MG 28
III 73

CHURCHILL FALLS (LABRADOR) CORPORATION LIMITED (est. 1958).
Hydro-Electric Power Company.

Originals, 1953-1975. 25.5 m. Finding Aid No. 1515.

Churchill Falls (Labrador) Corporation Limited (CFLCo) is a subsidiary of the British Newfoundland Corporation (Brinco), a company which was established in 1953 to develop the mineral and waterpower resources of portions of Labrador and Newfoundland. After conducting survey of the Hamilton River (later renamed the Churchill), Brinco established CFLCo in 1958 and charged it with the development of a power project at Churchill Falls in central Labrador. CFLCo engaged Acres Canadian Bechtel (ACB), a joint subsidiary of H.G. Acres Company Limited and Candian Bechtel Limited, to manage the project; the construction work was carried out by numerous contractors.

In 1960 CFLCo and two Labrador mining firms established Twin Falls Power Corporation Limited to develop a power project on a tributary of the Churchill River near Churchill Falls. The project was completed in 1962, although construction of additional generating capacity continued until 1969.

Construction of the Churchill Falls dam was delayed by the slow progress of negotiations between CFLCo and Hydro-Quebec, which lasted from 1963 until 1969. The eventual agreement provided for the sale of almost all of the Churchill Falls electricity to Hydro-Quebec for 40 years at a fixed price. Following the signature of a letter of intent by the two companies in 1966, underground work began in 1967; the first power was delivered into the Quebec-Hydro system in December 1971. With a capacity of 5,225 megawatts, Churchill Falls was at the time the largest power plant in Canada.

Presented by Churchill Falls (Labrador) Corporation Limited, St. John's Nfld., 1978-1981.

Maps and engineering drawings were transferred to the National Map Collection, printed material to the Public Archives Library and photographs to the National Photography Collection.

Finding Aid No. 1515 is a file list.

Historical and background material, 1963-1972. 20 cm (volume 1).

Articles, reports and clippings detailing the background and progress of the Churchill Falls program.

Hamilton River Investigation, 1954-1959, 1963, 1966-1970. 1.45 m (volumes 2-9).

Reports and research material relating to preliminary investigation of sites on the Hamilton (later Churchill) River, including Grand Falls (later Churchill Falls). Included are notes, drawings, calculations, plans, cross sections for water level calculations, soil analyses, excavation quantity estimates and related material. The material is arranged according to Brinco's numerical filing system.

III 73

CHURCHILL FALLS (LABRADOR) CORPORATION LIMITED (est. 1958).
Hydro-Electric Power Company.

Major agreements and legal documents, 1953-1973. 45 cm (volumes 9-11).
Legislation, letters patent, agreements, leases, bond financing agreements, deeds of trust and mortgage, bond closings and other documents of importance to the affairs of Brinco, CFLCo and Twin Falls Power Corporation.

Twin Falls Power Corporation Limited: registry, 1960-1970. 2.4 m (volumes 12-24).

Correspondence, reports, manuals, memoranda, agreements, contracts, financial material and other documents relating to the construction and maintenance of the Twin Falls hydro-electric development. The files are arranged according to the original numbered system established by the company; a guide to this system is found at the beginning of volume 12. Most of the material dates from 1966-1969.

Twin Falls Power Corporation Limited: correspondence and subject files, 1960-1973. 62 cm (volumes 24-26).

Outgoing correspondence and memoranda, 1966-1969; photograph album showing progress of the project, 1960-1964; financial material that is not part of the numbered filing system, 1961-1973; ledger, 1960-1963.

CFLCo: registry, 1958-1974. 8.05 m (volumes 27-66).

Central registry of the Churchill Falls (Labrador) Corporation Limited, including correspondence, reports, manuals, memoranda and other types of material relating to all aspects of the company's operations. The files are arranged according to the company's numbered filing system, which closely parallels that of Twin Falls Corporation; major categories include internal administration, project administration, planning and control, design and construction engineering, contracts, procurement, finance, legal matters and insurance. A partial outline of the system is found at the beginning of volume 27.

CFLCo: subject files, 1966-1974. 1.4 m (volumes 67-73).

Reports, correspondence, memoranda and other material not included in the company's numbered filing system. Major topics include Acres Canadian Bechtel's task force on procedures; contractors' claims; environmental studies; CFLCo's organization manual; safety, including accident statistics and accident reports; storage facility design reports. Arranged alphabetically.

CFLCo: contracts, 1964-1973. 3.25 m (volumes 74-90).

Printed contracts for various aspects of the construction and supply of the Churchill Falls project. Arranged by specification number or purchase contract number.

CFLCo: Walsh-Canadian Construction Company - contract claims, 1966-1973. 75 cm (volumes 90-93).

Contracts, claims, correspondence and legal documents relating to a dispute with one of CFLCo's contractors.

III 73

CHURCHILL FALLS (LABRADOR) CORPORATION LIMITED (est. 1958)
Hydro-Electric Power Company.

CFLCo: project progress reports and project status reports, 1967-1975.
1.4 m (volumes 93-100).

Monthly reports, including data on construction progress, manpower levels and expenditures.

CFLCo: financial subject files, 1964-1971. 1.3 m (volumes 101-108).

A unit consisting largely of a bond offering memorandum issued in 1968 and extensive supporting material which provides a description of most aspects of the project. Other material includes accounts receivable, yearly budgets, cost analyses, notes by a consulting firm on CFLCo's financial program, financial forecasts and an operating expense forecast.

CFLCo: budget, cost and forecast reports, 1967-1973. 2.8 m (volumes 108-122).

Monthly reports containing tables showing expenditures, forecasts and other data for each contract package.

Financial information and statements - British Newfoundland Corporation and subsidiaries, 1964, 1967-1972. 1.8 m (volumes 123-131).

Monthly financial statements for Brinco, CFLCo and Twin Falls Power Corp., 1967, and for CFLCo and Twin Falls Corp. 1968 - Nov. 1970; management control and information system reports, Dec. 1970 - Dec. 1971; other financial reports.

TWIN FALLS POWER CORPORATION LIMITED: REGISTRY

Notes on the Twin Falls Registry filing system

For the numbered Twin Falls registry, the main group headings (first digit) refer to the following general topics:

- 100 series: Internal administration
- 200 series: Project administration
- 300 series: Planning, control and cost reports
- 400 series: Engineering and construction
- 500 series: Contracts
- 600 series: Procurement
- 700 series: Finance
- 800 series: Legal and insurance
- 900 series: Operations

A detailed description of the system is found in volume 12.

CFLCo: REGISTRY.

Note on the CFLCo Registry filing system

For the numbered CFLCo registry, the main group headings (first digit) refer to the following general topics:

- 100 series: Internal administration
- 200 series: Project administration
- 300 series: Planning, control and cost reports
- 400 series: Engineering and construction
- 500 series: Contracts
- 600 series: Procurement
- 700 series: Finance
- 800 series: Legal and insurance

A partial description of the system is found in volume 27.
