textual record	5	8	Open	La détermination des plagioclases dans les coupes minces	Texte de Louis Duparc, professeur à l'Université de Genève	French		La reliure de la publications est défectueuse; à manipuler avec soin.	1924
R15519	MSS2541	Textual record	5	9	Open	Recherches géologiques et pétrographiques sur le district minier de Nicolai-Pawda	Texte de Louis Duparc, professeur à l'Université de Genève	French		La reliure de la publications est défectueuse; à manipuler avec soin.	1916
R15519	MSS2541	Textual record	5	10	Open	Publications de Louis Duparc en géologie et minéralogie		French		Les reliures des publications sont défectueuses; à manipuler avec soin.	1916-1928
R15519	MSS2541	Textual record	4	10	Open	Annales du Musée du Congo Belge	Textes en lien avec la minéralogie au Congo Belge, par A. Schoep, professeur à l'Université de Gand et à l'École des Mines de Mons	French			août 1932
